DAILY MORNING POST.

NOVEMBER 30, 1842.

Home Affairs.

Nichols' Amphitheatre.

This splendid establishment opened on Monday night, to a large and respectable audience. The Company is an excellent one, and the performances went off in the most satisfactory manner. The building, though necessarily constructed in a hurry, is convenient and comfortable, and capable of containing a vast number of people.—On Monday night the weather was exceedingly cold, but the Amphitheatre, throughout the evening was at a pleasant temperature.

The enterprising Manager has taken every means to have those who patronize his establishment, well and comfortably entertained, and will doubtless obtain ample patronage.

The bill for this evening is a good one, in which the whole power and talent of the company will be advantageously exhibited.

Reading in Bed.—We have heard that a young lady of this city came near being injured by her head-dress catching fire, while reading "the latest fashionable novel" in bed. This is a practice "more honored in the breach than the observance" We are of opinion that those who are so fond of light literature might afford to sleep, and thus avoid accidents and show that they read to some purpose. All who read books for true knowledge never think of going to bed.

The Vigilant Case.—We understand that the Councils, at their meeting on Monday appointed a committee make an investigation of the dispute in relation to the Vigilant. Which of the parties claim to be the engine is the legal owner.

Jack Frost got into the Vigilant yesterday morning.

Theatre.—The Theatre opens again this evening for Mr. Foster's Benefit. Notwithstanding he offers a very *puny* bill, we think he may not be *punished* with a bad house.

☞ We have no robberies to record this morning.

Fire.—Yesterday morning, about one o'clock, a fire broke out in the Tobacco establishment of Mr. John Turbett, on Penn street. All the buildings connected with it (except one) were totally destroyed. The loss is enormous. We have not heard whether any part was insured. The engines we believe were all present except the Washington from Allegheny.

FOR THE MORNING POST.

Messrs Editors:—The Temperance army is dashing wonderful achievements in Cambria county, and the tread of the land in destroying the rank and rankling of the dreadful destroyer, making them as of old members of society, and restoring them to the life and liberty of his citizens. Mr J. R. Wills in company with another member of the Society, some time ago took a trip up the road and visited several small villages where he held meetings; but did not obtain many signers to them on account of the Company being so low they had received heretofore, until they arrived in Johnstown, where at three successive meetings they obtained 124 signers; on a few days after at No. 3 Plane 27 names; Hollidaysburg 43 names; Indiana 32 and 41 Juveniles, when they adjourned home.

Shame the younger days of the cause the Lecturers are not to contend with the discouraging circumstances that obstruct their path at present when they were erected with, at a single meeting a thousand names, but now the few that have not adopted the T. A. principle are staunch drinkers, arising from a scrupulous objection based upon unsubstantial grounds but to which they cling with the tenacity of a vice, therefore in the language of Williams himself we may safely affirm that one hundred names now is as much as a thousand in old times." Monday evening at the Plane a good number showed their faces as usual, but pleasant times we had in advancing the interests of mankind and demolishing the greatest enemy of peace harmony and contentment.

Hang Scripture.—They that skin coons shall be hung, by coons shall they be skinned in 42, See Thurlow's Commentary, in loco.

Moon Logic.—The Democrats beat us in 1842; *ergo*, we shall beat them in 1844.

The Philadelphia Times says that Governor Porter is an *off handed* lawyer. He lost his arm in a cider-mill.

A western editor, while describing a hurricane which passed over his village, says in the richest kind of licks. He states that the cloud, which contained the heavy charge of wind was of the blackest and most ferocious hue; that the force of the hurricane blew off and prostrated everything, including a little nigger; that nothing could withstand the tremendous outrageous force of the blast, and that in the particular time he entertained serious fears for the roof of his aunt's wood house.

Bad Run.—A chap at Grenada, Miss., according to the New Orleans Herald, recently went round town offering to fight any man in it for five dollars. It is not stated whether he obtained employment or not.

"Beautiful is the love, and sweet the kiss of beaux; but when you haven't a sister to spare, a cousin—or, any other lady, so young and pretty 'tisn't much differ-

CARR'S PATENT LAMPS, FOR BURNING LARD.—Those who would wish greatly to reduce their expense for light, should certainly purchase one of the above named Lamps, as by their use there is a clear saving of at least two thirds of the expense over Oil, and the light obtained from this is pure and brilliant, and wholly free from smoke or disagreeable smell. We would here state that Carr's Patent is the only one worthy the attention of the public, as it is the only one that is applicable to every variety or pattern of Lamps, and the only one that will burn Lard well, at any temperature of cold or heat. We have, in the short space of three months, sold several thousands; and with scarce an exception, those using them have expressed themselves highly pleased with them, and fully convinced of the great economy by their use, as well as their superiority over either oil or candles, in regard to cleanliness and light.

The above named lamps can be had only at

BROWN & RAYMOND'S,

Third street, nearly opposite the Post Office. Where is kept constantly on hand Britannia Metal, Tin and Glass Lamps, of various patterns.

Glass lamps sold at manufacturers' pri es.

We take pleasure in offering to the public the following certificate, which is subscribed to by many respectable citizens.

We the undersigned, have tried and are now using Carr's Patent Lamps, for burning Lard or other animal fat, and we have no hesitation in saying that they give an excellent light—equal to any of the ordinary modes of lighting a house, at about one-third the cost, and wholly free from smoke or other disagreeable smell. We take a pleasure in recommending these lamps to the public, as by their use there is a great saving over either sperm or lard oil, or even candles; and we believe them to be more cleanly and less troublesome than either.

To be had at Brown & Raymond's only, Third street, nearly opposite the Post Office.

CHEAPER THAN EVER!
SPLENDID ASSORTMENT OF
READY MADE CLOTHING
AT THE THREE BIG DOORS,
No. 151 Liberty st., one door from the Jackson Foundry.

THE Subscriber having prepared at his establishment the largest and most varied stock of READY MADE CLOTHING ever offered in the Western country, would respectfully invite the public to give him a call and examine his Goods and hear his prices before purchasing elsewhere. His stock consists in part of 1500 Coats, assorted sizes and quality; 2000 pair Pantaloons; 1800 Vests, with a large assortment of Shirts, Drawers, Cravats, Stocks, Gloves, Suspenders, and every other article of winter Clothing.

His Cloths were all selected by himself in the Eastern Markets, and purchased at the very lowest cash prices, and consequently he can afford to give his customers BETTER BARGAINS than they can get at any other house in the city. Believing in the principle of "Protecting Home Industry" he has therefore had all his articles manufactured by Pittsburgh workmen, and he has no hesitation in saying that they will be found in every respect superior to the *Eastern manufactured* articles that are offered for sale in the slop shops that have recently *flushed* among us.

In these times when *Home Industry* is occupying so large a share of public attention, as it always should, the proprietor of the "Three Big Doors" takes peculiar pride and pleasure in assuring the citizens of Pittsburgh that his Goods are *all manufactured* under his own eye, by the mechanics of his own town. He does not, like some of his rivals in trade, have his Clothes made up in a distant city, in another State, nor does he advertise his Stock in bills printed three or four hundred miles from here. He goes on the principle that the mechanics of Pittsburgh can do work as well as any others, and he does not desire to draw money from their pockets to support distant workmen; while he asks them to support him, he does not wish to impoverish them by a drain to support far off mammoth workshops.

The subscriber would take this occasion to return thanks to his friends and customers for the unprecedented patronage extended to his establishment, and to repeat his invitation to all those who wish to purchase clothing, of every description, made in the latest fashion and sold on the most accommodating terms, to call at No 151 Liberty street. THORN'S TEA BERRY TOOTH WASH—*A New Antiseptic Remedy.*—The extreme beauty of the Teeth, their indispensable use, and the frequency of their decay, has led to many inventions for their preservation; yet how to preserve them in a state of health an pristine beauty, to the latest periods of existence, was entirely unknown until the discovery of the above invaluable preparation. It forms a pure tincture composed of vegetable ingredients, and is possessed of the most delicious odor. It eradicates tartar from the teeth, removes spots of incipient decay, polishes and preserves the enamel, to which it gives a pearl-like whiteness, and, from its disinfecting properties, possesses the virtue of giving sweetness to the breath.

As an *Anti Scorbutic*, the Gums also share in its transcendent powers; Scurvey is eradicated from them, a healthy action and redness is induced, which offers to the notice of the medical practitioner indubitable evidence of their healthful state. It has been examined and used by several of the best physicians of this city, who have no hesitation in recommending it as an excellent wash for the Teeth, Gums, etc.

Among the recommendations to the above are the following:

Having tried Dr Thorn's "Tea Berry Tooth Wash," and become acquainted with the ingredients of its composition, I cheerfully say, I consider it one of the safest, as it is one of the most pleasant Tooth Washes now in use.

Pittsburgh Sep. 15, 1842 DAVID HUNT, Dentist.

I take pleasure in stating, having made use of Thorn's "Tea Berry Tooth Wash," that it is one of the best dentrifices in use. Being in a liquid form, it combines neatness with convenience. While it cleanses the enamel and removes the tartar from the teeth, its perfume yields a fragrance peculiarly desirable. J. P. FIBBETTS, M. D.

The undersigned have used Thorn's Compound Tea Berry Tooth Wash, and have found it to be an extremely pleasant dentifrice, exercising a most salutary influence over the Teeth and Gums; preserving those indispensable monitors from premature decay, preventing the accumulation of Tartar, and purifying the Breath. Having thoroughly tested its virtues, we take pleasure in recommending it to the public, believing it to be the best article of the kind now in use.

BROWNSVILLE FORGE AND IRON WORKS.—Ed. West, Blacksmith, Manufacturer of Iron and Nails, Brownsville, Pa., Monongahela Pittsburgh. sep 10—1y

TO THE PUBLIC, and particularly those who have been in the habit of purchasing Clothing from the stores of the subscribers, I may perhaps be expected to say something in regard to the change which has taken place in the conduct of the business. I may perhaps say that I have enjoyed an liberal or large a share of unobtrusive practice as any other practitioner for the last 30 or 40 years.

The experience of that long period of active life, and the fact of my having been twice, since 1830, associated with Dr. R. A. Wilson, in the practice of medicine, (in both a period of five years,) enables me to judge fully of the merits of his pills.

So convenient, so efficient, and yet so safe, did I esteem these pills, that for the last five years in my practice for the cure of chronic diseases, of whatever name, and those of females in particular, I have used more of them than all other medicines.

Like every other medicine, this must fail in some instances, but in my hands there has been less disappointment and more satisfaction in the administration of this one remedy than of all others; its good effects sometimes quite astonishing me.

If my patient required a safe aperient medicine either before or after parturition, the Wilson's pills were just the thing I wanted.

If a dyspeptic acid condition of the stomach, combined with costiveness or inactivity of the liver constituted the disease of my patient, the pills were just the thing I wanted.

If I treated a case requiring an emmenagogue, the Wilson's pills were just the thing I wanted.

If palpitation, headache, flushed countenance, or other difficulties, indicating a disturbance of the circulatory and secretory systems, annoyed my patient at the turn of life, the Wilson's pills were just the thing I wanted.

Thus, without respect to the name, a disease might happen to wear at the time I have had it under treatment, particular indications or symptoms arising, were always most promptly and most happily met by the Wilson's pills.

That so great a number of diseases, and sometimes apparently opposite ones, in which I have used these pills, should be cured more readily by them than by any other remedy, may at first seem strange and contradictory, but why it is so is as clear to my mind as that a great many persons should become thirsty from as many different causes and yet all require that common and greatest of all blessings, water to quench their thirst.

In conclusion, it is due the reputation of the medicine and the public, to say decidedly and unconditionally, that the Wilson's pills are the only combination I have ever met with in my long course of practice, that really possesses anything curative or specific for sick headache.

Yours &c., DR. MILO ADAMS.

The above Pills designed particularly for the sick Head-Ache, Dyspepsia, Constipation of the Bowels &c., prepared by the proprietor Dr. R. A. Wilson, and for sale, wholesale and retail, at his dwelling in Penn street, below Marbury. Oct 1

DENNING'S FIRE PROOF IRON CHESTS.

PITTSBURGH, OCT. 22, 1842.

J. DENNING—On Friday, the 30th of last month, about 8 o'clock at night, the Planing, Grooving and Sash Manufactory, owned by Gay, Dilworth & Co. with a large quantity of dressed and undressed lumber, was all consumed by fire.

The Iron Safe which I bought of you some time back, was in the most exposed situation during the fire, and was entirely red hot—I am pleased to inform you it was opened at the close of the fire, and all the books, papers, &c. saved;—this is the best recommendation I can give of the utility of your safes.

WESTERN UNIVERSITY OF PENNSYLVANIA.—LAW SCHOOL.—The Trustees of the Western University of Pennsylvania announce to the public that they have established a *Law School* in connection with the University, in which will be taught Municipal, International, and Constitutional Law in all their branches.

The mode of instruction will be by recitations, lectures and occasional moot-courts, as in similar institutions.

The year will consist of two terms of four and a half months each.

The first term will commence on the second Monday of November next.

The tuition fee is $37.50 per term payable in advance.

WALTER H LOWRIE, Esq., a member of the Pittsburgh Bar, has been chosen Professor. The trustees take great pleasure in announcing that they have been able to secure the services of one so well qualified for the station by reason of his legal acquirements, and particularly of one so highly esteemed as a scholar and a gentleman. The annexed recommendation will furnish satisfaction to all his qualifications as Professor.

The trustees having been induced to institute this school from a view of the serious disadvantages attending the studies of law, in the office of practising lawyers and also the very obvious advantages which Pittsburgh possesses over most other places in the West for the establishment of such an institution—Here is a most industrious population. The student will see around him examples of industry and energy, and very few temptations to indolence and idleness. He may become acquainted with business in all its forms. Our Courts are sitting nearly all the year round, and there is perhaps no place in the West where a greater variety of cases and principles arise for discussion.

The Committee are desirous that all persons wishing to avail themselves of the advantages of this school, should do so immediately by calling and leaving their names at the office of Walter H. Lowrie, Esq., on Fourth street—or by addressing him by letter, post-paid, so that all students may commence at the opening of the term, or as early thereafter as possible.
