FOR SALE,

A Printing Press and Types, together with the right of publishing a PAPER, in good repute, the subscribers to which are continually increasing – The present number of its patrons is between seven and eight hundred. The types consist of Burgeois, Pica, and a sufficient quantity of larger letter to display advertisements to advantage. The situation is in the interior part of Massachusetts, in the centre of a populous and thriving community, and within 17 miles of an excellent Paper-Mill, where paper of every quality and size may always be had on short notice. Perhaps no dountry paper on the continent has a later share of Advertisements than the one offered for sale. A very considerable profit also accrues from the sale of Blanks of all kinds, which are much used in the place—from the publication of Hand-Bills, &c. &c. It is a good situation, also, for a small Book-Store—and it is supposed the Book-Binding business might be carried on in the same place to advantage.

CONTRACT,

For erecting BRIDGES over the HACKINSACK and PASSAICK Rivers, between Powles-Hook and Newark, in the State of New-Jersey.

THE Commissioners appointed by an act of the legislature of the state of New-Jersey, to erect bridges over the Hackinsack and Passack rivers, having obtained the necessary surveys, are now ready to receive proposals for performing the same; and offer the following conditions for the consideration of such as may exceed the same of the consideration of such as may be inclined to contract :

The situation of the bridge across the Hackinsack river, will be at one of the following stations, as shall be hereafter determined

1st. At the place where the present ferry is established, where the width of the river is 1448 feet.

Depth at the eastern shore, 8 feet 8 inches.

Do. western shore, 8 11

The bridges are to be constructed on the principles of those erected over Charles, Mystick, and Beverly Rivers in the State of Massachusetts, with a draw to admit a free passage for vessels with fixed standing masts, not less than twenty-sour seet wide, to be placed in such part of the bridges as shall be determined most convenient for the navigation of the river, with piles or blocks on each side of the entrance of such draw, as shall be judged sufficient to aid vessels in passing through. Also, one lamp on each side of the draw, to be lighted every night from sunset to sunrise, during the continuance of the lease.

The bridges are to be built with such piles, timber, scantling,

The bridges are to be built with such piles, timber, scantling, and plank, as shall render them perfectly substantial and secure in the opinion of the commissioners, and are to be of a sufficient height to protect them against the tides, which rise at ordinary tides from 5 to 6 feet, and at spring tides from 8 to 10 feet. They are to be 31 feet in breadth, viz.

Allowance for carriage way, 20 feet.

Do. for foot walks, railed off on each fide, 4 feet each, 8 feet.

Do. for ballustrades, 1 foot each, 2 feet.
Do. for hand-rails for do. 6 inches each, 1 foot.—Total, 31 feet.
The sides of the bridges to be fecured with strong ballustrades, after the manner of the bridge between Boston and Charlestown.
The bridges and draws are to be kept in constant repair, and at the expiration of the leafe are to be furrendered in good order, agreeably to the act.

The following are the terms which the commissioners are au-

the following are the terms which the contractors:

A leafe of the exclusive privilege of the bridges for a period not exceeding 99 years, with a toll equal to three-fourths of the prefent rates of ferriage.

From as accurate an estimate as could possibly be obtained, the actual receipts of the ferries for a medium of five years last past, amount to twelve hundred pounds, New Jersey currency, per annum, three-fourths of that sum will consequently produce an immediate income of 900 pounds per ann. This may fairly be estimated as the smallest profit that can be calculated upon. The advancing population of the United States, the increasing intercourse between the two cities of New-York and Philadelphia, the facility which the conftruction of these bridges will give to travel-ling, the easy communication thereby offered with the state of New-York, on the western side of the Hudson, are all important circumstances, which must necessarily tend rapidly to accumulate the profits of the bridges. The commissioners are moreover authorized by law to raise four thousand pounds to be applied towards making causeways and laying out proper roads connected with the bridges, and have a lottery now on foot for that purpose. As soon as the places shall be determined on where the bridges are to be fixed, and the contracts for erecting them are executed, the roads and causeways will be immediately undertaken.

Such persons therefore as may be inclined to contract on the ove principles, will be pleased to send in their terms sealed, within three months from this date, to WILLIAM MAXWELL, Efq. in New-York, specifying the shortest period of leafe for which they will undertake to erect the said bridges, together with proper fecurity for performing the same.
