Miscellaneous.

Tin Roofing.

THE subscribers most respectfully announce to their fellow-citizens that they have prepared their extensive establishment for the business of Tin Roofing on an extensive scale.

We now close up four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a cheap mode of roofing, which may be seen at our establishment, where any other information will be given with pleasure.

TO THE ATTENTION OF THE PUBLIC is respectfully called to the following certificates:—

MR. S. ELKINS—Having tested a quantity of Gold weighed by your Areometer, I find the result proves your instrument correct; and recommend the use of it to those going to California, as the best method for obtaining the true value of Gold. Resp. yours,

J. B. DUNLEVY,

Pittsburgh, March 9, '49. Gold Beater.

PITTSBURGH, March 7, 1849.

MR. ELKINS—*Dear Sir*: Having examined the "Areometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen who are about removing to California, in search of Gold. "Areometer" indicates a close approximation to the specific gravity of metals, and will certainly enable the adventurer to ascertain when his placer is yielding Gold.

Yours, respy., J. R. M'CLINTOCK.

Gold Washers.

H. PARRY has invented a machine for washing Gold, for which he has made application for a patent. They are now offered for sale at the Warehouse of PARRY, SCOTT & Co., No. 103 Wood st., Pittsburgh.

Adventurers to California are invited to call and examine these labor-saving machines. They are simple in their construction, easily transported on the back of mules or horses, weighing eighty pounds each, and can be put in operation in half an hour. They can be filled with provisions. It is the opinion of those who have tried them, that a Digger of one of the machines of smallest size, first two men will wash the mineral from 150 bushels per sand or earth in a day, without the loss of a particle of the mineral. They can be increased in size and worked by water or mule power, if expedient. The operators work without going into the water or being exposed to water or wet, and consequently without endangering their health. They will require but a small stream of water, and can be used the whole season, and can be put up and taken down at the least expense of any machine in the usual way.

The price of the smallest size $35.; Orders from abroad, accompanied by cash, will be promptly filled.

H. PARRY, at Parry, Scott & Co's.

READ THIS LETTER—Who will be without a beautiful head of hair, when they can have one for three dollars? Twenty years' loss of hair, and now its restoration!

BALTIMORE, July 12, 1847.

"Dear Sir—The wonderful effects of Jones' Coral Hair Restorative has been decisively demonstrated in the cases of several relations, and myself. Twenty years' account of your selling three shilling trial bottles, try it without fear. One instance, which has attracted particular attention, is the case of a gentleman bald, not a hair on his head for twenty years; he had tried numerous preparations in vain, and ultimately had his head shaved and wore a wig. At my recommendation, he tried Jones' Restorative, and after using it according to the direction, for a short time, the young hair appeared, and he has now as fine a head of hair as any person in Baltimore.

"Yours, &c., JOHN KILVINGTON."

It causes a sickness to grow, prevents the hair from turning grey, and the first application causes it to curl beautifully, frees it from scurf, and stops it from falling off.
