Gold Washers.
H. PARRY has invented a machine for washing Gold, which he has made application for a patent.—They are now offered for sale at the Warehouse of PARRY, SCOTT & Co., No. 102 Wood st., Pittsburgh.

Adventurers to California are invited to call and examine these labor-saving machines. They are simple in their construction, easily transported on the back of mules or horses, weighing eighty pounds each, and can be put in operation in half an hour. They can be filled with provisions. It is the opinion of those who have seen the trial of one of these machines, that two men will wash the mineral from 150 bushels of dirt or earth in a day, without the loss of a particle of the mineral. They can be used in size and worked by water or mule power, if expedient. The operators will be without going into the water or being exposed to their health. They will require but a small stream of water, and can be used the whole season, and be put into operation where there is not sufficient water to wash in the usual way.

READ THIS LETTER.—Who will be without a beautiful head of hair, when they can have one for three shillings? Twenty years' loss of hair and wonderful restoration!

"BALTIMORE, July 17, 1847.

"Dear Sir—The wonderful effects of Jones' Coral Hair Restorative has been decisively demonstrated in the case of a most respectable citizens of the town, who, on account of your selling three shilling trial bottles, try it without fear. One instance, which has attracted particular attention, is the restoration of a gentleman who for no hair for twenty years; he had tried numerous preparations in vain, and ultimately had his head shaved and scurvy, and after using it, according to the direction, he found a new growth of hair to have appeared, and he has now as fine a head of hair as any person in the city.

"Yours, &c., JOHN KILVINGTON."

It causes a growth to grow, prevents the hair from turning grey, and the first application causes it to curl beautifully, frees it from scurf, and stops it from falling off.
