Tin Roofing.

THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on an extensive scale.

It is now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure.

The Accometer.

THE ATTENTION OF THE PUBLIC is respectfully called to the following certificate:—

Mr. S. Eakins—Having tested a quantity of Gold weighed by your Accometer, I find the result proves your instrument correct; and recommend the use of it to those going to California, as the best method for obtaining the real value of Gold. Resp'y yours,
J. M. DUNLEVY,
Pittsburgh, March 9, '49. Gold Beater.

Pittsburgh, March 7, 1849.

Mr. Eakins—Dear Sir: Having examined the "Accometer," manufactured at your works, I do not hesitate to commend it to the use of those gentlemen who are about removing to California, in search of Gold.

It gives a clear approximation to the specific gravity of metals, and will certainly enable the adventurer to ascertain when his placer is yielding Gold.

To the Citizens of Pittsburgh and Vicinity.

THE citizens of Pittsburgh and its vicinity are reminded that they can fit themselves with some of the handsomest FRENCH CHINA TEA SETTS, QUEENSWARE AND GLASS—for beauty, price and quality, cannot be excelled in this or any other City West of the Mountains—at M. HODKINSON'S, No. 115 Wood street. There you will find some of the prettiest white and blue Stone-ware in the city, dinner and toilet sets, or in separate pieces, ever opened in this city; and as the proprietor is about to remove from the place he now occupies, to a more convenient and cheap stand, (No. 86 Wood street, opposite the Eagle Saloon,) he is desirous of closing out the present stock, previous to moving, so you are aware of that you can get your crockery for breakage, &c., in moving so large a stock as he now has in store, and have it put down at any day to do so, it will compel him to close out almost his entire stock.

He is determined to close out at an enormous sacrifice, rather than incur the impending cost. Now is the time to secure your Bargains! This may be the only opportunity you may have of securing Queensware at such low prices. Remember—

Gold Washers.

H. PARRY has invented a machine for washing Gold, for which he has received Patents in Europe and America. They are now offered for sale at the Warehouse of PARRY, SCOTT & Co., No. 103 Wood st., Pittsburgh.

Adventurers to California are invited to call and examine these labor-saving machines. They are simple in their construction, strong, easily transported on the back of mules or horses, weighing eighty pounds each, and can be put in operation in half an hour. They can be filled with provisions, and will accommodate those who have seen the trial of one of these machines of smallest size, for two months, and will wash the mineral from 150 bushels of sand or earth in a day, without the loss of a particle of the mineral. They can be increased in size and worked by water or mule power, if expedient. The operators have to stand in the water or being exposed to the weather or wet, and consequently without endangering their health. They will require but a small stream of water, and can be used the whole season, and can be put in the same place, where there is not sufficient water to wash in the usual way.

Price of smallest size $35. Orders from abroad, accompanied by cash, will be promptly filled.

READ THIS LETTER.—Who will be without a beautiful head of hair, when they can get it for twenty-five shillings? Twenty years' loss of hair and wonderful restoration!

"BALTIMORE, July 17, 1847.

"Dear Sir—The wonderful effects of Jones' Coral Hair Restorative has been so decisively demonstrated in the case of several respectable citizens of this town, that I consider your selling three shilling trial bottles, try it without fear. One instance, which has attracted public attention, is the case of a gentleman who had little parations in vain, and ultimately had his head shaved over a wig. At my recommendation, he tried the Restorative, and after using three bottles, according to the direction, a flexible silky hair, will find it to be advantage to call and examine our stock before going elsewhere.
