Tin Roofing.
THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on an extensive scale.
It is now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure.

PITTSBURGH, March 7, 1849.
MR. EAKINS—*Dear Sir:* Having examined your Areometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen, who are about removing to California, in search of Gold.
It gives a close approximation to the specific gravity of metals, and will *generally* enable the adventurer to ascertain when his placer is yielding Gold.
Yours, resp'y, J. R. M'CLINTOCK.

THE citizens of Pittsburgh and its vicinity are hereby minded that they can fit themselves with some of the handsomest CHINA, FRENCH CHINA, TEA SETTS, QUEENSWARE AND GLASS—for beauty, price and quality, cannot be excelled in this or any other City West of the Mountains—at M. HODKINSON'S, No. 115 Wood street. There you will find some of the prettiest white and blue Stone-ware, in tea, dinner and toilet sets, or in separate pieces, Wood and Willow; this ware is manufactured to order, and is now from the store he now occupies, to a large commodious part of the city, (No. 56 Wood street, opposite Eagle Saloon,) he is about to vacate on account of the present stock, previous to removing, as you are aware of his heavy losses he would sustain by breakage, &c., in moving so large a stock as he now has in store, and having but one day to do so, it will compel him to close out the entire stock at auction.
He is determined to close out at an enormous sacrifice, regardless of importing cost. *Now is the time to secure* their satisfaction, for the stock must be disposed of, and you may have of securing Queensware at such low prices.

Boots and Shoes Selling off at Cost.
THE subscriber wishes to retail his entire stock of Boots and Shoes at cost.—He is a party who has made application for a patent. They are now offered for sale at the Warehouse of PARKER, SCOTT & Co., No. 103 Wood st., Pittsburgh.
Adventurers to California are invited to call and examine these labor-saving machines. They are simple in their construction, easily transported on the back of mules or horses, weighing eighty pounds each, and can be put in operation in half an hour. They can be filled with perfect ease by a single person. It is the opinion of those who have seen the trial of one of these machines of smallest size, that two men will wash the mineral from 150 bushels of sand or earth in a day, without the loss of an article of the mineral. They can be increased in size and worked by water or mule power, if expedient. The operators work without going into the water or being exposed to water or wet, and consequently without endangering their lives in the cold water of California, as they can be used the whole year round, and can be put into operation where there is not sufficient water to wash a cradle in.
Price of smallest size $35. Orders from abroad, accompanied by cash, will be promptly filled.
