THE GREAT PRIZE!

EXPOSITION UNIVERSELLE, PARIS, 1867.

THE HOWE SEWING MACHINE CO.,
ELIAS HOWE, JR.,
Awarded over Eighty-two Competitors,
THE HIGHEST PREMIUM,
The Only Cross of the Legion of Honor
AND

GOLD MEDAL

given to AMERICAN SEWING MACHINES, per Imperial Decree, published in the "Moniteur Universel" (Official Journal of the French Empire), Tuesday, 24 July, 1867, in the words:

ELIAS HOWE, JR. — "Fabricante de Machines a Manufacturer of Sewing Machines, Exhibitor.

This double first honor is another proof of the great superiority of the Howe Sewing Machine over all others.

SIBLEY & STOOPS,
No. 23, South Eight Street,
PHILADELPHIA
Agents for Pennsylvania, New Jersey, Delaware and Western Virginia.

14feb-3m.

GROVER

AND

BAKER'S

ELASTIC STITCH FAMILY

SEWING MACHINES,

Are the best in Use,

FOR THE FOLLOWING REASONS:

They are more simple and durable easier kept in order, make a stronger and more elastic stitch, a firmer and more beautiful seam than any other. They sew all fabrics from two common spools, requiring no re-winding of thread, fasten both ends of the seam by their own operation, and though every fifth stitch cut the seam will not rip.

The Very Highest Prize, the Cross of the Legion of Honor, was conferred on the representative of the GROVER & BAKER SEWING MACHINES at the Exposition Universelle, Paris, 1867; thus attesting their great superiority over all the sewing machines.

GROVER & BAKER'S

NEW STYLES

SHUTTLE MACHINES

For Manufacturing,

Combine the most modern and essential improvements.

The attention is requested of Tailors, Manufacturers of Boots and Shoes, Carriage Trimming, Clothing and all others requiring the use of the most effective

Lock Stitch Machines,

To these New Styles, which possess unmistakable advantages over all others.

STOVES AND TIN WARE.

IF YOU WANT TO SEE THE most perfect Parlor Stove ever offered to the public, step into

WM. FRIDLEY'S

Stove Store East Louther street, in the rear of Halbert's Grocery Store and see the

GREAT AMERICAN BASE BURNER

in operation. It is a perpetual Burner, and perfect Radiator, as well as a perfect Ventilator of the room, and is warranted to consume less coal than any other Stove of the same size ever offered to the public, requiring but one ordinary scuttle of small coal once in twenty-eight hours, being perfectly simple in all its working, having a simple slide to regulate the fire for keeping at night, one kindling of fire being all that is required during the winter. No dust, no gas, no slag or cinder.

PERFECTION IN OPERATION!
THE LATTER QUALITY IS PRODUCED BY THE FOLLOWING IMPROVEMENTS:

ITS IMPORTANT CHARACTERISTICS ARE THESE:
NEATNESS IN DESIGN!
COMPACTNESS IN SIZE!

1.—An ample Magazine, or Reservoir, for Coal, having a free discharge mouth, the magazine being adjustable to different heights of six to nine inches from the grate, so as to accommodate the supply of Coal as to its size and quantity, thus permitting the maintenance of a certain depth of coal for active combustion within the fire-pot, (which is free of nut or stove size), which is the only way to burn Anthracite coal to advantage. Different sizes of coal require more or less depth for perfect combustion.

2.—A Funnel, or Hopper, for the passage of the coal to the magazine is so arranged as to permit the introduction of fresh coal, without allowing any escape of fumes and gas into the room; and further, when the Stove is left with its top uncovered, compelling any fumes that may escape from the supply in the reservoir, upwards to its top, to pass over the top of the reservoir into the surrounding flue, and so to the base and outlet.

3.—A Fire-Pot with a continuous Flue, over its entire upper edge and down its whole body to the base and outlet flues by which means the heat is transmitted not in separate flues, several inches apart, as is usual in downward draft Stoves, but by a continuous sheet of flame in contact with the entire circumference of the outer casing of the Stove, from the top of the Fire-Pot downwards, giving a far more extended surface of radiation of the heat that any downward draft Stove extant.

4.—An ample Grate Surface and Air Passages, and a complete arranged Grate, for shaking and dumping, with a good size Ash Pan to receive the ashes and cinder.

☞ We also wish it to be noted, that there is an absolute

SECURITY FROM EXPLOSIONS OF GAS!

upon the removal of the cover from the Stove, which so commonly occurs upon the removal of the covers with other Magazine Stoves, for such is the effect of the Funnel, as constructed and arranged in reference to the Magazine and its surrounding Flue, that NO GAS CAN ACCUMULATE IN THE UPPER PART OF THE MAGAZINE TO EXPLODE. Nor can a current of air, or draft, be created upwards through the Magazine to inflame its contents which happens with other Stoves igniting and destroying the Magazine itself.

Every feature of this Stove is calculated to effect.

☞ ECONOMY!

IN THE USE OF FUEL, DURABILITY IN ITS CONSTRUCTION AND SYMMETRY IN ITS PROPORTIONS.

In addition to the above Stove, Fridley keeps on hand a full supply of the best Tin ware, Parlor and Office Stoves.

Tin and Sheet Iron work of all kinds on hand, and Spouting, Roofing and Jobbing of all kinds, done at short notice, and of the best material, Fruit Cans and Jars of the most approved patents, and in conclusion the cheapest and quickest

FURNACES.

Ever offered to the public. For References call on T. Conlyn; T. C. Fleming; Dr. Geo. Neidigh; A. L. Sponsler; B. Saxton; Prof. Hilbush; D. J. Leidigh; G. Rogers and others.

29nov67-1y

JAMES M'CONIGAL,

MANUFACTURER AND DEALER IN

STOVES, TIN AND SHEET-IRON WARE,

South Hanover St., Adjoining Blair & Son's Grocery

CARLISLE, PA.

The subscriber thankful for past favors, respectfully informs his friends and the public, that he has now on hand a large supply of the COOK and PARLOR STOVES,

HEATERS and RANGES,

in the Stove Department we desire to call particular attention to the following, comprising as they do, the very best Cook and Parlor Stores now in use:

NIMROD,
QUAKER CITY,
EXCELSIOR, PENN,
NOBLE COOK,
NIAGARA,
SUSQUEHANNA and BONSIDES.

To speak at length of the different Stoves would occupy too much space, but we deem it necessary to call the attention of the public to the

EMPIRE GAS BURNER.

This truly wonderful Parlor and Office Stove is so constructed that the cheapest quality of coal (Limestone) can be used with as much ease as burning gunpowder, and the fire is easily kindled. It is capable of heating one room below and two rooms above, thereby no dust and no escape of gas, and an actual saving of coal, which in two or three seasons will pay for the stove.

This Empire has many valuable qualities which can only be fully appreciated by seeing it in operation. We claim that it is far superior to any other Stove now in use, and we feel satisfied that we can convince all who will favor us with an examination of the Stove at our shop of this part.

We have on hand a full assortment of

TIN WARE.

Repairing promptly attended to. Spouting will be put up on reasonable terms, and with dispatch.

Please give us a call at No. 42 South Hanover Street, adjoining Blair's Grocery.

JAMES M'CONIGAL.

LEE'S LINE.

The Only Individual Daily Freight Line between Carlisle, and Philadelphia.

MERCHANTS LOOK TO YOUR INTERESTS!

IMPORTANT ANNOUNCEMENT TO

MERCHANTS & FREIGHTERS!

That on and after the 1st day of December, 1867, this Line will transport Goods of all descriptions, from Philadelphia to Carlisle, at precisely Company Rates.

In making this very important announcement to the New Items and Shippers the undersigned, feel assured that it will meet with the hearty approval and encouragement of their patrons. Past experience has fully demonstrated that it is highly important to patronize and encourage individual interest and energy, thereby securing fair competition and protection against railroad monopoly.

The many and very important advantages of a

DAILY FREIGHT LINE,

are too well known and appreciated by this community to be overlooked and forgotten. We rely with confidence upon the active cooperation of our numerous patrons and friends, in advancing the interests of this Line. Experienced conductors accompany each train to see to the safe delivery of all goods entrusted to the Line.

The Philadelphia and Reading Freight Depot

will be used by this Line, for the reception of all Goods, the UNEQUALED advantages offered in the same, in the Way of Light and Space, will be largely beneficial.

Draymen will find this Depot easy of entrance, being level with the Street.

Be careful to have your Goods marked and ordered to PHILADELPHIA and READING Depot. Goods delivered at this Depot every time before 6 o'clock P. M., will be loaded the same day.

RAILROADS.

CUMBERLAND VALLEY RAILROAD COMPANY.

FREIGHT DEPOT, CARLISLE.

The Cumberland Valley, Pennsylvania and Northern Central Rail Road Company have made an arrangements to do a

Joint Freight and Forwarding Business

between the Cities of Philadelphia, Baltimore and New York. The Cumberland Valley Rail Road Company opened their Freight Depot at Carlisle on the 1st of January 1866 for the receipt and shipment of all goods entrusted to them.

Freight to be forwarded by this arrangement must be left at Pennsylvania Rail Road Company Depot corner of 16th and Market St., Philadelphia, Northern Central Rail Road Company's Depot Baltimore, and Cumberland Valley Rail Road Company's Depot at Carlisle.

The public will find it to their interest to ship through the Rail Road Company's Freight Houses and by Company Cars.
