Daily Review of the Markets.

OFFICE OF THE POST,
TUESDAY MORNING, *June 12, 1849.*

We are not yet able to announce any change in the business of the city, every thing in the way of trade still appears dead, and the merchants complain of the general dullness. The weather to-day has been extremely favorable. The rivers are in fair navigable order, but there are but few boats arriving and departing.

FLOUR...The arrivals to-day have been quite heavy, but were principally for shipment. The market has shown more animation to-day than for several days previous. We note transactions to some considerable extent at $3,56@3,62 for prime. We heard of one transaction to the amount of 300 bbls. of extra brand at $3,65; but this we think above the market price. Sales from store in a regular way are making at $3,75.

RYE FLOUR is not much in demand. Sales from store to a limited extent, are making at $2,75.

GRAIN...Rye at the river is worth 45@47; from store 50. There is no change from former prices in either Wheat or Oats.

WHISKEY...The demand for rectified is regular at 18c per gal.

WOOL...The arrivals yesterday were pretty fair, but principally for re-shipment. There is no change in figures.

FRUIT...Dried Apples 50c and dull; Peach 1,12½ from first hands; from store 1,25@1,31.

NEW ORLEANS MARKET,
June 1, 1849.

Cotton.—The proximity of the Niagara's accounts, now overdue by Telegraph, has a tendency to check the demand for Cotton. The sales yesterday were 3000 bals, including a list of 500 bales said to have been closed late on Wednesday. Prices are unchanged.

EXTENSION
Of the Baltimore and Ohio Rail Road.
To Contractors for Graduation and Masonry.

PROPOSALS are invited for the Graduation and Masonry of about 20 miles more of this road, beginning at a point some 6½ miles west of Cumberland, and ending at point about 13 miles west of Cheat River, exclusive. The Graduation on nearly all these sections will be light, and will include one Tunnel of considerable length and three short ones. There will also be two Viaducts of medium size.

Specifications and plans of the work will be ready for distribution to proposers by the 12th of June, prox., at the Company's office in Cumberland. The proposals will be addressed to the undersigned, and will be received up to Saturday, the 1st of July, when the same place. Proposers are earnestly requested to examine the line closely before bidding, and to avail themselves of the ample means of information at the office of the work, which will be furnished them, as contractors from distance, accustomed to more difficult excavations than those to be met with on this line, will find it their interest to make their estimates too high. The best testimonials will be required, and a energetic prosecution of the work will be necessary. The payments will be made with the usual reservation of one-fifth till the completion of the contract. By order of the President and Directors.
Baltimore, May 31, 1849. BENJ. H. LATROBE, Chief Engineer.
