Miscellaneous.

Tin Roofing.

THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on an extensive scale.

It is now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure. JOHN DUNLAP & CO.

MR. BAKINS—Having tested a quantity of Gold weighed by your Areometer, I find the result proves your instrument correct; and recommend the use of it to those going to California, as the best method for obtaining the real value of Gold. Resp. yours,

J. B. DUNLEVY.

Pittsburgh, March 9, '49.

PITTSBURGH, March 7, 1849.

MR. BAKINS—*Dear Sir*: Having examined the "Areometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen who are about removing to California, in search of Gold.

It gives a close approximation to the specific gravity of metals, and will *certainly* enable the adventurer to ascertain when his placer is yielding Gold.

mr10 Yours, resp'y, J. R. M'CLINTOCK.

Gold Wasners.

H. PARRY has invented a machine for washing Gold, for which he has made application for a patent. They are now offered for sale at the Warehouse of PARRY, SCOTT & Co., No. 75, Second st., Pittsburgh.

Adventurers to California are invited to call and examine these labor-saving machines. They are simple in their construction, easily transported on the back of mules or horses, weighing eighty pounds each, and can be put together in half an hour. They can be filled with provisions. It is the opinion of those who have seen the work of one of these machines of smallest size, that two men will wash from 150 to 250 bushels of sand or earth in a day, without the loss of a particle of gold. Their capacity can be increased in size and worked by water or mule power, if expedient. The operation of work without going into the water or being exposed to water is the great advantage in favor of using their hen th. They will require but a small stream of water, and can be used the whole season, and can be put up in operation where there is not sufficient water to wash in the usual way.

Price of small size $35. Orders from abroad, accompanied by cash, will be promptly filled.

READ THIS LETTER.—Why will you be without a beautiful head of hair, when they can have one for the asking? Twenty years' loss of hair and wonderful restoration!

"BALTIMORE, July 17, 1847.

"Dear Sir—The wonderful effects of Jones' Coral Hair Restorative has been demonstrated in the most positive sense of several respectable citizens of the town, who, on without fear. One instance, which has attracted particular attention, is the case of a gentleman who had little or no hair on his head for twenty years; he had tried numerous preparations in vain, and ultimately had his head shaved and wore a wig. At my recommendation, he tried the Restorative, and after using four bottles according to the direction, for a short time, the young hair appeared, and he has now as fine a head of hair as any person in Baltimore.

Yours, &c. JOHN KILVINGTON."

It causes eyebrows to grow, prevents the hair from turning grey, and the first application causes it to curl beautifully, frees it from scurf, and stops it from falling off.
