Wolcwells Cholera Mixture.

SYMPTOMS—Sudden pain in the stomach, with violent pitching, followed by vomiting, or yellow, or pearl color, with white flakes on the surface, or abundance of ropy matter, with great prostration of strength, followed by violent purging, with great anxiety and distress, and cramp in the legs and feet. These are well described as virulent cholera, and are usually preceded by a general indisposition, which is usually accompanied with great uneasiness and pain in the stomach and bowels, a coating on the tongue and breath are icy cold; the tongue is sometimes clean, but generally slightly coated; the voice becomes weak and husky; cramps and spasms of the arms, legs and body are general and painful symptoms. The skin is shriveled and of a purple hue; the pulse becomes weak and frequent, and in the collapse stage cannot be felt at the wrist; the breathing labored and hurried. These symptoms usually succeed each other in the order stated.

WOLCWELL'S CHOLERA MIXTURE.

This mixture is prepared from the prescriptions of the late Dr. A. W. Wolcwell, of Pittsburgh, in his extensive practice, he had used it with complete success in the epidemic of 1833 and the present season. Steamboat men have given it to many passengers who have been attacked with the disease the present season, and in every case effected a speedy cure—after they had been pronounced incurable by physicians on board. Prepared solely by the proprietor. WM. THORN, Druggist, No. 53 Market street, Pittsburgh, Pa.

Death to the Rats.

IT is a notorious fact that of all evils, none are held in such abhorrence as those of Rats, Mice, Roaches and Bugs, and to have them exterminated, it is what all desire of life. A preparation has been discovered by which those who wish, may become rid of this evil, which is more or less in every house in the city.

This preparation has now been in use in Germany about seven years, (and in the United States for the last five) and in every one who has given it a trial, has been pronounced the best remedy they have ever used for exterminating Rats, Mice, Bed-Bugs, Roaches, &c.

The articles composing this composition are in themselves very innocent, and contain not a particle of poison, but when combined, create a gas which acts on the stomach, (and consequently destroys life in a few hours—as soon as it has affected the stomach, the articles become neutralized, and will affect nothing thereafter; so that there can be no danger in its use, under any circumstances. This is no humbug. We will warrant to rid houses of all the Rats, Mice, Roaches, &c., that infest them. Should it not do its work, the money will be refunded. DR. J. M. YOUNG & CO.,
