Miscellaneous.

Brodwell's Cholera Mixture.

SYMPTOMS—CHOLERA.—This disease generally commences with watery discharges from the bowels, of a white, or yellow, or pearl color, with white flakes floating a short time. These are well described as *rice water* evacuations. Vomiting is a usual attendant on these evacuations, but not an invariable one. The vomiting is usually accompanied with great uneasiness and pain in the stomach and bowels. The tongue and breath are icy cold; the tongue is sometimes clean, but generally slightly coated; the voice becomes weak and husky; cramp and spasms of the arms, legs and body, are general and painful symptoms. The skin is shrivelled and of a purple hue; the pulse becomes weak and frequent, and in the collapse stage entirely lost at the wrist; the breathing labored and hurried. These symptoms usually succeed each other in the order stated.

BRIDWELL'S CHOLERA MIXTURE.

This mixture is prepared from the prescriptions of the late Dr. A. N. Bridwell, of Pittsburgh. In his extensive practice, he had used it with complete success in the epidemic of 1832 and the present season. Steamboat men have given it to many passengers who have been attacked with the disease the present season, and in every case effected a speedy cure—after they had been pronounced incurable by physicians on board. Prepared solely by the proprietor. WM. THORN, Druggist,

Beware of Big Heads.

IT is a notorious fact that of all evils, none are held in such abhorrence as those of Hats, Mice, Roaches and Bugs, and to have such extemporaneous, is the wish and desire of all. A preparation has been discovered by which those who wish, may become rid of this evil; which is fast more or less every house in this city.

This preparation has now been in use in Germany about seven years, (and in the United States for the last five,) and by every one who has given it a trial, been pronounced the best remedy they have ever used for exterminating Rats, Mice, Bed-Bugs, Roaches, &c.

The articles composing this compound are in themselves very innocent, and contain not a particle of poison; but when combined, creates a gas which explodes the stomach, and consequently destroys life in a few hours—as soon as it has affected the stomach, the articles become neutralized, and will affect nothing thereafter; so that there can be no danger in its use, under any circumstances. This is no humbug. We will warrant it to rid houses of all the Rats, Mice, Roaches, &c., that it may kill, or the money will be refunded.
