Air Roofing.

CHARLES COOPER respectfully announces to their fellow-citizens that they have perfected their arrangements to carry on the business of Tin Roofing on an extensive scale.

Its now clean on four years since we first introduced this roofing into Pittsburgh, and hitherto we have covered over fifty thousand square feet of roofs with it, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including some of the most fashionable of others, that two superb buildings on Penn street, owned by John A. Shoenberger and John Bissel, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of these roofs having been worn out. The roofs covered with tin in our own city are open to the inspection of all who take an interest in the matter. We have also prepared a number of iron roofs, which may be seen at our establishment, where any other information will be given with pleasure.
