Evening Herald

MONDAY, APRIL 11, 1898.

THE HERALD is certainly giving the people the news, even in advance of metropolitan papers. And there is nothing "yellow" about it.

IN one district of Cuba 12,000 destitute persons are reported in a total population of 29,000. Weyler's plan to wipe out a whole race would soon accomplish its purpose at this rate.

BISMARCK is 83 years old. He was born in the year of the battle of Waterloo. He is not as strong as he used to be, but can still smoke ten pipes of tobacco a day and make an epigrammatic remark on the news of the world. We have a few Bismarcks in Shenandoah.

MR. WANAMAKER's remark in his speech at Towanda, that no rebellion was intended by the Bourse meeting or its managers or adherents, "provided,"——is very significant of the possibility, if not the probability of an independent nomination for Governor under certain circumstances.

IN the strictly Spanish report of the Maine calamity great stress is laid upon the absence of dead fish immediately after the explosion. They may not have appeared in the harbor just at that time, but plenty of them have since turned up: Weyler, De Lome, Sagasta, and a whole school of mackerel statesmen and heroes.

THE American people have great cause for thankfulness, that in such a crisis as the present, when the danger is that hasty impulse may direct action, and the supreme need is of patience and cool deliberation, we have in the Executive chair a man of such patient spirit, clear foresight and undoubted courage as William McKinley.

THE predictions that the price of shoes would be advanced by the duties placed upon leather and hides by the new law, have not been sustained by the facts. The latest reports on sales of shoes in the markets of the great manufacturing centers, as given by the Shoe and Leather Reporter, show that although the sales of the past three months are the largest ever known, the prices are in nearly every case lower than those of last year.

Easter Festivities.

Easter was observed in all the churches of Shenandoah yesterday in an appropriate manner, and the services generally were especially impressive. Of all the festivals celebrated by the Christian church none is more joyful than that commemorating the resurrection of the Son of Man. It is significant of the triumph of humanity—it means light out of darkness; civilization out of barbarism.

The history of the observance of Easter is in a measure the history of the church. The dawn of Easter morn is full of meaning—a new world of brighter sunshine and happier lives, which began upon the message and meaning of the first Easter morning, sweeping away the old world—the world of Pagan gods, of darkness and hopeless sin. And above all, it means Christ; the resurrection and the life.

The time of observing Easter is an appropriate one. Spring is bursting into life. There is an added fleeness to the ether, and a greener tint to the grass. The early flowers are raising their heads, and the branches of the trees are taking on a tint of freshness and vigor. These are among the numberless meanings of Easertide. Easter is the Resurrection; and the Resurrection is life.

The poetry of Easter: "Let not your heart be troubled; ye believe in God, believe also in me. In my father's house there are many mansions. If it were not so, I would have told you. I go to prepare a place for you."

PERMANENT PEACE IMPROBABLE.

The Pope, on the Other Hand, Believes That His Efforts to Avert War Will Be Successful—One of the Greatest Pleasures of His Later Years

London, April 11.—Yesterday's continental telegrams to this morning's papers all welcome the armistice as giving at least a prospect for peace, but it is the general belief, looking to all the difficulties involved, that there is only a delay of war, as the United States will refuse to be a party to further negotiations.

The Vienna correspondent of The Daily Chronicle says: "The European cabinets are exchanging ideas as to the further modes of procedure to secure peace. The negotiations will be very difficult, owing to the susceptibilities of both parties."

The Daily Chronicle's Paris correspondent says: "Grave doubts exist as to whether a permanent peace can be cemented upon an indimited and vague armistice. The real crux lies with the Cubans, and to judge from their group in Paris an armistice is unacceptable and perilous, as it will give Spain time during the rainy season to save money. The weather does not affect the Cuban insurgents, and they are not likely to give Spain this advantage. Moreover, the Cubans consider that an armistice would be equal to a positive alliance between Spain and the United States against Cuba.

"Another black spot is the attitude of the congress, which, according to the Paris Americans, will never stand the presence of Spanish troops in Cuba while the armistice runs. In the American Episcopalian and other churches here Sunday the preachers alluded to the subject, but the joyous hopes of peace were damped by a feeling of uncertainty."

The Rome correspondent of The Daily News, telegraphing Sunday, says: "The pope left instructions that he should even be awakened when Spain's reply came. Accordingly, during his siesta, Cardinal Rampolla went to his apartments with the welcome news of an armistice from Madrid. The pontiff declared this one of the greatest pleasures of his later years, and expressed a confident hope that he will succeed in warding off war.

"The pope telegraphed personally to the queen regent and Senor Sagasta yesterday to convince them that it was Spain's intention to concede the armistice without delay and without conditions, in order to put President McKinley in such a position as to make it difficult for him to decide what course to take. At the Vatican it is said that the armistice will have the effect of moderating President McKinley's message and of inducing congress to give him greater freedom of action. It is also pointed out that since the queen regent's personal letter to Queen Victoria all the powers, including Great Britain, support Spain."

It is a great leap from the old-fashioned doses of blue-mass and nauseous physics to the pleasant little pills known as DeWitt's Little Early Risers. They cure constipation, sick headache and biliousness. C. H. Hagenbuch.

The Somers' Crew on Strike.

Portland, England, April 11.—The new United States cruiser Topeka (formerly Dolphin), in command of Lieutenant John J. Knapp, and the torpedo boat Somers, Ensign C. W. Hazelton commanding, which were en route for the United States, put in here yesterday. After clearing Portland Bill such a heavy sea was encountered that the Somers was almost buried, and Lieutenant Knapp deemed it safer to return. About 30 of the Topeka's crew refused to sail in her, necessitating the shipping of others to fill their places. The Somers, it is found, sprung a leak, but her officers do not regard the injury as serious. Her crew, however, became frightened and struck. Being merely hired hands, not enlisted men, they are not amenable to naval discipline, and Lieutenant Knapp is endeavoring to secure a fresh crew.

Eczema, scald head, hives, itchiness of the skin of any sort, instantly relieved, permanently cured. Doan's Ointment. At any drug store.

A Cargo of War Munitions.

New York, April 11.—The steamship Eturia, which arrived from Liverpool yesterday, brought a large cargo of war munitions for the government, purchased abroad by government officers, which is today being transferred to Governor's Island and the navy yard for shipment to fortifications along the sea coast and to be mounted on vessels recently purchased as auxiliary cruisers. Some are for New York and Boston harbors. The cargo consists of rapid fire guns, machine guns, heavy ordnance and many tons of smokeless powder.

The farmer, the mechanic and the bicycle rider are liable to unexpected cuts and bruises. DeWitt's Witch Hazel Salve is the best thing to keep on hand. It heals quickly, and is a well known cure for piles. C. H. Hagenbuch.

Spanish Troops Leave Cadiz.

London, April 11.—A dispatch to The Daily Telegraph from Gibraltar says that the Spanish cruisers Cristobal Colon and Infanta Maria Teresa have left Cadiz for a destination undivulged, with six battalions, each a thousand strong. Additional troops, the dispatch asserts, will leave Cadiz by the mail steamers during the next few days for Cuba.

Secretary Porter's Probable Successor

Washington, April 11.—A private dispatch received from a well known Ohio politician announces that President McKinley has tendered to James Boyle, at present United States consul to Liverpool, the position of private secretary to succeed J. Addison Porter, whose resignation will be announced in a few days. It is understood that some differences have occurred between the president and Mr. Porter, which are responsible for the change.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to the liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at A. Wasley's drug store.

SAYS IT IS NOT AN ARMISTICE.

Spain's Belligerent War Minister Calls It Only Cessation of Hostilities.

Madrid, April 11.—El Imparcial says that Lieutenant General Correa, minister of war, in a conversation with several people expressed himself as follows:

"It is an error to say that the government has granted an armistice to the rebels. I would never give that before leaving the ministry, because it would be the same thing as recognizing the belligerency of the rebels. The government has granted the wishes of the powers that we should cease hostilities during the delay, which General Blanco judges prudent for preparing peace. I acceded to a cessation of hostilities, because to refuse the wishes of the powers would be to divorce Spain from the world. If I left the cabinet I should be placing my successor in an awkward position.

"General Blanco will publish a proclamation of truce, and also another offering indulgent terms during the cessation of hostilities. If, during that period, there are important submissions and the United States withdraws its ships from the neighborhood of Cuba and the Philippines, all will be well, and peace will soon be reached. Otherwise the war will continue, and the powers will be obliged to demand that the United States maintain absolute neutrality and enforce a dissolution of the filibustering committee in New York. The armistice is not to prevent the Spanish government continuing its military preparations and placing the peninsula, the Canaries, the Balearic Islands and Porto Rico in a state of defense."

El Imparcial says that during the cabinet council a minister reminded his colleagues that the powers, before approaching Spain, approached the United States, getting President McKinley to delay his message to congress and General Woodford to withdraw the ultimatum.

More Auxiliary Naval Vessels.

Port Townsend, Wash., April 11.—The government has secured an option on the steam tug New England, lately from Boston, and she has also been ordered to report at Seattle today. The government has also an option on four tugs of the Puget Sound Tugboat company's fleet. They are the Tacoma, Holyoke, Tyee and Pioneer. These tugs are for patrol duty and the protection of American commerce and shipping, and will be manned with suitable guns.

PEOPLE WE KNOW.

They are Shenandoah People and What They Say is of Local Interest.

When an incident like the following occurs right here at home, it is bound to carry weight with our readers. When so many strange occurrences go the rounds of the press; are published as facts; when the intelligent reader knows they cannot be true, there is no wonder that the people become skeptical. On one subject skepticism is rapidly disappearing. This is due to the actual personal experiences of our citizens and their public utterances regarding them. The doubter must doubt no more in the face of such evidence as this. The public statement of a reputable citizen living right here at home, one who you can see every day, leaves no ground for the skeptic to stand on.

Mrs. Hannah Waters, of 324 West Cherry street, was interviewed by our representative regarding a remedy that she had been using for irregularities of the kidneys. She procured it at the Kirlin Pharmacy after she became interested in it for seeing the impressive statements of those who had tried it. Here is her experience. "I can say for Doan's Kidney Pills that they are good. I used them and they certainly did all that I could ask from any medicine. I had backaches which made me tired the whole time and I was so lame across my kidneys that I could lift nothing without it hurting me and when I stooped or went to straighten up, it caught me. I had pain and aching sometimes low down the back of my neck. Oh, yes, Doan's Kidney Pills are a good medicine for they cured my back and I have had no trouble since and it is several months ago since I took them."

THEY WANT TO TELL

These Grateful Women Who Have Been Helped by Mrs. Pinkham.

Women who have suffered severely and been relieved of their ills by Mrs. Pinkham's advice and medicine are constantly urging publication of their statements for the benefit of other women. Here are two such letters:

MRS. LIZZIE BEVERLY, 258 Merrimac St., Lowell, Mass., writes:

"It affords me great pleasure to tell all suffering women of the benefit I have received from taking Lydia E. Pinkham's Vegetable Compound. I can hardly find words to express my gratitude for what she has done for me. My trouble was ulceration of the womb. I was under the doctor's care. Upon examination he found fifteen very large ulcers, but he failed to do me good. I took several bottles of Lydia E. Pinkham's Vegetable Compound, also used the Sanative Wash, and am cured. Mrs. Pinkham's medicine saved my life, and I would recommend it to all suffering women."

MRS. AMOS THORNLEAY, Ellenburgh Ctr., N. Y., writes:

"I took cold at the time my baby was born, causing me to have milk legs, and was sick in bed for eight weeks. Doctors did me no good. I surely thought I would die. I was also troubled with falling of the womb. I could not eat, had faint spells as often as ten times a day. One day a lady came to see me and told me of the benefit she had derived from taking Lydia E. Pinkham's medicine, and advised me to try it. I did so, and had taken only half a bottle before I was able to sit in a chair. After taking three bottles I could do my own work. I am now in perfect health."

WARRING RELIGIOUS FACTIONS

Indulge in a Sunday Riot and Wreck a Buffalo Church.

Buffalo, N. Y., April 11.—There was a riot in front of the new Polish church, on Playter street, near Broadway, yesterday afternoon. For nearly an hour the air was full of flying stones, and the street was black with an angry, vicious mob. The doors of the church were broken in, and all of the windows in the front smashed before the police arrived. The riot grew out of a split in the Polish Roman Catholic church. The church that was attacked is a temporary structure, built by Apolinary Karowski and his followers, who ceded recently from the church of Bishop Kaminski. The police had to be reinforced before quiet could be restored, and more trouble is looked for, especially on Wednesday, when the new church is to be dedicated. No one was seriously hurt during the rioting.

A Few Pointers.

The recent statistics of the number of deaths show that the large majority die with consumption. SERIOUS WEST VIRGINIA FIRE.

The Capital of Marion County's Oil Field Flame Swept.

Wheeling, W. Va., April 11.—The most serious fire in the history of Mannington, the capital of the Marion county oil field, broke out yesterday in the New Commercial hotel. The flames were beyond control when discovered. The building, valued at about $6,000, burned like tinder, and the fire soon spread in all directions. Most of the buildings burned were frame, and went in the following order: The residence of J. F. Gump; Mannington Produce company; Snodgrass' saloon; A. A. Hayes' home; E. C. Martin's Bon Ton store; J. T. Koen building, occupied by several firms; Dr. W. C. Wilson's residence and office; Bank of Mannington building; Mrs. Cartagon's boarding house. The total loss from the fire was about $50,000. There was great excitement, and for a time it looked as if the whole business portion of the town was doomed.

Ell Shaw's Trial.

Camden, N. J., April 11.—Ell Shaw will be placed on trial in the Camden court of oyer and terminer on April 25, on the charge of murdering his mother and grandmother. The special panel of jurors from which the trial jury will be selected will be drawn this week. Harry S. Scovel will defend the prisoner. Shaw, it is said, is anxious for a speedy trial, now that his counsel has been acquitted of the charge of embracery.

Democrats For Recognition.

The Democrats, both of the committee and the house, have taken an unequivocal position in favor of the recognition of independence, although there is a difference of opinion as to whether intervention would follow. A majority of the Republicans of the committee have within a few days declared themselves for intervention and independence. Two of them, Messrs. Quigg of New York and Henry of Indiana, while they do not favor recognition of the existing republic, have earnestly advocated a declaration to the effect that Spain's dominion over the island cease, leaving to the future the question of the actual government of the island.

But in the desire of the Republicans of both houses to secure harmony of action some of the advocates of independence have about come to the conclusion that the difference between armed intervention and recognition is more technical than substantial, as unless the island should be annexed, to which they are opposed, a republican form of government for the island must follow. It seems probable that existing differences may at least to some extent be adjusted, and whether all the Republicans agree to a resolution declaring for intervention only or not such a resolution will be reported. It seems equally certain that a resolution for independence, possibly coupled with intervention, will be presented by the minority. No definite arrangements have yet been made as to the debate, but there seems to be no demand for prolonged time. Mr. Bailey, of the minority, thinks two days ought to suffice, and some of the Republicans think our action would be strengthened if there were no debate at all. Two days seems to be the general opinion as to the length of the debate. There probably will be considerable pressure for time for brief speeches, as many members desire to bury their hatchet in the painted war post.

Senators Working For Harmony.

The week in the senate probably will be given entirely to the Cuban question. The president's message will be referred promptly to the committee on foreign relations, and the present understanding is that no report will be made by the committee before tomorrow. The report may, in case of the development of radical differences in the committee, be delayed to even a later day.

There is a decidedly strong disposition on the part of many of the senators who are not members of the committee to have the senate as a body take up the subject of shaping the committee's report contemporaneously with the committee, and it is not improbable that a secret session of the senate may be held with this purpose in view. The purpose of this movement is, as has been frequently stated, to secure as near an approach to harmony in the senate as possible, and it is believed that this can be accomplished by having the senate agree upon the form of the resolution before it goes to the senate for action.

The present tendency in the senate is to confine the congressional fulmination to a declaration for armed intervention, leaving the recognition of independence to come later, and it now appears probable that the foreign relations committee will report in favor of this course, thought not without some dissent.

From Extreme Nervousness.

THAT no one remedy can contain the elements necessary to cure all diseases, is a fact well known to everyone. Dr. Miles' System of Restorative Remedies consists of seven distinctively different preparations, each for its own purpose.

Mrs. L. C. Brantley, 37 Henry St., St. Catherines, Ontario, writes: "For years I suffered from extreme nervousness and annoying constipation, developing into palpitation and weakness of the heart. I was unable to sleep, suffered much from headache, pain in my left side, palpitation and a constant feeling of weakness and prostration. I began using Dr. Miles' Nervine, Heart Cure and Nerve and Liver Pills and the Anti-Pain Pills to relieve sudden paroxysms of pain and headache. I soon felt much improved and the pains and aches and weariness left me. I then took Dr. Miles' Restorative Tonic and am now restored to my former good health."

WHAT IT INDICATES

Nothing so interferes with one's plans or ambition like sickness or poor health. Have you ever thought that your kidneys may be the cause of your sickness? You can easily find out by setting aside your urine for twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

It is a source of comfort to know that Dr. Kilmer's Swamp Root is the great remedy for all kidney and bladder complaints. It relieves pain, stitch or dull aching in the back, difficult or painful urination, frequent desire to urinate, scalding or pain in passing it, and quickly overcomes that unpleasant necessity of being compelled to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. Its action is gentle, yet immediate, the relief speedy and the cures permanent. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail upon receipt of three two-cent stamps. Mention HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

SOUTHERN RAILWAY FLORIDA TRAITS MAKING A REMARKABLE RECORD.

Jacksonville, Fla., Feb. 22.—Last season it was not an uncommon occurrence for the trains from the North to reach here from one to five hours late. The remarkable regularity of the arrival on time of the Southern Railway trains this season is a matter of comment and favorable criticism around the hotels and by all incoming tourists. The schedule of the Florida Limited, the fast train over the Southern Railway and the Florida Central and Peninsular, is several hours shorter than that of last year, but the track has been put in excellent condition and the engineers of incoming trains say the new schedule is made with ease.
