## Drugs and Medicines.

**Dr De Lancey's Celebrated Curative Injustments.**

*The only Infallible Cure for that Dreadful Disease known as Spermatorrhea or Involuntary Nocturnal Emissions.*

SO harassing and destructive, and productive of so much mischief to the nervous system, incapacitating them for business, society, and matrimony.

This instrument is simple, comprehensive, and *never-failing*, and may be used without the slightest inconvenience or the knowledge of the most intimate friend—It is to be used externally, producing no pain or injury whatever; nor prevending any one from attending to his business; and while in use *not a single emission* can take place, *invigorating the organs, in a short time, to work as well as ever they did before the commencement of the disease*, the loss of which, caused by early abuse, is the disease in question, and the cause of the thousand and one distinct complaints, viz: Nervousness, Prostration, Dyspepsia, Pain in the Head and Dimness of Vision, Weakness of the Back and Lower Extremities, Affections of the Eyes, Imputence, Pimples of the Face, Premature Decline of Virility, Weakness of Memory and Power for Mental Application, Repetition, Aversion to Society, Timidity, Self-Distrust, Love of Solitude, &c. *All these complaints invariably disappear as soon as the source is stopped from which they emanate.*

This Instrument has been examined and approved of by the highest authorities in Europe and America, is recommended by the most prominent Physicians of all countries, *as the only certain remedy existing for those complaints*, and has now completely superseded the use of drugs, the boogie, cauterization, &c., not to mention the thousand advertised nostrums of the day, as cordials, antidotes, &c., &c.: It constitutes, at the same time, the *cheapest, the most pleasant*, and by far the *shortest* treatment ever offered to the afflicted, a fair price being allowed for the instrument, after the desired effect has been attained.

It is also remembered, that these complaints are but little understood by the profession in general, and that all the medicine in the world never has, and never will, stop these losses, which, if allowed to continue unchecked, are sure to produce the most distressing consequences.

It has been a matter of surprise to some, that any one of respectability and of professional attainments should devote his attention to diseases which people of every description pretend to cure so easily. If, however, but the one thousandth part of the miseries these people bring upon society were known, a very different opinion would be formed. And it is, not only the great misery and dejection, prevailing in the mind as well as the body, that is deplored, but some are of such a nature as to affect posterity, and even to destroy the reproductive faculty, altogether. It is a fact that, when not properly treated, they may remain so dormant in the constitution as to appear in no other way than in their effects upon posterity; and, if properly understood, are most easily and speedily removed. The above, singuiniously contrived instrument, will doubtless, in a great measure, contribute to check the evils of quackery, so prevalent in this country, and throughout the Union.

The price of the complete instrument, carefully secured against all observation in a box, is only $10. It can be sent by express, to any address, in any part of the United States, Canada, &c., according to order, secured in panted by full directions, and important advice to the married and single; the expences, even to the remotest parts of the country, being very trifling.

The unexampled success this instrument has obtained since its introduction in America, has induced some unprincipled persons in New York, Philadelphia, Albany, Boston, &c., to get up some ridiculous things, called "Instruments," which, however, by their cost and appearance, *neither in form nor print pile*, to my own invented, long tried, and universally approved instrument, and which are so similar in name as to trick people to light. Every attempt to sell such "Instruments" for mine will be prosecuted to the fullest extent of the law, I being not willing to connect the well and honestly earned reputation of my inventions with quacks and their worthless productions. *No Instrument is genuine* unless a fac-simile is to be found on the outside of the case.

All applications and remittances must be directed (post paid) to the Doctor himself, he having no Agencies established but in London and Paris.

Address, post paid, Dr. B. de Lancey, 51 Lispenard st., New York.

Office hours, daily, from 9 A. M. till 3 P. M., and from 7 till 9 P. M., the Sabbath excepted.

☞ The undersigned certify, with great pleasure, that the abovementioned Instrument is not only constructed on scientific principles, but that from its use the happiest results may always, with confidence, be anticipated, there being, for the cure of those diseases, NO OTHER CERTAIN REMEDY EXTANT.

☞ **Dr. Jayne's Family Medicines.**

EXTRACT of a Letter from the Rev. E. L. Abbott, well known and highly esteemed Missionary to the Kingdom of Burman, dated

SAGOWAY ARRACAN, February, 1840.

*Dr. D. Jayne, Philadelphia:* My Dear Sir—I am now in great want of your Medical Preparations. Your CARMINATIVE BALSAM is an invaluable medicine in this country in bowel complaints, and has been so in all our Missions with the most gratifying success. I have known it in many cases to set like a charm. Your SANATIVE PILLS are my sheet anchor—The best family medicine for my liver complaint and pain in the side that I have ever used. They are in great demand, and we are entirely out of them. We need five hundred boxes of them. Bro. Beecher says we could use a thousand boxes yearly among our people; and I know we could have used your TONIC VERMIFUGE as a tonic in intermittent fever, with the most complete success. I think it once was the means of saving my own life. Everything my travels among the charches the past season, I found a whole village suffering under a prevailing influenza, attended with coughs of a most violent character. I soon received I had not had a dozen or two of your EXPECTORANT to administer to them, for I believe from what I have seen of its effects, that it would have been just the thing for those poor people. I presume you have not hitherto had an idea to what an extent your medicines are used in all our Missions.

Affectionately yours, E. L. ABBOTT.

DR. BLANCHARD, (from Boston,) proclaims to the afflicted far and near, that he has discovered the most certain, speedy, and efficient remedy for

GONNORRHŒA AND SYPHILIS,

ever presented to the world. By his treatment founded on observations made in the hospitals of Europe and America, he will insure a perfect cure in from two to five days, if applied to early.

Office No. 68 SMITHFIELD St., Pittsburgh.

A CERTAIN CURE—When the misguided votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an illimited sense of shame or dread of discovery deters him from applying to those who from education and respectability can be his befriend him, delaying till the constitutional symptoms of the horrid disease make their appearance, stilling the nasal, throat, nose, skin, &c., ending in decay and death.

TAKE PARTICULAR NOTICE.

Dr. B. addresses those who have injured themselves by private and improper indulgence, that secret and solitary habit which ruins both body and mind, unfitting them for either business or society.

There are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs; Pain in the Head, Dimness of Sight; Loss of Muscular Power; Palpitation of the Heart; Dyspepsia, Nervousness, Confusion of Ideas; Emaciation of the Digestive Functions, General Debility, Consumption, &c., &c.

Mentally the fearful effects on the mind are much to be dreaded, loss of memory, confusion of ideas, depressions of spirits, evil forbodings, aversion to society, self distrust, love of solitude, timidity, &c., &c., are some of the evils produced. Such persons should before contemplating

**An Expression of Gratitude.**

DR BLANCHARD—*Dear Sir*—It is with feelings not easily describes, that I have determined to address you this letter. Previous to consulting you, I had suffered for several years from the effects of Self Abuse, and feel bound to express my gratitude to you, and to declare to the world that your course of treatment, both in a moral and physical sense, has been of the most beneficial character. In early life, at school, I learned the habit of Self Abuse, and continued the practice for six years, without being aware of its sinful nature, or the terrible consequences sure to follow its indulgence. I first observed my appetite very much increased; but notwithstanding this, I began to lose flesh very rapidly, and exhibit considerable emaciation. After a time, however, my appetite failed, and I became much debilitated, with slight exertion fatiguing me exceedingly. My sight became impaired, and I found my memory not so good as formerly. I also experienced a total disability to concentrate my mind on any one idea for even a short time. My legs became very feeble, and tottered in walking. I had lost greatly in strength by retaining my urine. In this enfeebled condition, my friends advised me to consult the family physician, who soon obtained from me such information as satisfied him of the cause of my complaints. He impressed on me the necessity of relinquishing the habit, pointing out the moral and physical ruin sure to follow its indulgence, but could not cure me of its effects which I suffered. The symptoms, nocturnal discharges, inability to retain urine, a flow of semen on the instruction, continued to grow upon me every day. At this time the family physician, above alluded to, advised me to consult you. After a careful perusal of your advertisement, I came to the conclusion that my case was one which required your treatment, and I thank fortune I did so, and cannot let the present opportunity pass without publishing and delivering to the beneficial effects which your medicines and advice have had upon me. How great must be the reward here and hereafter, of one who creates so much happiness in the world. I have no need of saying any more. Endeared you will find a *whole* of my gratitude.

*I remain yours, ever grateful,* J. JOHNSON.

HAVING increased our facilities and otherwise improved our arrangements for Transportation, we are now prepared to receive a large amount of Produce and Merchandise, to ship (on the opening of the Canals) with promptness and dispatch.

The Section Boat system of transportation over our State improvements has been in use about ten years and the great success and favor it has met with, is a sufficient guarantee that it is no longer considered a doubtful or uncertain experiment; but is acknowledged by all as vastly superior to any mode of transportation used on Canals, (when interrupted by Railroads.)

Goods loaded into our Boats at Pittsburgh, remain uncovered from there to our Warehouse in Market street, Philadelphia, thereby entirely avoiding the inconvenience of three different transhipments, and consequent on these different transhipments, our goods are always found in better condition, more free from dust, and in as good order as when shipped.

Produce, &c, consigned to our House at Pittsburgh, will be received and forwarded always on the most current canal rates, strictly according to instructions, without any extra charge for commission, storage, or advancing charges, &c.
