Drugs and Medicines

Dr De Lancy's Celebrated Curative Instruments.

The only Infallible Cure for that Dreadful Disease known as Spermatorrhea or Involuntary Nocturnal Emissions,

SO harassing and destructive, and productive of so much misery in the nervous system, incapacitating the man for business, society, and marriage.

This Instrument is simple, comprehensive, and *never-failing*; and may be used without the slightest inconvenience or the knowledge of the most intimate friend—it is to be used externally, producing no pain or injury whatever, nor preventing any one from attending to his business; and while in use *not a single emission* can take place, *invigorating the organs, in a short time, to such an extent that they* RETAIN THEIR RESTRIVE POWER OF RETENTION, the loss of which, caused by early abuse, is the disease in question, and the cause of the thousand concomitant complaints, viz: Nervousness, Prostration, Dyspepsia, Pain in the Head and Dimness of Vision, Weakness of the Back and Lower Extremities, Affections of the Eyes, Impotence, Pimples of the Face, Premature Decline of Virility, Weakness of Memory and Power for Mental Application, Dejection, Aversion to Society, Timidity, Self-Distrust, Love of Solitude, &c.

All these complaints invariably disappear as soon as the source is stopped from which they emanated.

This Instrument has been examined and approved of by the highest authorities in Europe and America, is recommended by the most prominent Physicians of all countries, *as the only certain remedy existing for these complaints*, and has now completely superseded the use of drugs, the bougie, cauterization, &c., not to mention the thousand advertised nostrums of the day, as cordials, nuldotes, &c., &c. It constitutes, at the same time, the *safest, the most pleasant*, and by far *the cheapest* treatment ever offered to the afflicted, a fair price being allowed for the Instrument, after the desired effect has been attained.

It is also remembered, that these complaints are but little understood by the profession in general, and that all the medicine in the world never has, and never will, stop those losses, which, if allowed to continue unchecked, are sure to produced the most distressing consequences.

It has been a matter of surprise to some, that any one of respectability and of professional attainments should devote his attention to diseases of a character so utterly description pretend to cure so easily. It, however, that the one thousandth part of the miseries these people bring upon society were known, a very different opinion would be formed. And it is not only the present misery and dejection, preying on the mind as well as the body, that is deplored, but some are of such a nature as to inflict posterity, and even to destroy the reproductive faculty, altogether. It is a fact that, when not properly treated, they may remain so dormant in the constitution as to appear in no other way than in their effects upon posterity; yet, if properly understood, are most easily and speedily removed. The above, so ingeniously contrived instrument, will doubtless, in a great measure, contribute to check the evils of quackery, so prevalent in this class of diseases, throughout the Union.

The price of the complete instrument, carefully secured against all observation in a box, is only $10. It can be sent, by express, to any address in any part of the United States, Canada, &c., according to order, accompanied by full directions, and important advice to the married and single; the expenses, even to the remotest parts of the country, being very trifling.

The unexampled success this Instrument has obtained since its introduction in America, has induced some unprincipled persons in New York, Philadelphia, Albany, Boston, &c., to get up some ridiculous things, called "instruments," which, however, bear not the slightest resemblance, *either in form nor principle*, to my own invented, long tried, and universally approved Instruments, and which are as similar to them as night is to light. Every attempt to sell such "Instruments" as mine will be prosecuted to the fullest extent of the law, as being not willing to connect the well and honestly earned reputation of my inventions with quacks and their worthless productions. *No Instrument is genuine unless name can be scarcely seen but three inches from many!*

All applications and remittances must be directed (post paid) to the Doctor himself, he having no Agencies established but in London and Paris.

Address, post paid, Dr. B. de Lancy, 51 Lispenard st., New York.

Office hours, daily, from 9 A. M. till 3 P. M., and from 7 till 9 P. M., in the Sabbath excepted.

☞ The undersigned certify, with great pleasure, that the above-mentioned Instrument is not only constructed on scientific principles, but that from its use the happiest results may always be expected, in cases for which it is there being, for the cure of those diseases, NO OTHER CERTAIN REMEDY EXTANT.

The Section Boat system of transportation over our State improvements has been in use about ten years, and the great success and favor it has met with, is a sufficient guarantee that it is no longer considered a doubtful or uncertain experiment; but is acknowledged by all as vastly superior to any mode of transportation used on Canals, (when interrected by Railroads)

Goods loaded, from our Boats at Philadelphia, are undistributed until unloaded at our Warehouse in Market street, Philadelphia, thereby entirely avoiding the delay consequent on time differed transhipments, and secuting the delivery of Goods in entire lots, the packages clean, and in as good order as when shipped.
