Tin Roofing.

THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangements to carry on the business of Tin Roofing on an extensive scale.

It is now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given when pleasure.

Gold Wanzers.

H. PARRY has invested a machine for washing Gold, for which he has made application for a patent.—They are now offered for sale at the Warehouse of PARRY, SCOTT & CO., No. 103 Wood st., Pittsburgh.

Adventurers to California are invited to call and examine these labor-saving machines. They are simple in their construction, easily transported on the back of mules or horses, weighing only twenty pounds each, and can be put in operation in half an hour. They can be filled with provisions. It is the opinion of those who have seen the trial of one of these machines of smallest size, that two men will wash the mineral from 150 bushels of gold, and earth in a day, without the loss of a particle of the mineral. They can be increased in size and worked by water or mule power, if expedient. The operators work without going into the water or being exposed to water or wet, and consequently without endangering their health. They will require but a small stream of water, and are so light and easily managed, that the operation where there is not sufficient water to wash in the day.

Price of smallest size $35. Orders from abroad, accompanied by cash, will be promptly filled.

READ THIS LETTER.—Who will be without a beautiful head of hair, when they can have one for three shillings? Twenty years' loss of hair and undertaker restoration!

"BALTIMORE, July 17, 1849.

"Dear Sir—The wonderful effects of Jones' Coral Hair Restorative has been decisively demonstrated in the case of several respectable citizens of the city, who, on account of your selling three shilling trial bottles, try it without fear. One instance, which has attracted particular attention, is the case of a gentleman who had little or no hair for twenty years; he had tried numerous preparations in vain, and ultimately had his head shaved and wore a wig. At my recommendation, he tried the Restorative, and after using it according to the direction, a short time the young hair appeared, and he has now as fine a head of hair as any person in Baltimore.

"Yours, &c. JOHN KILVINGTON."

It causes the hair to grow, to keep it from turning grey, and the first application causes it to curl beautifully, frees it from scurf, and stops it from falling off.

New Invention!

WILLIAM DARBY'S
PARISH LIQUID BLACKING.

THE boot is an all important feature in the costume. Therefore, all well-dressed men patronize this Blacking above all others, it instantly gives a destructibility and brilliancy to the leather, never before equalled, is perfectly clean in using it, a sponge being attached to the cork, to lay the liquid on the brush, and in a moment you can polish your boots without soiling your fingers.

Manufactured and sold, wholesale and retail by the inventor, on Penn street, near Walnut, Pittsburgh, and by shoemakers generally throughout the United States. A liberal discount allowed to wholesale dealers. Price 20 cents per bottle, which will last one man a year. aug29-1m.

HAVE you a bad complexion, coarse, dark, yellow, or sallow? If you have, you will by using a Cake of Jones' Italian Chemical Soap, a week or two, your skin becomes clear, white and smooth. If you have any disease of the Head, Face or Board—such as Ringworm, Scald Head, Scurvy, Erysipelas, Salt Rheum, Barber's Itch—you can be cured; for I have seen persons who had filthy skin diseases for years, and after trying every thing in vain, have been cured by washing the part with Jones' Italian Chemical Soap, and can conscientiously offer it for any of the above complaints, which I would not do, unless I knew it to be all I state. If you have Sun Spots, Freckles, Morphew, Tan, Sun Burn or disfigurements of any kind, it will dispel them and make the skin beautiful—it is a sure antidote and cure for the bites of musquitoes, bugs, &c.

☞ Beware of counterfeits. Particularly cheap ones—ask for Jones' Soap, and see that the name of T. Jones is on each cake. Persons from or in the south and other warm climates, would find this not only for themselves, but it is a never-failing remedy for chaps and chafes in infants. And now, reader, try giving this one trial, you will find it all or even more than we have stated above.

JOSEPH LIPPINCOTT, WM. C. BARR.
LIPPINCOTT & BARR,
(LATE J. S. SPENCER'S & CO.)
Manufacturers of Phœnix Fire Proof Safes,
Second street, between Wood and Smithfield.

ON Tuesday afternoon, July 23, 1849, the undersigned were called upon by Messrs. Lippincott & Barr, to witness an honest and fair test of one o. their Phœnix Safes. The furnace being prepared, the Safe was placed inside thereof, with books, papers and some money; when the door of the Safe was closed and the fire kindled in a quarter past 2 o'clock, and in a short time the Safe was red hot, and continued till half past 5 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof.

I am engaged in the foundry business, and know something about furnaces and heat. I witnessed the burning of the above Safe, and can freely say there was no humbug about it, and with pleasure recommend them to the public as being, in my judgment, entirely fire-proof. WM. KAYE.

In calling upon the above gentlemen for their signatures, they all spoke in the highest terms of the fairness of the test, and their full confidence of the Safe's being entirely fire-proof. We have constantly on hand
