SPRING AND SUMMER CLOTHING!
THREE BIG DOORS!
No. 151, Liberty Street, Pittsburgh.

JOHN McCLOSKEY has now the pleasure of announcing to his numerous friends and the public in general, that his Spring and Summer stock is now ready for inspection, which he believes will be found to be one of the largest and best selected stocks of Ready-Made Clothing to be found in the Western Country.

He has this season paid more than usual attention to the manufacturing and style of his Garments, so that the very lowest prices, as well as the finest, are got up in a style and elegance not to be surpassed.

He would particularly call the attention of all dealers in Clothing to his present splendid assortment of

Ready-Made Garments,

As he feels confident, upon examination of the qualities and prices of his goods, he can offer them such inducements as shall make it their interest to purchase at his establishment.

Many years' experience, and great success in the business, together with an unprecedented *wholesale and retail* patronage, has enabled him to get up Garments to suit the business habits and tastes of every location in the Union, which is of the utmost importance to wholesale purchasers.

In his Cutting department will be found a choice selection of the most fashionable goods, consisting of—

French, English and American Broadcloths,
Cashmeretts, &c., &c. Also, an excellent assortment of *VESTINGS*, of the latest and most fashionable styles—all of which he is prepared to make to order in the best manner and at the most reasonable prices.

COME, THEN, ONE AND ALL!

The Assortment, the Quality, and the Variety, is the most extensive, undoubtedly, to be found in the United States.

PUDDER & FORD,
Manufacturers and Dealers in
MANCHESTER MINERAL PAINT,
ALLEGHENY CITY, PA.

New York, December 15th, 1851.

I have analyzed a sample of MANCHESTER MINERAL PAINT, for Pudder & Ford, and find it to contain the following:

Silica,	67.21
Alumina,	5.24
Per Oxide of Iron,	18.41
Lime,	.88
Magnesia,	.63
Oxide of Manganese,	.34
Water and Loss,	6.90
	100.00

The Powdered Sample, contained in the box, which I suppose was the one you desired also to have analyzed, I find to differ from any average of the lumps powdered, and mixed together. This last yields as follows:

Per Oxide of Iron,	53.50
Silica and Alumina,	33.00
Lime,	.88
Magnesia,	.10
Water and Loss,	7.92
	100.40

This difference I presume arises from the mineral not being uniform, some portions containing more Iron than others. The analysis shows the article to be well suited for a durable paint. I find that by calcining the powder by a pretty high heat, the color is much improved, or at least converted into a fine red.

For the Transportation of Merchandise and Produce,
(VIA PENNSYLVANIA CANALS AND RAILROADS), BETWEEN PITTSBURGH AND PHILADELPHIA.
Direct, without Re-shipping.
☞ TIME, TEN DAYS.

THE subscribers (PATTON & REYNOLDS, Depot, 231 Market st., (near Sixth,) Philadelphia, J. C. McMANUS, Agent, Canal Basin, 4th and 410 Penn street, Pittsburgh,) HAVING increased our facilities and otherwise improved our arrangements for Transportation, we are now prepared to receive a large amount of Produce and Merchandise, to ship (on the opening of the Canals,) with promptness and dispatch.

The Section Boat system of transportation over our State improvements has been in use about ten years, and the great success and favor it has met with, is a sufficient guarantee that it is no longer considered a doubtful or uncertain experiment; but is acknowledged by all as vastly superior to any mode of transportation used on Canals, (when intersected by Railroads)

Goods loaded into our Boats at Pittsburgh, remain undisturbed until unloaded at our Warehouse in Market street, Philadelphia, thereby entirely avoiding the delay consequent on three different transhipments, and securing the delivery of Goods in entire lots, the packages clean, and in as good order as when shipped.

Produce, &c., consigned to our House at Pittsburgh, will be received and forwarded always at the lowest current canal rates, strictly according to instructions, without any extra charge for commission, storage, or advancing charges, &c.

Total,	$210,549 93
One-half of this amount expires within a year.	

The Directors, in presenting the Second Annual Report, take leave to congratulate the members upon the marked success of the State Mutual Fire Insurance Company, in operation only two years, it has taken a position beside the older institutions of the kind, and proves by its very great success that the mutual system as adopted by them is, beyond a question, the best and only safe mode of insurance.

The heavy losses of the past year which have annihilated many stock companies, leave the State Mutual on firm and safe grounds, and with a surplus of two thousand dollars, besides a reserve capital of nearly two hundred thousand dollars, which is constantly increasing.

The Directors submit that the State Mutual Fire Insurance Company offers to owners of safe property inducements seldom offered, and never exceeded.

Great Attraction!

JUST RECEIVED at JESSUP'S One Price Cash Store! No. 70 Market street, Pittsburgh, between Fourth street and Diamond, the largest and most beautiful stock of SPRING AND SUMMER DRY GOODS, ever offered to the citizens of Pittsburgh.

The subscriber would inform those who desire to get good bargains, that the greater part of his Stock was purchased at the recent forced sales of Dry Goods in New York and Philadelphia for cash, which enables him to sell goods 12 to 25 per cent. cheaper than those who buy on credit. We do not think it necessary to mention the different kinds of goods that compose our stock, but would request all who are in want of any thing in the line of a full assortment of ladies' and gentlemen's wear, together with a general stock of Fancy and Staple Dry Goods, to call and examine for themselves, which they can do without being importuned to purchase; for we are determined to keep on hand at all times, such a stock of all sizes and degrees of ornament and finish as will suit the most diversified tastes.

We would also call the attention of the public, and of Undertakers, particularly, throughout the West, to an examination of our stock of Silks, and request them not to rely upon the representation of tradesmen not using the article, whose interest it would be to misrepresent them.

He keeps on hand a large stock of all descriptions, and other articles of any description made to order in every style at the shortest notice. [marz9

PATENT METALLIC BURIAL CASES.

THE subscribers having recently made arrangements with the Patentee of this new and valuable invention, now for the manufacture and sale of the article in the West, they having been manufactured heretofore exclusively in the East, where they are now selling at a fifth of wooden coffins, take this method of informing the public, that they are now manufacturing eighteen different sizes of the modern Sarcophagus, varying in length from 32 inches to 8 feet, with width and depth suitable for bodies of ordinary size; and for those who desire space for cushioning, or for bodies of unusual dimensions, have several sizes deeper and wider. This invention is now coming into general use, and is the choice of the greatest of the age. These BURIAL CASES are composed of various kinds of metals, but principally of iron.

They are thoroughly *manufactured* inside and out, and thus made impervious to air and moisture. They are highly ornamental, and of a classic form, are light and portable, while they combine the greatest strength which material is capable of, in a given quantity.

When properly secured with cement they are perfectly air tight, and free from exhalation of offensive gases. They cost no more than good wooden coffins, and are better than any other article in use, for whatever cost, for transportation, vaults, or ordinary interments, as has been proven by actual experiments, and certified to by some of our most scientific men; also, by the Honorables Henry Clay, Daniel Webster, Lewis Cass, and other distinguished Senators who have witnessed their merits, and written letters, together with other evidences of their worth, may be seen at our Burial Case Depot, No. 374 Main street, three doors above Ninth, where we intend to keep on hand at all times, such a stock of all sizes and degrees of ornament and finish as will suit the most diversified tastes.

We would also call the attention of the public, and of Undertakers, particularly throughout the West, to an examination of our stock of Silks, and request them not to rely upon the representation of tradesmen not using the article, whose interest it would be to misrepresent them.
