THE CITY POST.

THURSDAY MORNING.....AUGUST 6.

PENNSYLVANIA RAILROAD DEPOT.—The Common Council met on Tuesday evening, in special session, to consider the propriety of surrendering Plum alley, and Eighth street to the Pennsylvania Railroad Company, for the purpose of erecting a Depot. The following was the resolution, as passed by the Select Council last week. The action of this body was concurred in by the Common Council, with the exception that the second resolution, in regard to the triangular lot, being amended by inserting a clause which surrenders to the city the control of the lot. The following is the resolution:

Whereas, The Legislature of Pennsylvania, by an Act of Assembly, passed on the ... day of ..., granted to the Pennsylvania Railroad Company, "That Eighth street, and Plum alley, and all other streets and alleys in the city of Pittsburgh, so far as the same extend through the property of the Pennsylvania Railroad Company, are hereby vacated, and the title thereof vested in the said Company, provided that the Councils of the said city give their assent thereto, which shall be filed in the Court of Quarter Sessions of Allegheny county; and whereas, the subject has been brought before the Councils of the city of Pittsburgh, and presented to their consideration, by the written application of said Railroad Company, for the surrender of a portion of Eighth street, and a portion of Plum alley, (that is, one hundred feet of each, commencing on Grant street,) for the purpose of enabling the Company more conveniently and completely to erect their buildings for their inner passenger depot and station. And the said Councils being disposed to meet and carry out the views of the Legislature and the spirit of their public enactment, and trusting that the promotion of the public interests and the policy of the Commonwealth, and the arrangement proposed by the said Company would more than counterveil any supposed private inconvenience, it is, therefore, hereby ordained, and

Resolved, by the Select and Common Councils of the city of Pittsburgh, in Councils assembled, That one hundred feet of Eighth street, and one hundred feet of Plum alley, running from Grant street, be vacated and surrendered to the said Pennsylvania Railroad Company, on the following conditions: *First*—That the same shall be used and occupied for the said purpose of an inner passenger depot and station. *Second*—That the said Railroad Company will take down and remove all the present buildings on the triangular lot No. ..., and will not erect any houses thereon, [*surrendering to the city the control of the same.*] *Third*—And that they will lay out, on their own ground, an alley 20 feet wide, extending from Seventh street to Eighth street, which shall be used by the public, except upon the arrival and departure of railroad cars, when it may be necessary temporarily to close the same, for the purpose of avoiding any hindrance and interruption to their proper business.

The clause in brackets and *italic* is the amendment of the Common Council.

DUQUESNE WAY.—We know full well that a person who would speak of such a thing about Pittsburgh, as a public square, would be set down as stark mad. It, somehow or other, for we cannot imagine why, forms a characteristic of our citizens to discard every thing pertaining to the ornamental, and retain nothing but the practical. Ornament is but seldom thought of, either in our public buildings or the improvement of our highways; we are not wholly deficient however, in the ordinary improvements, when they are a direct benefit to the business community, and when the business men could not do well without them; but take any part of our city, where the immediate wants of business does not require grading and paving, and you will find it well stored with the rubbish and filth which is daily deposited there. No better instance can be had of this, than the lower part of the wharf, and the Allegheny wharf, or Duquesne Way. True, the "proper authorities" have signs put up cautioning "all persons against depositing filth," &c., but to find out the offender it comes thicker, say any of our merchants how they please of their bad potatoes, onions, and other vegetable matter, &c., &c.,—they don't put them on the wharf—oh no! they are "just deposited at the shore, to be carried away by high water."

If the Allegheny wharf was cleared of the rubbish which is on it, graded and filled up where it is necessary, and paved, and such side of the street planted with trees, it would give our citizens one of the best of promenades and drives. The money that would be laid out in improving this part of our city, would be returned by the increased value such an improvement as we have stated, would give to property.

NATIONAL PORTRAIT GALLERY.—We have received from Mr. J. W. Hudson, agent for this work, numbers one and two. Number two contains portraits and memoirs of THOMAS JEFFERSON, JOHN HANCOCK, and CHARLES CARROLL, of Carrollton. We have had but time to glance over the memoir of Jefferson, and find it a clear and lucid statement of the principal events in the life of that friend of the rights of man. The memoir, though brief, is graphically written, and describes in a manner that will interest every one, the great events that occurred from the birth of the author of the Declaration of Independence, on the 24 day of April, 1743, until the great and good man gave utterance to his last words —"I rejoice myself to God, and my child to my country"—on the 4th of July, 1826. The portraits which accompany the work are fine steel engravings; and sketches are also given of the life of the first of our "Merchant Princes," and the last surviving signer of the Declaration—Hancock and Carroll.

Mr. Hudson is agent for the work, and can be seen at the St. Clair Hotel.

FRAUD.—Mr. A. Provenfold made a complaint before the Mayor yesterday, against Dr. William Wilson, in which he charged Dr. W. with fraudulently obtaining the sum of $94,-66 from him, by renting him a room on Smithfield street, which he had occupied, and insisting on the payment of the rent in advance, alleging that he had so paid it to the person who owned the building. Mr. Provenfold paid the rent, ($91,66, if being the sum required until Dec. 31,) and he now charges Dr. Wilson with obtaining this sum by a false representation. Dr. W., on the other hand, states that there was no false statement or fraudulent intention about it, but nothing other than a fair business transaction. The matter is held under advisement by the Mayor.

MAD ARRAN.—This is the name of one of the smallest, prettiest and fastest (enough of superlatives, say how,) steamers we have ever seen. It is lying on the Allegheny wharf, and is laid from the view of the public by its extreme diminutiveness, and also on account of its lying alongside another steamer, which, although rather under the medium size, has the appearance of a monster, when placed, as she is now, beside the smaller craft. The Major is intended to run on the Conneaut Lake, near Meadville, Crawford county, and is to be used to transport fishing parties out into the lake. She has but one boiler, and we could not discover her engine but presume she has one. She is about sixty feet long, and is calculated to run on wet stones, owing to her light draft.

RAN AWAY.—A horse attached to a wagon, became frightened, on Federal street, Allegheny City, above the new Market house, Tuesday evening, about 7 o'clock, and started down the street, at a fearful rate. Several vehicles were standing in the street, which were considerably damaged by coming in collision with the wagon drawn by the frightened animal. He broke loose from the wagon, when opposite Spangler's clothing store, and "went it alone," taking the inside of the old market house—and several narrow escapes were made, before he was stopped.

GAS IN ALLEGHENY.—We must not be understood, by this heading, to mean *gassy* politicians, railroaders, editors and others, but gas, literally, ("a permanently elastic, uniform fluid"—Webster.) The workmen are laying the pipes in many of the streets; the Gas Works, which are on the corner of Ohio st. and West Common, are rapidly approaching completion, and in a short time our neighbors across the river may expect to have in full operation, their Gas Works, and the accompaniments, which always follow such buildings—a gasometer and a bill,—and such a bill—every quarter.

SAVAGE ASSAULT.—A colored man named Carlotta Brodhill, a peaceable and unoffending citizen, who has been absent from this city—in Allegheny—for about 18 months, was set upon on Tuesday night, by a gang of about twenty negroes, in the Seventh Ward, and very badly beaten—he having been struck on the head with stones, clubs, &c.

We may add that the person mentioned above is *slightly* known about the city, as LADY BIRD, and he has been ruminating in Allegheny City, under the charge of Major Beckham, for that period.

GRAND LARCENY.—A man named John Armstrong was arrested yesterday, and committed to jail by Alderman Major, of the Sixth Ward, charged with grand larceny, on the oath of John Bell. Armstrong is charged with being concerned in the robbery of Mr. Bell's house, which took place on Friday, the 30th of July. The robbers took from the house a trunk, which contained seventy dollars in silver and two valuable silver watches. Armstrong was committed by the Alderman for a further hearing.

A COMPARISON.—The following table exhibits the ratio of deaths in the cities of Philadelphia, New York, Boston and Pittsburgh, during the last week:

	Deaths.	Population.	Ratio of Deaths
Philadelphia,	227	400,000	1 to 1763
New York,	672	615,000	1 to 900
Boston,	92	137,000	1 to 1477
Pittsburgh,	19	50,000	1 to 2631

ALLEGHENY CITY.—Our neighbors across the river have secured for themselves Water Works and Gas Works; the next improvement which they should introduce, and it is one that would prove of vast benefit to the public, is a personage called Street Commissioner—the duty of the personage is to see that the streets are kept clear of rubbish.

INCUMBERING THE STREETS.—Several of our contractors for building have been summoned to appear before the Mayor to answer the charge of taking up an unreasonable share of the street by their building materials. It seems true, that if you give these gentlemen an inch, they take a yard.

STATE CONVENTION.—The Free Soil State Convention meets in this city on Tuesday next. Business connected with the National Convention, which assembles the day following, will be transacted. The committee who call the Convention consist of Wm. F. Clark, John J. Mann and Russell Errett.

PASSING COUNTERFEIT MONEY.—Thomas Arnold made a complaint yesterday morning, before the Mayor, against Nicholas Brower, for passing upon him counterfeit money. The defendant was released from custody on agreeing to take back the note which he had given to Arnold.

SURETY OF THE PEACE.—Mary Bradley was held to bail yesterday, on oath of Margaret Wilds, by Ald. Thompson, of the Seventh Ward. Mary was charged with threatening that she would take the life of Margaret—hence her surety.

RIOTOUS BEHAVIOR.—A man named Nathan Berks, was taken before Ald. Thompson, of the Seventh Ward, yesterday, and fined for riotous behavior. The gentleman "forfeited up" and was discharged.

HOUSEKEEPING ON THE GENUINENESS OF THE PENTAUCOH.—This is the title of a work which the owner can have, by calling at our office, where it was left by a gentleman, who found it on Wood street.

FARE.—The fare to Philadelphia has been reduced to $9,50. They should keep on, until they get the fare to about eight dollars.

RECEIVED STOLEN GOODS.—Alderman Barclay, of Allegheny City, committed to the county jail, yesterday, for a further hearing, William Tasker, who was charged by James Criswell with receiving stolen goods.

HALF PRICE.—The fare from Cleveland to this city and back, will be reduced to half price, to persons attending the National Free Soil Convention.

THE TOMBS.

WEDNESDAY MORNING, August 4.

But six persons were brought up before the Mayor this morning. Daniel Clifford was found by a watchman, drunk, and behaved disorderly in the Diamond. He was fined and in default committed for thirty days.....Amanda Swartzell, for vagrancy, was sent up for ten days.....Thomas Howet was found drunk in the streets, where he was blaspheming very loudly—Thomas received twenty-four hours. .....William Mullen was found wandering the streets, and as he could not give a satisfactory account of himself, he was sent to the hill, for twenty-four hours.....Gabriel Salcbar and Michael Chaney were found, under suspicious circumstances, in a lumber yard—in default of payment of the fine, they were also sent to the hill, for twenty-four hours.

CONGRESSIONAL.

WASHINGTON CITY, Aug. 4.

HOUSE—In Committee on the General Appropriation Bill, Mr. Bowie offered a resolution appropriating $100,000 in aid of a National Monument, which was ruled out of order by the Chairman.

An amendment was offered directing the President to impose Light House duties on Foreign Vessels, which was intended as a retaliatory act, and offered as such, towards Great Britain. After some debate it was adopted.

Mr. Humphrey Marshall resigned his seat in the House.

The House then adjourned.

SENATE—A resolution declaring that the Census Act does not authorize the Superintendant of the Census to receive any salary as secretary of the Census Board, in addition to that of Superintendant, was taken, and after a long debate a resolution passed finally.

The Senate then adjourned.

Pudder & Ford,
MANUFACTURERS AND DEALERS IN
MANCHESTER MINERAL PAINT,
ALLEGHENY CITY PA.
NEW YORK, December 15, 1851.

I have analyzed a sample of MANCHESTER MINERAL PAINT, for PUDDER & FORD, and find it to contain the following:

Silica,	67,21
Alumina,	5,34
Per Oxide of Iron,	18,41
Magnesia,	68
Manganese,	24
Oxide of Manganese,	12
Water and Loss,	8,00
	100,00

The Powdered Sample, contained in the box, which I enclose was the one you desired also to have analyzed. I find it to differ from any average of the lump powdered, and mixed together. This last yields as follows:

Per Oxide of Iron,	68,50
Silica and Alumina,	22,00
Lime,	48
Magnesia,	16
Water and Loss,	7,86
	100,40

This difference I presume arises from the mineral not being uniform, some portions containing more Iron than other parts. The analysis shows the article to be well suited for a durable paint. I find that by calcining the powder by a pretty high heat, the color is much improved, or at least converted into a fine red.

COMMERCIAL SUMMARY.

ST. LOUIS, July 27.

TOBACCO—The only noteable changes which characterized the market, were the circumstance that there was a rather undue proportion of ordinary qualities offered, and that there were but three successful bidders. Sales at the Planters of 50 bbls. including 14 at $2,00@2,55; 14 at $3@3,95; 12 at $4@4,85, and two hhds. at $5,25@5,50 ½ 100 lbs.

Flour—By the arrival of the Clendenin, St. Ange and Martha Jewett, there was a moderately fair supply on the Levee, and on account of the reduction of freight rates for shipment to the Ohio 53 bales sold at $80; 78 at $1; 55, 65 and 75 at $2 ½ ton.

LEAD—In the demand was a shade more active, and sellers assumed a greater degree of firmness; 1000 pigs Hamilton sold in the city at $1,75 ½ 100 lbs.

PORK—Mess retailing at $19,25@19,50.

LARD—Prime in bbls. held at 9½@10c, and kegs at 11c.

BACON—Small sales of Shoulders at 7½@7¾c; sides of 30@35 lbs. clear sides 10¼@10½c; hams 6@10c.

There has been but little animation in the market today, which appears pretty much unchanged in every particular. The weather is clear and warm. The receipts continue in abundance and the high rates of freight are serious drawbacks to trade.

BACON AND ROPE—Holders firm, with light sales of fair bagging at 12c, and a sale of 250 coils
