THE CITY POST.

WEDNESDAY MORNING.....DECEMBER 1.

THE NATURALIZATION CASES.—An effort was made in the Court of Quarter Sessions yesterday, to take up the case of the Commonwealth vs. James Young—indictment, uttering fraudulent naturalization papers. Messrs. Darragh and Brown appeared for the defendant, and Messrs. Barton and Allen for the Commonwealth.

Mr. Darragh stated that he wished an immediate trial for his client, who was in Court at present, with his witnesses also in attendance. It should be granted to him as a matter of justice, for his client held a high office; and also to vindicate the Commonwealth, if the accused were guilty, which he denied, however. He would not admit the candid of the counsel on the other side, that they could not obtain the attendance of witnesses—there were nine bills found against Mr. Young, and they were surely prepared to go into trial, on the evidence presented to the grand jury, sufficient to admit of them finding true bills.

Judge McClure coincided with Mr. Darragh, that the defendant should have an early trial, on account of his situation, as a public officer; but he was also determined that the matter should undergo a full and thorough investigation.

The counsel for the Commonwealth, Barton and Allen, stated the difficulties they had to contend with in securing the attendance of witnesses before the Grand Jury; they had been forced to compel their attendance, under attachments from the Court; some witnesses were unwilling to testify in relation to the matter, and others had been tampered with, and efforts made to induce them to depart from the city. This they were prepared to prove to the satisfaction of the Court. The counsel hoped that the affair, which was of the greatest importance, should be investigated; if the Court insisted, however, in taking up the case before they were ready for trial, they would be forced to enter a nolle prosequi in the cases, and take them before a higher tribunal.

Judge McClure stated it as his desire, that there should be a thorough investigation; if witnesses had been tampered with, the persons who had acted so, laid themselves liable to action for a misdemeanor.

Monday next was agreed upon, finally, as the day on which the case against Young would be taken up. The others are to follow immediately after. Twenty-one bills were returned by the Grand Jury, in relation to these frauds.

COURT OF QUARTER SESSIONS.—Present Hon. Wm. B. McClure, President Judge, and McKenna and Boggs Associate Judges.

In the case of the Commonwealth vs. Robert Lafferty, noticed in yesterday morning's paper, the jury returned a verdict of not guilty—the prosecutor to pay the costs.

The first case called up yesterday morning, was that of the Commonwealth vs. Noah Crowley; indictment, keeping a tippling house. This prosecution appeared to have original in hatred. The bad character of prosecutor was proven, and the jury returned a verdict of guilty—the prosecutor, Moran, to pay the costs. The prosecutor was disposed to make an outcry in regard to the verdict, but was handed over to the Sheriff.

The case of the Commonwealth vs Emanuel Arthurs was next taken up. The indictment, riot and assault and battery. Black and Bruce for defence; and the District Attorney for the Commonwealth.

QUARTER SESSION—Arthurs, against whom four other indictments for various offences are pending, is charged with being concerned in a riot which occurred at the corner of Seventh and Smithfield streets, some time during last May, in which a soldier was badly beaten. The mill was brought up by Sergeant Doyle, of the Army, who is absent from the city at present, having been ordered away on duty. A number of witnesses were called; but nothing of any importance elicited, witnesses gave made to the jury after the conclusion, and a verdict of not guilty, was shortly afterwards returned. The prisoner was remanded to await his trial, on the other charges.

The next case taken up was that of the Commonwealth vs. R. Allen, S. Baker, and James Boyd; indictment, burglary and larceny, on oath of Hiram Baker. The offence took place in the village of McKeesport, some time last summer. The case was not concluded when the Court adjourned.

DECLINED FOR HONOR.—Calvin Adams, of the Second Ward, has declined the honor of standing the fire, as the free soil candidate for Mayor. He says, in his letter of declination, that "nothing short of a necessity, growing out of urgent business relations, constrains me to decline the honor thus tendered, which I now do, with many thanks to the Convention and to their Committee, individually, for the flattering and friendly manner in which you have been pleased to convey the action of the Convention."

Immediately after this becoming known, the free soil Executive Committee were called upon to meet and nominate a candidate in place of Mr. Adams. The Committee met, we believe, last evening.

LECTURES.—Park Benjamin, quite a noted literary character, has been engaged by the Committee on Lectures, of the Mercantile Library, to deliver, before the citizens of this city, two humorous poems, and a lecture on marriage. Mr. Benjamin is well known as a writer in the eastern cities, where he has been engaged in the publication of periodicals and newspapers, for a number of years.

We do not see why our citizens do not support and attend the lectures given under the auspices of the Mercantile Library, better than they have done. Mr. Giles, one of the most eminent and talented lecturers of the country, did not receive a proper degree of encouragement. We hope this state of things will change.

THE DRESSER TO-NIGHT.—We are confident that the attraction offered to the music loving public, of our citizens, will draw a large crowd to Lafayette Hall to-night. The programme will be found in another column; it contains many pieces of music, of rare merit, and sufficient to show a full house of the elite of the city.

Mrs. Dostwick has never before visited our city, but judging from the reputation she achieved while in the East, she certainly deserves great encouragement. Besides she is assisted by several eminent artists.

DROWNED.—A German emigrant, whose name is unknown, was drowned, on Monday night, in the Monongahela river. He fell from the deck of the steamer Paul Anderson, and, notwithstanding the efforts made to save him, drifted under the wheel of the boat and was drowned. The emigrant was on his way west, and was accompanied by his wife and three young children. The family are in necessitous circumstances, from the fact that the head of the family, when drowned, had on his person all the money. Efforts to recover the body have, thus far, been unavailing.

ORPHANS' FAIR.—In relation to the late Fair for the benefit of the Orphan Asylum, the *Chronicle* says that $4,000 have been realized. The management state that about $3500 of the above sum will be absorbed in liquidating debts which have been accumulating against the Institution for several years. We are sorry to small a sum will remain for the actual support of the Orphans, yet the payment of debts is a sacred duty, and the Managers have every reason to be grateful that a generous public has so bountifully assisted them in the discharge of that duty.

ACCIDENT.—A man named Garper Lesser, a workman employed in the rolling mill of Spang & Co., in Stewartstown, met with a serious accident on Wednesday last. He was engaged in the duties of his business, when his leg became entangled in some heavy machinery, crushing his ancle and giving him great pain. Dr. A. O. Walters was called in, and found it necessary to amputate his leg. He is now out of danger, and rapidly recovering.

BAYNE'S VOYAGE TO EUROPE.—We would remind our readers that Bayne's great Panorama and the christal palace may be seen this afternoon at the new and beautiful rotunda. It is a delightful lecture room, replete with every comfort for spectators. The Panorama will be exhibited at 3 o'clock and 7 at night. Go early if you wish to get a good seat.

THEATRE.—Mrs. Farren still holds forth at the Theatre. This lady is deservedly a favorite in this city. Her acting is powerful, and her talents of a varied character. In comedy or tragedy, she is perfectly at home. Last night there was a full attendance at the Theatre, when the play of the Hunchback was performed.

TAKEN UP.—The case of the Commonwealth vs. David Jewell and others, will be taken up this morning, in case witnesses, who are expected, should arrive. If they do not, a decision will be made, by the counsel for Jewell, for a postponement of the case, until the next term.

BAYNE'S PANORAMA—Still continues at the Athenæum, where it draws in a wonderful manner, considering its long stay here a year or two ago. This Panorama is decidedly the best that has visited our city for years; it is well worth seeing twice.

CONSPIRACY.—Walter S. McLain, was yesterday committed to prison, charged with conspiracy on oath of Samuel Stitts. The prisoner was accused of sinking a coal boat last summer, in connection with two others, one of whom named Wolf is now in jail.

THE CASE now come through from Philadelphia to this city—all the staging having been avoided by the completion of the road from Rodebaugh's to Beatty's station. A new time table goes into operation on the first of December.

FINES.—The Mayor yesterday fined a man named Joseph Kline after $25, for prowling about the wharf in a suspicious manner, and being a disorderly person. In default of payment, he was committed to jail.

SHIPPING.—We see it stated that our merchants will not receipt goods through to Philadelphia by Canal; fears being entertained that that improvement will shortly be closed by the cold weather.

NOT TO BE CLOSED.—We understand that the Pennsylvania Canal is not to be closed to the public, nor the water withdrawn until it freezes.

HOTCHES.—A man named John Nelson was fined by the Mayor, yesterday, for disorderly conduct on the Aqueduct. The fine was $25, and Nelson was committed in default.

INVITE TO KILL.—Mayor Fleming, of Allegheny city, yesterday, committed to jail a man named Nathaniel Reed, for assault and battery, with intent to kill George Smith.

DISTRICT COURT—Before Judge Williams. The case spoken of in yesterday morning's paper, in this Court, occupied it until the hour of adjournment yesterday afternoon.

BALL.—A grand military and civil soiree will be given by the Jackson Independent Blues, on January 7th, at Lafayette Hall.

TO BE OPENED.—The Western Pennsylvania Hospital will be opened on the first of the month, for the reception of patients.

GAS.—The enterprise notices the introduction of gas into Allegheny City, for the first time yesterday, in the following manner:

"The gas is now freely circulating through the city, and is burning experimentally, in some of the stores along Federal street, in opposition to the brilliant glare of the sun. As this is placing the new light at somewhat of a disadvantage, it cannot be properly seen, until nightfall, when the principal stores on Federal street will be illuminated.

We are informed that one bench (with three retorts) is now in use, and will supply all the gas that can be consumed by the burners at present put up in the city. There is therefore no danger of the supply failing. As the number of burners increases the works will be put in operation more fully. Therefore, gas may now be considered a 'permanent institution' in Allegheny."

MAYORALTY IN ALLEGHENY.—The idea of the editor of the Journal, has been seized by a gentleman of Allegheny City, named Adams. The gentleman "has received a call" from a number of citizens of that city to become the Whig candidate for Mayor. He was more modest than his friend on this side of the river, his acceptance does not follow the call.

WASHINGTON MANIAC.—The young man still continues very low; it was thought yesterday that he would not live through the night. A minister was sent for yesterday, by desire of the wounded man, who seems perfectly sensible of his approaching dissolution.

DRAYMEN FINED.—The Mayor fined three draymen yesterday, for not accompanying their horses while on the streets. The draymen walked on the pavement, and allowed their horses to make their own way through the crowded street, without guidance.

ARRIVED.—Mrs. Emma G. Bostwick and her assistants arrived in this city yesterday, and took rooms at the Monongahela House.

AN LARGE.—Lewis, the person who injured Mariatt so badly on Saturday night, still remains at large. All efforts to arrest him have been unsuccessful.

To Physicians throughout the United States.

SEEMING it unnecessary to remind any regular member of the Medical profession, of the established Medical properties of PURE HOLLAND GIN, in many diseases of Dropsical tendency, I respectfully invite your examination to a very superior article, manufactured by myself, exclusively, at Schiedam, in Holland, by a process peculiar to *my own factory*. It is perfectly pure and unadulterated, not by the common harsh berry, but by the choice botanical variety of the aromatic Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spirituous solvent, and thus becomes a concentrated tincture, of exquisite flavor and aroma, altogether transcendent, in its cordial and medicinal properties, over any Holland's Gin heretofore known.

Amid the influx of inferior distillations with which this country is now flooded, physicians find no little difficulty in procuring a good and pure Gin, which they can prescribe with confidence in its beneficial effects. As an importer of twenty years' standing, in the city of New York, and possessing a matured experience in the manufacture of HOLLAND GIN, especially, I beg to submit to your attention my "Aromatic Schiedam Schnapps," as one which cannot fail to realize your utmost expectations, and I shall be happy to forward to you a bottle or two, free of charge, in answer to a letter intimating your medical (or scientific) wish.

It is now scarcely one year since I have prepared and distributed my Schiedam Gin exclusively for medicinal purposes; yet, within that brief period, I have received one thousand letters, both from physicians and patients, testifying to its really extraordinary efficacy in Gravel, Incipient Dropsy, and affections of the Kidneys and Bladder generally; and I have no doubt that it would yield similar results, with precision and certainty, in your own professional experience.

Put up in pint and quart bottles, with my name upon the bottle, cork and label, with an assay on its properties. This article should be in the hands of every traveler.

We have heard of several sales of Hanging Rock at $43@$50, with sales of 200 tons do at $45, delivered at landing at Hanging Rock. We take the following from the American, to show the feeling of the European prospect of the metal market. That paper says: "We ascertain by a letter from one of the largest Iron houses in England, that the present rate there for iron will be held firm, and that the prospect is in favor of a further rise. It accordingly directs its agent in New York, to whom the letter is addressed, to make no contracts at fixed prices—not other contracts except at the prices which may prevail when the order is received in England, and that they have declined orders from Liverpool for rails at £8. The letter further adds that they are now at their full work, and that from the scarcity of hands, owing to the emigration to the United States and the gold regions, and the influx of orders from the continent for Railroad Iron, the market is fully secured from any decline, but with every prospect of an advance."
