Fridder & Ford,
MANUFACTURERS AND DEALERS IN
MANCHESTER MINERAL PAINT,
No. 1 Water street, New York. December 16, 1851.
I have analyzed a sample of MANCHESTER MINERAL PAINT, for FRIDDER & FORD, and find it to contain the following:

Silica	67.21
Alumina	8.34
Per Oxide of Iron	18.41
Lime	.62
Magnesia	.24
Oxide of Manganese	.12
Water and Loss	5.00
	100.00

The Powdered Sample, contained in the box, which I supposed was the one you desired also to have analyzed, I find to differ from the average of the bulk only in being powdered, and mixed together. This last yields as follows:

Per Oxide of Iron	58.56
Silica and Alumina	35.00
Lime	.68
Magnesia	.16
Water and Loss	7.56
	100.40

This difference I presume arises from the minerals being uniform, some portions containing more iron than others. The analysis shows the article to be well adapted for a durable paint. I find that by calcining the powder to a very high heat, the color is much improved, or at least converted into a fine red.

LIPPINCOTT & BARR,
(LATE J. J. STEWART & CO.)
MANUFACTURERS OF PHŒNIX FIRE PROOF SAFES, Second Street, between Wood and Smithfield—On Tuesday afternoon, July 25, 1848, the undersigned were called upon by Messrs. Lippencott & Barr, to witness an impartial and fair test of one of their Phœnix Safes. The furnace being prepared, the Safe was placed inside thereof with Books, papers and some money; when the door of the Safe was locked and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red hot, and continued until half past 6 o'clock, being about four and a half hours, when the contents were found in their entire state, to the great satisfaction of those who had witnessed the test. The furnace was then allowed to cool down, Safe cooled, and door opened—the books, papers and money came out in as good condition as they went into the mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof. JARVIS & STRAUB,

Keasting's Genuine Extract of Coffee.
THE attention of the public is respectfully invited to the new article, which is manufactured by J. F. D. KEASTING, Pittsburgh. There is a very great saving in using this article, as one pound of the Extract goes as far as ten pounds of Store Coffee, in a family, and clears the Coffee much better than eggs, isinglass, or any other article. The subscriber respectfully requests the public to give the Extract, and he feels fully satisfied that they will find a delicious beverage, and one superior in every respect to that which is now so generally used. This article is neatly and securely packed in tin foil packages, of a quarter of a pound, which preserve its strength and flavor.
Persons asking for Extract, should be particular, and ask for Keasting's, and then see that it has the written signature of J. F. D. KEASTING, on the wrapper, as none are genuine without it.
