Pudder & Ford, MANUFACTURERS AND DEALERS IN MANCHESTER BRITTANIA METAL PAINTS, ALLEGHENY, CITY PA.

NEW YORK, December 15, 1851.

I have analyzed a sample of MANCHESTER BRITTANIA METAL PAINT, for Pudder & Ford, and find it to contain the following:

Silica	67.21
Alumina	6.34
Per Oxide of Iron	18.41
Lime	.68
Magnesia	.22
Oxide of Manganese	1.42
Water and Loss	5.50
	100.00

The Powdered Sample, contained in the box, which I supplied to me from the one you desired also to have analyzed, I find to differ from any average of the lumps powdered, and mixed together. This last yields as follows:

Silica and Alumina	58.50
Silica and Alumina	33.00
Iron	2.50
Magnesia	.16
Water and Loss	7.00
	100.00

This difference I presume arises from the mineral not being uniform, some portions containing more Iron than others. The analysis shows the article to be well suited for a durable paint. I find that by calcining the powder for a pretty high heat, the color is much improved, and is least converted into a fine red.

JOSEPH HUNTSMAN. JAMES H. BAKER.

Huntsman & Baker, MANUFACTURERS OF PHOENIX FIRE PROOF SAFES, Second Street, between Wood and Smithfield—On Tuesday afternoon, July 27, 1848, the undersigned were called upon by Messrs. Lippencott & Barr, to witness an honest and fair test of one of their Phoenix Safes. The furnace being prepared, the Safe was placed inside thereof with Books, Papers and some money; when the door of the Safe was closed and the fire kindled at a quarter past 5 o'clock, and in a short time the Safe was red hot, and continued till half past 6 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was sufficient. The furnace was then allowed to cool, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being in our judgment entirely fire proof.

JARVIS & TRABUE, COCK & HAYDOCK, CORNWALL & BROTHER, BRANNON & CHATFIELD, BENEDICT & CARTER, ISAAC OROME.

I am engaged in the foundry business, and know something about furnaces and heat. I witnessed the burning of the above Safe, and can freely say there was no burning about it, and will, therefore, recommend them to the public as being, in my judgment, entirely fire proof. WM. HAYS.

Z—In calling the attention to the above testimonials, we do only what we have a right to do, in the strongest terms of the fairness of the Safe being entirely fire proof, and their full confidence in the Safe being entirely fire proof. We have constantly on hand and for sale a full assortment of the above safes. [mar31] BELL & FERRIS.
