TUESDAY MORNING ..... MARCH 8

STATE FAIR IN PITTSBURGH.

By reference to the Telegraph column, it will be seen that the Executive Committee of the State Agricultural Society, have selected Pittsburgh as the place for holding the next Agricultural State Fair. The Committee have set apart the 27th, 28th and 29th days of September, for holding the Fair.

BAD ACCIDENT.—An accident occurred on the Pennsylvania Railroad, on Friday morning last, near the town of Newton Hamilton, about 180 miles from Philadelphia.—By the accident four persons lost their lives, and a number of others were severely injured. The *Dispatch* of yesterday morning, was furnished with the following account, of the accident by a passenger:—

"The train which left Philadelphia at 5 o'clock, Thursday afternoon, arrived at Newton Hamilton a distance of 189 miles, at 2 o'clock on Friday morning—where the troubles of the passengers commenced. A freight train having two "emigrant cars" attached, had met with an accident to the locomotive about two miles from Newton Hamilton; the locomotive, or some one connected with the train, was sent westward to give warning of the accident to the slow passenger train from Pittsburgh, but went into a "charity" and *fell asleep*, allowing the passenger to run into the freight train at full speed, smashing the engine, running through a baggage car, and under an emigrant car, which was raised upon the locomotive!! The engineer and fireman escaped unhurt—but, from the crush of cars and the hot steam which escaped from the wrecked engine many passengers in the emigrant cars were killed and wounded—a woman and child died almost instantly, times survived but a few hours, and several others not expected to recover."

A drover named Wilson from Greene county, was killed, but the names of the others are unknown. No person in the passenger train, which was from this city, going east was injured. The cause of this accident, the carelessness of an employee of the company, should not be allowed to go unpunished. A Coroner's Jury will set for nothing, if it does not find a more satisfactory verdict than "accidental" in regard to this railroad murdering.

OPENING OF CANAL NAVIGATION.—The Pennsylvania Canal has been fully opened to the spring business, and merchandise and produce are now transported over this great State improvement. The effects of the opening of the Canal will be received activity in all branches of business. The Pennsylvania railroad has been unable thus far, to transport the freight, necessary to a brisk business, either East or West, and we may anticipate, that, with the aid of the canal, all the produce and merchandize lying in our warehouses can be cleared out, and the spring business commenced and prosecuted with great activity.

The first boats of the season came down, we believe on Sunday morning last. The Canal basin already shows signs of activity consequent on the increase of business in that section of the city.

ICE CITY HOTEL.—This establishment has been newly papered, and lit up with gas, and the whole interior very much improved under its present landlord, Mr. JOHN HARPER, formerly of Bedford. Mr. Harper, we beg leave to state, is one of the most accommodating and obliging landlords with whom we are acquainted, and as he brings with him the highest recommendations from his old residence, we commend the same to the favorable notice of our citizens, with the assurance that they will find a clever landlord and the best of fare.

DRIVER COURT.—Before Hon. H. W. Williams, Assistant Judge.

Judge Williams delivered his charge to the jury yesterday, in the case of Hood vs. Hood. At the time the Court adjourned last night, no verdict had been rendered.

James Alexander, James Gray, No 116 Tannery terr, 1851. Barton for plaintiff, and Williams for defence. Action on a building contract. On trial.

LARCENY OF JEWELRY.—A man named John Cochran, was arrested yesterday, and taken before Ald. Steel, charged with larceny. It appeared, from the information laid, that Cochran stole from the house of Richard Colwell, in the fifth ward, a number of articles of jewelry—rings, pins, &c., of the value of twenty dollars. After a hearing, Squire Steel committed Cochran for a further hearing to day.

GOOD NEWS.—A despatch in another column states that the Baltimore Board of Trade will recommend a subscription by the city of Baltimore, of $1,000,000 to the Connellsville railroad. If the recommendation should be made, and acted on by the Councils of that city, it will give the road such an impetus that its completion will be a matter of certainty.

DROWNED.—A man was drowned off the steamer Tuscarora, on her upward trip from Portsmouth. He walked overboard, at night, while the steamer was under way. A yawl was manned, and sent after him, but was unsuccessful in finding his body. He was about twenty years of age, and was from Cleveland, Ohio.

ARRESTED.—John Bird, accused of a participation in the fight which occurred on the Fourth street road, on Saturday last, was arrested yesterday and held to bail, by Ald. Major, for an assault and battery on John Bell.

ALD. DAPP, of the Eighth ward committed, on Sunday, a man named William Morgan to jail. Morgan was charged on oath of James W. Davis, with surety of peace. On Monday morning half was procured, and Morgan discharged.

A COLLISION took place yesterday, on the Ohio and Pennsylvania railroad, near Wooster. Two trains—an from and freight train—ran into each other. Damage to the cars was all that ensued from the accident.

ASSAULT AND BATTERY.—Margaret Clark made an information, yesterday, before Ald. Major, which caused the arrest of John Lowry, on a charge of assault and battery. Lowry was held to bail.

ALD. BIRD disposed of six or seven watch house cases yesterday morning. The majority were committed in default of their fines; one or two paid their bill, however, and were discharged.

We would call attention to the sale of splendid Furniture, at the dwelling of Mr. J. Brennan, No. 21 Grant street, between First and Second, this morning, at 10 o'clock, by Jas. M'Kenna, Auctioneer.

THEATRE.—To night the drama of the Flowers of the Forest will be performed at the Theatre, with a powerful cast. This is one of the Buckstone's best dramas.

LARCENY.—Rose Stephenson was committed by Mayor Park, of Allegheny, on Sunday, charged with larceny. The information against Rose was made by a man named Young.

HELD TO BAIL.—William Kearney arrest and committed for robbing his mother was yesterday held to bail for his appearance at Court, in the sum of $500.

dec14 JAMES BLAKELY.

I HAVE introduced an elegant article of CLOTH and HAIR BRUSHES, superior to anything of the kind ever before manufactured in this city. They will compare with any Eastern Brushes ever brought to this market; not only for elegant finish, but also in finish. The best of workmen are employed, and thus make them in every respect equal to any manufactured in any of the Eastern cities.

Also, a large assortment of Paint, Varnish, Sash, Shoe, Horse, Dusting, Scrubbing, Sweeping and Whitewash Brushes.

Also, a large assortment of Nailed and Tied Whitewash Brushes.

Also, a fine variety of Tooth, Nail and Brushes, flat Varnish, Blacking, &c., &c.

All of which I will sell as low as they can be purchased in any Eastern market. All who doubt the above statement are respectfully invited to call and judge for themselves.

N. B.—As I have concluded to confine my attention entirely to the manufacture of Brushes, I feel that I can offer as great inducements as any manufacturer in the Union.

IMPORTANT TO HOUSEKEEPERS!

Something Better and more Economical than Soda, Cream Tartar, or any other Preparation in existence for Baking.

WHERE'S CHEMICAL HEART OF BAKING POWDER.—For raising Bread, Biscuit, Griddle and Johnny Cakes, Puddings, Pot Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c. &c. This article is one that every FAMILY, HOTEL, BOARDING HOUSE, Baking Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantages over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast, water only being necessary.

2. No time is required for the dough to *rise* before baking, consequently, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, wholesome and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce dyspepsia and other disease.

This article has been thoroughly tested, and is universally liked. When used according to the directions it is warranted to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 120 Water street, New York. Sold by the trade generally, and druggists generally.

HAY—Sales of 23 loads at $16@12.

WHISKY—The demand is only moderate and prices less firm. We quote 21½@22.

PIG METAL—The market evidently seems more firm within a few days past, owing, we are informed, to the ascertained fact that the stock of Allegheny Iron, which can be brought to market in the spring, will fall considerably short of what was anticipated. We note sales of 100 tons Allegheny at $45, 6 months; and the same was offered for 400 tons, but refused—$47.50 was asked.

The above sales and offer should have appeared in the commercial column on Monday.

BULK MEAT—We have nothing new to notice in this article, except dullness. There were no transactions that we could hear of.

COMMERCIAL SUMMARY.

HOGS PACKED IN THE WEST.

We copy the following recapitulation of the number of hogs packed in the West during the past season, from the Cincinnati Price current of the 24 inst. The returns from Tennessee, Iowa, Missouri, and a large proportion of the returns from the other States, are found unusually numbers, near enough to the facts to answer all practical purposes. The Courier was not far wrong in its estimate, early in the season that the "crop" would show an increase of upwards of 200,000 over last year. In its estimate Louisville is put down at 300,000 hogs this year against 183,000 last year:

	RECEIPTS	CONSUMPTION.	
	1851-'52.		1852-'53.
Cincinnati	405,000		405,000
Louisville	183,000		300,000
Cincinnati	547,273		603,152
Indiana	447,000		690,945
Kentucky	335,000		339,300
Tennessee	10,000		36,500
Illinois	231,518		234,354
Iowa	40,500		52,652
Missouri	69,436		87,200
Michigan	10,800		10,400
	1,502,580		2,041,003
			1,502,580
			481,125

Increase in number 481,125

Thus a very large increase is shown over the business of last year; but this excess is reduced somewhat by the falling off in weight. Upon this point our correspondents have generally advised us with a great degree of precision and we are therefore able to arrive at very nearly the actual result. At the heavy packing points there is a greater proportionate falling off than at the smaller places. This is accounted for by the fact that early in many instances contracts were filled by the delivery of small hogs, then towards the close of the season, prices having continued high, a large number of hogs that would in ordinary years have been kept over, were sold off. We find, therefore, that while in some instances weights fall off 12 to 15 to 20 per cent, in other it is scarcely perceptible. Taken in connection with Federal street 56 feet 6-10 inches; running thence along the said Avenue westwardly 21 feet 6 inches; thence northwardly, and parallel with said Federal street, 80 feet 11½ inches, to an alley 12 feet wide; and thence parallel with Wylie street, eastwardly 19 feet; and thence 90 feet 11½ inches to the place of beginning, on a perpendicular line; $50,00 per annum; on which is erected a brick house, No. 81, suitable for dwelling or store. Terms at sale.

DOLLARD, PREMIER ARTISTE IN HAIR—INVENTOR OF THE CELEBRATED GOSSAMER VENTILATING WIG AND ELASTIC BAND TOUPACEE. H. DOLLARD has always ready for sale a splendid stock of Gents' Wigs, Toupees, Ladies' Wigs, half Wigs, Frizzes, Braids, Curls, &c., beautifully manufactured and sachcep as at any establishment in the Union.

DOLLARD'S Herbanium Extract, or Lustrous Hair Tonic, prepared from South American herbs and roots, the most successful article ever produced for preserving the hair from falling out or changing color, restoring and preserving it in a healthy and luxuriant state. Sold in connection with Dollard's Hair Cutting Saloon maintains its immense popularity, is the fact that his Tonic is applied, to every head of hair on at the establishment, and by putting all together, the sense is shown to be about ten pounds to the hog, or 5 per cent. This decrease in the aggregate number of hogs given above, is equal to 100,000 head; and, therefore, the net receipts are 381,425 head.

In order to judge the extent of the crops in both years as clearly as possible, we reduce the whole to pounds, and in doing so we estimate last year's average at 208 pounds, and this year at 200 pounds the hog, which figures are, perhaps, not far from the actual average, but as we have made the difference ten pounds to the hog, the result will show a close comparison:

Crop of 1852-'53, in lbs	404,112,000
Crop of 1851-'52, in lbs	325,016,640
Excess in lbs	79,095,360

This is an increase of twenty-four per cent over last year, when the crop was six per cent, deficient, as compared with that of 1850-'51.

The average weight, net, per hog, has decreased from seven to ten per cent, as compared with last year, and hence, we find that article commands relatively higher price than last.

In the city of Baltimore the number of hogs packed will, we understand, fall short of last year's business some seventy thousand head. There will be several packing points in the West which we still expect to hear from; but we have no reason to doubt that, when we are satisfied, same the aggregate so given above to vary to any considerable extent.
