Fudder & Ford,
MANUFACTURERS AND DEALERS IN
MANCHESTER MINERAL PAINT,
ALLEGHENY, CITY PA.
Office, 77 Water street, Pittsburgh, December 15, 1851.
I have analyzed a sample of MANCHESTER MINERAL PAINT, for FUDDER & FORD, and find it to contain the following ingredients:

Silica	57.21
Alumina	8.63
Per Oxide of Iron	18.41
Lime	68
Magnesia	26
Oxide of Manganese	12
Water and Loss	8.00
	100.00

The Powdered Sample, contained in the box, which I suppose was the one you desired also to have analyzed, I find to differ from any average of the lumps powdered, and mixed together. This last yields as follows:

Per Oxide of Iron	58.60
Silica and Alumina	32.00
Lime	88
Magnesia	16
Water and Loss	8.36
	100.40

This difference I presume arises from the mineral not being uniform, some portions containing more Iron than others. The analysis shows the article to be well suited for a durable paint. I find when the Iron is high in Oxide, and nearly high heat, the color is much improved, or at least converted into a fine red.

JOSEPH DITHOUNT.....WM. C. BARR

LIPPINCOTT & BARR,
(LATE J. S. SCHULTZ & CO.)
MANUFACTURERS OF PHŒNIX FIRE PROOF SAFES, Second Street, between Wood and Smithfield—On Tuesday afternoon, July 23, 1849, the undersigned were called upon by Messrs. Hyde and Brown, to witness an honest and fair test of one of their Phœnix Safes. The furnace being prepared, the Safe was placed in it, containing within it all the books and papers most valuable to them. The door of the Safe was closed and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red hot. The furnace was then left to cool, being about four and a half hours, when the committee expressed their satisfaction that the time occupied was not sufficient. The furnace was then opened and the down Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt the Silver mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof. JARVIS & CRAIG,

I am engaged in the foundry business, and know something about furnaces and heat. I witnessed the burning of these Safes, and am of the opinion that they were so burning about it, and with pleasure recommend them to the public as being, to my judgment, entirely fire proof. WM. MAYNE.
In calling upon the above gentlemen for their signatures, they all spoke in the highest terms of the fairness of the test, and their full confidence of the Safes being entirely fire proof. We have constantly on hand and for sale a full assortment of the above safes. [mar31 BELL & TERRY.
