Pudder & Ford, MANUFACTURERS AND DEALERS IN MANCHESTER MINERAL PAINT, ALLEGHENY, CITY PA.

New York, December 16, 1851.

I have analysed a sample of MANCHESTER MINERAL PAINT, for PUDDER & FORD, and find it to contain the following:

Silica	57.21
Sesquioxide of Iron	18.41
Per Oxide of Iron	68
Lime	24
Magnesia	85
Oxide of Manganese	12
Water and Loss	8.00
	100.00

The Powdered Sample, contained in the box, which I suppose was the one you desired also to have analysed, I find to differ from any average of the lumps powdered, and mixed together. This last yields as follows:

Per Oxide of Iron	58.50
Silica and Alumina	35.00
Lime	85
Magnesia	16
Water and Loss	7.99
	100.00

This difference I presume arises from the mineral not being uniform, some specimens containing more iron than others. The analysis shows the article to be by all odds a durable paint. I find that by calcining the powder by a gentle red heat, the color is much improved, or at least converted into a fine red.

JOSEPH LIPPINCOTT. WM. C. BARR

LIPPINCOTT & BARR, (LATE J. S. BRACKETT & CO.,) MANUFACTURERS OF PHŒNIX FIRE PROOF SAFES, 51 Second st., between Wood and Smithfield—On Tuesday afternoon, July 29, 1845, the undersigned were called upon by Messrs. Lippincott & Barr, to witness an honest test of one of their Phœnix Safes. The furnace being prepared, the Safe was placed inside thereof with Books, papers and some money; when the door of the Safe was closed and fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red hot, and continued till half past 5 o'clock, when about four and a half hours, when the committee expressed satisfaction that the time occupied with such heat was sufficient. The furnace was then pulled down, the Safe cooled, and door opened—the books, papers and money safe. The land was as great as to melt of the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof.

JULIUS A. THANE,
NOCK & RAWSON,

BENEDICT & CARTER,
ISAAC CROMIN,

I am engaged in the foundry business, and know something about furnaces and heat. I witnessed the burning of the above Safe, and can freely say there was no burning in it, and I cheerfully recommend them to the public as being, in my judgment, entirely fire proof. WM. KAYE.

In calling upon the above gentlemen for their signatures, they all spoke in the highest terms of the fairness of the test, and their full confidence of the Safe being entirely fire proof. We have constantly on hand and for sale a full assortment of the above safes. [mar31-HGL & TERRY.

Keating's Genuine Extract of Coffee.

THE attention of the public is respectfully invited to this article, which is now manufactured, by J. E. D. KEATING, Pittsburgh. There is a very great saving in using this article, as one pound of the Extract goes as far as ten pounds of Store Coffee, in a family, and clears the Coffee much better than eggs, isinglass, or any other article. The subscriber respectfully requests the public to give it a fair trial, and he feels fully satisfied that they will find a delicious beverage, and one superior in every respect to that which is now so generally used. This article is neatly and securely packed in tin foil packages, of a quarter of a pound, which preserves this article in any climate.

Persons asking for Extract, should be particular, and ask for "Keating's," and then see that it has the written signature of J. E. D. KEATING, as none are genuine without it.

This difference I presume arises from the mineral not being uniform, some specimens containing more iron than others. The analysis shows the article to be by all odds a durable paint. I find that by calcining the powder by a gentle red heat, the color is much improved, or at least converted into a fine red.

Property for Sale.

THE subscriber offers for sale, on very reasonable terms, the following property, viz:

A Three Story Brick Dwelling House, No. 110 Penn street, between Hay street and Evans' alley; and Lot 25 feet front, extending back 115 feet to an alley. The House is one of the best buildings, and in one of the most pleasant neighborhoods in the city.

Five Lots—embracing corners of Front and Ferry streets; one hundred and five feet front on Ferry and sixty feet on Front street, with a good three story Brick Building on the corner, a two story Frame on Front st., and two Brick Buildings, used as shops, on Ferry st.

A Lot, 31 feet front by 90 feet deep, on Front, between Market and Ferry streets.

A Lot, with very convenient Frame Dwelling; Lot 20 feet by 90, fronting on Congress and Rim sts.

A House and Lot, on Wylie street, near the new Court House. The house is well arranged and in good order, and is now occupied as a hotel.

A Three Story Brick, on Smithfield street, near Seventh—being in an excellent business location. The Lot is 20 by 80 feet deep, fronting on Smithfield st.

A Cottage Frame and Lot, 25 by 120 feet, fronting on Anne and Robinson streets, Allegheny City. This is a very desirable and pleasant location for a residence.

Three Lots on Center street and Pasture Lane, in Allegheny City, 50 by 90 feet each, near the residence of Mr. Peter Jennings.

Nine Lots in the town of M'Keesport, each 60 feet by 150. Several of these are on the Main street.

Eleven Acres in Lunstown, on the Monongahela River, on which there are 4 houses; there are some 6 or 7 acres of excellent state coal, and abundance of limestone, convenient to the landing, and two coal tipples.

Ninety Lots in the town of Columbiana, 60 feet by 150 each, nearly all of which are well located. The tenant of each Lot has the privilege of using water or stone coal for his own use, from a spring near the Locks. Columbiana is a pleasant situation on the bank of the Monongahela river, a short distance below Look No. 4, in the midst of an extensive stone coal region, and would be a desirable point for manufacturing establishments.

Two Hundred acres of superior Stone Coal, with House, Railroad, &c. This property has a front of 140 rods on the Monongahela river; an excellent landing; good grade and foundation for railroad—with enough level ground at one point for houses and gardens, or locations for manufactories. The vein is deep enough to allow horses to be used in hauling out the coal—the quality of which, for iron work, steam, gas, or for any ordinary use, is not surpassed by any in the country.

In my absence, my agent, James Blakely, Esq., will give all necessary information, and be authorized to give negotiable deeds for any property sold.
