IMPORTANT TO HOUSEKEEPERS!

Something Better and More Reliable than Any Other Yeast, or any other Preparation in existence for Baking:

DURKEE'S CHEMICAL YEAST, OR BAKING POWDER.—For raising Bread, Biscuit, Rolls, Griddle cakes, Pastry Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c. &c. This article is one that every FAMILY, HOTEL, BOARDING HOUSE, and

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantages over the old system, are—1. It gives the exposure of all the ingredients used in bread, and the trouble and expense of procuring good yeast, —water only being necessary.

2. No time is required for the dough to *rise* before baking —consequently, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents a proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce POVERTY and a DISTEMPERED STYLE.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted to sell.*

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 129 Water street, New York. Sold by the principal grocers and druggists generally.
