IMPORTANT TO HOUSEKEEPERS!

Something Better and more Economical than Soda, Cream Tartar, or any other Preparation is evidence for Baking.

DURKEE'S CHEMICAL YEAST, OR BAKING POWDER.—For raising Bread, Biscuit, Griddle cakes, Johnny Cakes, Puddings, Pie Plant, Sweet Potato Cakes, Apple Dumplings, Pastry, &c. This article is one that every FAMILY, HOTEL, BOARDING HOUSE,

Eating Saloon, Ship, Steamboat, Vessel; Consumer of Yeast, *&c.* will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantages over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast—water only being necessary.

2. No time is required for the dough to *rise* before baking, consequently, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with Yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound, because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently a part only goes to nourish the body, while the acids tend, to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted* to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 159 Water street, New York. Sold by the the best grocers and druggists generally.
