IMPORTANT TO HOUSEKEEPERS!

Something Better and more Economical than Soda, Cream Tartar, or any other Preparation in existence for Raising Dumplings, Pastry, &c. This article is one that every family should be without, viz: DURKEE'S CHEMICAL YEAST, OR BAKING POWDER—For raising Bread, Biscuit, Griddle and Johnny Cake, Puddings, Pot-Pies, Cream Puffs, Sweet Cakes, Apple Dumplings, Pastry, &c. This article is one that every family should be without. For sale by

FAMILY HOTEL BOARDING HOUSE,
Falling Spring, Blair, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the very thing needed every single day of their existence.

Its most important advantages over the old system, are:

1. It saves the expense of milk, eggs, shortening, yeast, time, and the labor and expense of procuring good yeast, water only being necessary.

2. No time is required for the dough to rise before baking the biscuit, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, and wholesome bread and biscuit, whether the flour tender and palatable food, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a week's journey, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric juice of the stomach, and consequently, a part only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Price 25 cents per lb. Wholesale Depot, 110 Water street, New York. Sold by the retail grocers and druggists generally.
