IMPORTANT TO HOUSEKEEPERS!

Something Better and more Economical than Soda, Cream Tartar, or any other Preparation in existence for Baking.

DURKEE'S CHEMICAL YEAST OR BAKING POWDER—For raising Bread, Biscuit, Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c. This article is one that every FAMILY, HOTEL, BOARDING HOUSE,

Baking Saloon, Ship, Steamboat, or Office in the country, should find, upon a careful trial, to be the very *thing needed every single day of their existence.*

It is most important and advantageous over the old system, and:—1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast, or waiting for it being necessary.

2. No time is required for the dough to *rise* before baking which there can be none, consequently, bread may be made in a few minutes.

3. A cook can always depent upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a week stomach, sweeter, and will keep much longer, than when made with yeast.

5. The bread made by this process is much more healthy, as the same amount of nourishment to the system, that it does when made with the common yeast, the Carbonic Acid Gas which is fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce gout and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, if you want one that will do good.
