From the Pittsburgh Daily Dispatch, Feb. 24, 1853.

AN EXCELLENT ARTICLE.—Persons who have acquired a stooping position, by following a sedentary occupation, will experience great relief by the use of the "Washington Suspender Brace," made and sold by DR. REYSER, corner of Wood street and Virgin alley. It answers for a brace and suspenders; the weight of the pantaloons is so placed as to continually tend to bring the shoulders to their natural position, and expand the chest. We purchased one some time ago, and have been so pleased with it, that we unsolicited give it a "puff" gratis.

Women, hundreds of whom are annually injured by the weight of enormous "skirts," should also procure these braces. Be particular in procuring the kind mentioned, as many of the inferior sort are humbugs.

Sold wholesale and retail at the Drug Store of DR. G. H. REYSER, 140, cor. Wood st. and Virgin alley.

Braddock and Jumonville's Graves; Dunbar's Camp; Delany's Cave, which may be explored for miles under the mountain; the celebrated Cold Spring Falls, on the Youghiogheny river; and the Cumberland Cataract, descending from a shelving rock more than forty feet perpendicularly, &c.

IMPORTANT TO HOUSEKEEPERS!

Something Rider and more Economical than Soda, Cream Tartar, or any other Preparation in existence for baking.

DURKEE'S CHEMICAL YEAST OR BAKING POWDER, which has been recently introduced by any similar work published. It has been translated into Latin, Italian, French and Russian. No volume of Medical Science in the United States has been more extensively read or so much in demand. Price, $2.

Boxes for the use of Hotels, Saloons, Steamboats, Boarding Houses, &c., &c. Sold by the pound, or in the *very thing needed* for the use of families, and in the *very thing needed* every single day of their existence.

Its most important advantages over the old system, are—1. It is more healthy than Saleratus, Milk, eggs, shortening, spoiled bread, and the troubles and expense of procuring good yeast, water only being necessary.

2. No third article need be on hand for the dough to rise before baking—consequently, bread may be made in a few minutes.

3. Bread made by this process is much more nutritious than that made by other processes in such short time.

4. Bread made by this process is much more nutritious, lighter and whiter, and lighter, than when made with yeast.

5. Bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound, because the carbonic acid evolved in the fermenting process, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce a feeling of acidity in the stomach.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal depot, 129 Water street, New York. Sold by the trade, grocers and druggists generally.
