THE CITY POST.

WEDNESDAY MORNING ..... JULY 20.

Dissolution of Partnership.

THE partnership heretofore existing between LUCKY HARPER and TERMAN PHILLIPS, doing business under the firm of HARPER & PHILLIPS, was this day dissolved by mutual consent. All persons indebted to the firm for subscriptions to the Daily or Weekly Post, advertising and job printing, will please make payment as soon as possible, and those having claims against the concern will present them for settlement. The books of the late firm will remain in the office. LUCKY HARPER,
THOS. PHILLIPS.

Pittsburgh, July 11, 1853.—jy16:3tdaw

A RICH AFFAIR.—Two young ladies residing in Allegheny City, in the Second Ward, we believe, yesterday settled a little difficulty which had sprung up between them, by a resort to hair pulling, scratching, dress tearing, &c. One of the ladies—so the story runs—fancied herself secure in the affections of a nice young man, when the other stepped in, and either by the force of superior charms, or by the frailty of the male biped, succeeded in bringing him to her feet. Miss A. could not stand it: it was too much for flesh and blood to bear. Yesterday the two ladies met, and Miss A. commenced an attack on Miss B., and such was the bitterness existing between the two, that not one word was spoken, and that's strange too, considering they were women. But at it they went. First, the bonnets were torn off; then shawls and handkerchiefs followed; the dresses came next, and then—but no matter what; but in a few minutes, the two young ladies were standing within a ring which had been formed, perfectly denuded of their clothing, with the exception of shoes and stockings. But such was the bitterness of feeling existing, that the fight would have continued, had not a relative of one of the combatants succeeded in dragging and pushing the ladies into a house where they were pacified. Both the young ladies are very respectable, and this sudden ebullition of their pugilistic propensities has surprised every one. The young man is lucky, the way we look at it, and the girls foolish.

ANOTHER SERIOUS CASE.—An affray took place yesterday afternoon, between four and five o'clock, at a drinking house near the corner of Second and Grant streets, called the Miners' Arms, kept by Wm. Hammer. Hammer and a man named Reese Morgan, got into an excited argument about some matter. Hammer, who is a one armed man, hit Morgan, with the iron attached to the stump of his arm, a severe blow; the latter attempted to run away, but was pursued by Hammer, and stabbed in the back with a butcher knife, which Hammer picked up as he started to pursue Morgan.

The knife inflicted a very severe wound. It entered between the eighth and ninth ribs, and penetrated about three and a half inches, with an inclination upwards.—Morgan, after he was stabbed, ran across the street with the knife in the wound, before he fell. He was conveyed to the office of Dr. Thomas, on Grant street, and his wounds dressed by Drs. Thomas and Rogers. It is feared that the lungs of the wounded man were cut by the knife.

Hammer, immediately after the occurrence, ran away. He was arrested on the wharf, however, shortly after, by officer Bougher, and taken to the watch house. He will have a hearing this morning.

Morgan is a single man. He is a collier by trade.

THE CATHEDRAL.—About sixty feet of the brick work of the main spire of this edifice has been completed. On top of this, frame work, one hundred and fifteen feet high, will be erected—this will make the spire one hundred and seventy-five feet high from the roof.

Messrs. Woodward, Blakely & Co., of Liverpool, Ohio, have furnished the dressings of the windows. They are made of terra cota. The dressing is made in small pieces, but admirably arranged for joining together. It is said to stand the wear of the climate better than stone ordinarily used for such purposes—and besides, is cheaper and better looking. Woodward, Blakely & Co. have also contracted to supply the door sills, cornices, window dressings, &c., necessary.

A bell will be placed in the spire, now being erected, which will weigh 2000 pounds.

QUIT A FUEL FOR LOCOMOTIVES.—The experiments with coke as a fuel for the passenger engines of the Baltimore and Ohio railroad continue highly successful. The Miners' Journal says that a few nights since the train for Baltimore was run through from Cumberland with no other fuel, and notwithstanding detentions by burden trains, amounting in the aggregate to nearly an hour, yet the time required by the schedule was easily made. There was not only an abundance of steam; but almost more than the engineer could manage. Cannot Coke be used on locomotives about Pittsburgh.

THE WHARF AND THE RIVER present about as melancholy a sight at present as we need care to look at. Not a particle of business is doing; and the ugly bars in front of the city, have made themselves but too conspicuous. The sun, which renders the wharf such an unpleasant place in summer has performed a herculean labor in banishing well known loafers form that portion of the city—but this has only added to the loneliness of the street.

LARCENY.—Noah Ross, a lad arrested about a month ago, and placed in the tombs, from whence he escaped, was rearrested yesterday, and taken before the Mayor. The lad was charged when arrested by Alfred Strasb, with entering his milk cellar, and taking from the till about one dollar in cents. Mayor Riddle committed the boy for trial, on a charge of larceny.

ASSAULTING A WATCHMAN.—Yesterday four young men Andrew Hall, Robert McKnight, Hugh Sellis, and James Mackerel, were arrested and taken before Mayor Riddle, charged with raising a disturbance, and striking watchman Matthews, on Sunday night last. Mackerel, after a hearing, was fined twenty dollars—the others were discharged.

HANDSOME STORE.—D. C. Shacklett & Co., of Wood street near Fifth, have fitted up their store, both outside and inside, with great taste. An entire new front four stories high has been placed on the building. The windows are arched with iron castings, and the appearance presented by the house is very creditable to the enterprising firm.

THROWING WATER.—Mary Boughlygiter was yesterday arrested and held to bail by Alderman Major, charged on oath of William Dunlop, with assault and battery. The assault complained of, consisted in a rather unwelcome shower bath, which Dunlop received from a bucket of water in the hands of Mrs. Boughlygiter.

COMMITTED BY COURT.—George W. Gardner was yesterday committed to jail, on a process from Court, charged with assault and battery, and also with the non payment of costs.

John Taylor was also committed on a process. The charge against him is for keeping a tippling house.

ARRESTED.—Michael McCluskey, who was charged before Alderman McMaster, on Monday, with the commission of an assault and battery on George W. Browne, was yesterday arrested, and committed to jail, by Alderman McMaster, in default of bail.

BURGLARY.—The house of Mr. McIlhany, in Jackson's row, Allegheny City, was entered on Friday night last, and a watch belonging to Mr. McIlhany—and which he valued highly, was taken.

WATCH HOUSE.—The watch house, yesterday morning, contained eight persons—with one exception the whole number were committed to jail.

THE FRONT OF THE THEATRE is to be changed in appearance so are glad to learn. It is to have a square front in renaissance style, handsomely decorated.

FRANCE.—If there is any nation that we would rather see truly Christian more than another, it is France. None, where infidelity has so greatly abounded and still abounds. France, where so many men of intellect and talent have been born and educated. France who gave her influence and men to us in our revolutionary struggle, and where we believe true religion shall yet prevail.

These thoughts are suggested by the fact, that Rev. Thomas Carter, who was listened to last Sabbath, with a good deal of interest, by the congregations of the Smithfield and Liberty street Methodist Churches, is now soliciting subscriptions to build the first French Methodist Church in America. We say build, we should say complete, for the church has been already commenced. He preaches in the basement, (until the upper part is completed,) in the French language twice every Sabbath. A society and congregation and Sunday school have been raised up, and we do wish much success to the good work. We hope those who are able, will contribute towards the enterprise. jy20:1t*

☞ MR. SOLOMONS:—From infancy I have been afflicted with weak eyes and short sightedness, and in all my travels I have never been able to get a pair of GLASSES that would help me. I have had several pairs that would enable me to see more distinctly, but could never keep them on more than one-half hour, from the fact that they caused such great pain.

I happened to see your advertisement, by which I saw you had just imported some, and as it has been my constant aim to get a pair that would benefit me, I thought I would try yours.

You must not think me flattering, when say they more than answer my expectations. I have not been able to read by candle-light for more than half an hour at any time, before I got these Glasses. Since I got these, I read one Sunday all day, and until 10 o'clock, without experiencing the least pain, which is a thing I have not done before for years.

I say this much, as I think it deserving your enterprise, and hoping others may be benefitted by it.

You can use my name of any time, for reference. I am, sir, truly, yours,
HENRY EARL, Wharf Master, Pittsburgh.

P. S.—I forgot to mention that my wife is greatly benefitted by the pair she got, and equally pleased. jy1

$3000. I have received an order from the West for Three Thousand Dollars worth of LAND WARRANTS. Persons having any to dispose of, will please give me a call. The highest market price in payments will be paid.

TELEGRAPHIC.

By the O'Reilly Lines for the "Morning Post."

FOUR DAYS LATER FROM EUROPE.

ARRIVAL OF THE FRANKLIN.

NEW YORK, July 19.

The Franklin arrived this morning with Liverpool dates to the 6th.

The sales of cotton for the last three days were 25,000 bales, of which 5000 were on speculation, and 500 for export. Trade at Manchester is unchanged. Flour has considerably advanced. Western Canal 28s 6d@32; Baltimore 28s. 3d. The imports of breadstuffs were large.

Provisions in moderate demand from the trade and for export. Lard has improved 1s@2s cwt.

The Canada arrived at Liverpool on Sunday morning at 6 o'clock.

Vandenhoff's North Star arrived at Havre the day the Franklin called.

The Franklin brings 88 passengers, among them Wm. H. Babbitt, bearer of dispatches.

A dispatch from Vienna, to the London Times, dated July 6th says: the Russians have crossed the Pruth at two points. On occupation of Wallachia and Moldavia. A dispatch from Paris, dated the 5th, states that there has been a considerable rise in the funds in consequence of a rumor that England would not let her fleet enter the Dardanelles.

The Shakespeare arrived from Australia, after a protracted passage.

A cabinet council was held at London on the 21.

It is reported that the English and French fleets were to come to the Dardanelles, and that they would there receive the news of the Russians. Notwithstanding this warlike appearance, however, hopes are still entertained that peace will be preserved, as negotiations would probably be continued, even after the occupation of the principal cities.

A report was prevalent in London on the 22, that the Russians had entered Jassy, which caused a panic on the stock exchange. The rumor was denied on the 4th, by the Austrian minister, but was still believed, owing to the fact that the Paris Moniteur had announced the receipt of an official dispatch from St. Petersburg, decreeing the occupation of the Danubian provinces.

Count Guesine was to leave Vienna on a special mission to St. Petersburg, touching the Turkish question.

The Prince of Servia has offered to place 45,000 men at the disposal of the Sultan.

Forty-four vessels are being armed at the arsenal and the militia of Constantinople are called out. It was stated that the occupation of Moldavia by Russia had caused Austria to unite cordially with England and France. Prussia remains neutral.

The Emperor of Russia issued a manifesto on the 20th of June denying any wishes for war, and throwing the whole blame of the conflict, if one comes, upon the shoulders of the Ottoman powers.

There is no intelligence of importance from England. The weather was fine across the channel.

The Queen was to be present at a grand naval review to be held at Spithead on the 19th.

The return of the quarter's revenue was upwards of £1,000,000.

LONDON, July 5.—In consequence of the Turkish question, Wheat of all kinds was 4@6s higher. Tallow had advanced to 62s. Trade at Manchester and Birmingham had improved. In the Woollen districts trade was steady. Irish Linens had advanced.

MONEY MARKET.—Consols closed at 88¼.

Wright & Gaudy say that in the grain market there has been much excitement, and prices have advanced. The prices of articles had again advanced on the quotations per the Arabia. Wheat continues active at 7s 9d@8s 3d for white and 7s 3d@7s 6d for red. Flour is largely dealt in at 28s 6d for Western, and 29s@32s for choice brands Baltimore and Philadelphia. Corn is more saleable at 31s for mixed, and 32s@34s 6d for white. The inferior and damaged qualities are heavy. Maxwell quotes Flour at 28 6d dearer, over the prices of Tuesday last week. Wheat 3s 4d for white, and 6s 6d for red. Corn 2s.

McEleny's Circular says that Lard is steady at its advance and upwards. In Beef and Pork there was considerable sale. Bacon is held at 1-2 higher. The market is bare of Shoulders at Liverpool, and the market for Wheat is 3@4d higher for white, and 6d@9d higher for red. Rye 70 lbs. Cotton is unchanged, and no quotations are given.

FROM MEXICO.

NEW ORLEANS, July 19.

The New Orleans papers of Tuesday are received by the steamship Texas, with Mexican dates to the 4th and Vera Cruz to the 8th.

The cholera continues to rage at Vera Cruz, and is on the increase. The black vomit is also terrible—so much so as to have frightened the inhabitants who are unable to remove more than ten out of one hundred patients. The cholera is also very severe at Jalapa.

A decree regulating the organization of a council government comprising twenty-one persons, has been published, and also one regulating the interior of the national palace. Santa Anna has taken up his residence at Tacubaya, and has established a telegraphic communication with the capital.

Don Pascal is spoken of for the place of Dictator instead, in consideration of his services at the battle of Buena Vista.

The government has declared the defence of Lotipingo, by Col. Anastacio Lemecoco against the Americans on the 25th of August, 1847, heroic.

A new oath has been established, which all employees are required to take, one clause of which is, to sustain the integrity of the Territory.

The Mexican papers are filled with news of filibustering expeditions from California into the State of Sonora, and they manifest considerable anxiety in regard to a difficulty between Sonora and the Indians.

The Union says: if war is eminent in Europe, we think it may be conducted by as neutral a power as Mexico, between the United States and Mexico. The violent language of the official journal at Washington bodes nothing good.

The American steamer Santa Anna was running in the lakes of Mexico.

The Washington Star says that the President is quite unwell, on account of fatigue.

LATEST FROM EUROPE.

ARRIVAL OF THE EUROPA.

NEW YORK, July 19.

The Europa arrived at Halifax this afternoon, with Liverpool dates to the 8th.

The Arctic arrived at Liverpool, at noon, on the 6th.

The sales of Cotton for the week, were 56,000 bales. Orleans fair, 6¾; middling, 6¼; Upland fair, 6¾; middling 6; demand active; no change in prices. The sales to speculators were 7,000 bales, and for export 12,000.

The quotations of Flour and Corn show no change.

The train from Dayton on the Cincinnati and Dayton Railroad ran over a cow which suddenly jumped on the track. A passenger and one passenger boy were thrown over an embankment, but although crushed, no person was seriously hurt.

A tot occurred last night at an Irish doggery on Water street in which four men were badly stabbed; one man cannot recover.

WASHINGTON CITY, July 19.

The action of Mr. Marshall in Chinese affairs displeases and embarrasses the administration much more seriously than is generally understood.

Mr. Walker was to leave on the 15th September, but the Princeton has not arrived so as to allow the Secretary of Government, at the present moment, has but one vessel at command for the purpose of conveying Mr. Walker to China, the Saratoga, which is now at Vera Cruz, and will not be ready much before December.

It is now thought that the Fishery question will not be disposed of before the next session of Congress. A new cabinet is said to have come in, to delay the negotiation.

NEW YORK, July 19.

The steamer Cherokee from Havana, arrived here this morning.

The U. S. ship Albany arrived at Havana, on the 13th, all well.

A correspondent says that the reported alliance between Mexico and Spain, is fully credited at Havana.

The weather was fine on the Island.

CINCINNATI, July 19.

The River has fallen two inches. Weather cloudy. Flour unsettled by the Franklin's news; nothing done to Bulk Pork. Sales of 200 barrels at 7½@7¾. Whiskey. Sales held at 10 for prime. Bulk Sides 6, packed. Groceries.—Nothing now.

BALTIMORE, July 19.

It is reported that the Hon. William Fell Giles has been appointed Judge of the District Court, vice Judge Glenn, deceased.

CINCINNATI, July 19.

Findlay has delivered himself into custody, and will have a new trial.

TELEGRAPH MARKETS.

PHILADELPHIA, July 19.

Breadstuffs.—The foreign news was favorable to both the market was somewhat unsettled. There was more inquiry for flour and grain for export. Fresh ground held at $5.50; sales 500 bbls old stock, Western extra at $5.37½@5.50; sales 200 bbls old stock, Western extra at $5.37½@5.50; sales 200 bbls old stock, Western extra at $5.75. The receipts are very small; the stock reduced and partly withdrawn from the market. Rye flour can now be had at $3.75. There are sales of Corn Meal at $3.25@3.31½ for Brandywine and Pennsylvania. Grain in good demand, and prices advanced; sales 4200 bush new Southern white, part at $1.22½, and part prior; prime to be fixed now at $1.12½@1.15. Corn in demand, sales 2000 by South-ern yellow at 68, a further advance of 2 cents.

PHILADELPHIA, July 19.

CATTLE MARKET.—The offering of Beeves for the week were 1400, selling at $8@10 ⅌ 100 lbs. Cows—100 offered at $30@45 for 'dry, and $40@45 for fresh. Sheep, $2@4.50. Lambs, $1.50@3.

NOTICE.

☞ MR. SOLOMONS' stay in Pittsburgh now being limited to a few days, and as he will not visit the country for many years, immediate application is absolutely necessary.

NEW DISCOVERY FOR THE EYES!

SPECTACLES of the ground pebble, giving the perfect Optical Accuracy, by Dr. SOLOMONS, the celebrated Optician, from the Imperial Spectacle Manufactory and London Establishment, No. 152 Fulton st., N. Y. 105 Old Bond street, London—established more than a century ago.

G. SOLOMONS, the sole inventor of the Improved Spectacles, and various improvements in Optics, is now on a professional visit to this place, and may be consulted at his office, Lafayette Buildings, corner of Wood and Fourth streets, from 9 o'clock, A. M. to 5 P. M.

He has had the honor of attending the above named principal families of this city and vicinity, who have his unqualified recommendation, and having been earnestly solicited to make a visit for a short time, he has consented to accompany his arrival from London, with a most splendid assortment of his newly-invented and improved spectacles. Such is the superiority of these Glasses, that persons who have worn Spectacles for years, have found no difficulty in suiting themselves, and they possess the property of preserving the precious organ of sight to the most advanced period of life, when the sight is generally failing, and enable the aged to pursue the most minute employment for any length of time, both by day and by candle light. As several individuals in the United States have tried their efficacy, he, with confidence, solicits the further favors of the public, which he will ever be proud to acknowledge, assuring those who entrust him with their commands that no exertion shall be wanting on his part to merit their confidence and approbation. Added to the above advantages are those of a long practice in the Eye Infirmaries, and under one of the most eminent Oculists, by which he is enabled to suit persons of the most defective vision, he has in his possession documents from individuals of rank, conveying the highest testimonials of approbation.

He will give references to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

New Discovery for Deafness.

The *Sound Concentrator* is an extraordinary, powerful, but by-no-means small instrument, for the cure of the worst cases of Deafness, entirely different in make or construction from all others, surpassing everything of the kind that has been or probably can be invented. It is so small as to be modeled to the cavity of the ear, and may rest within without projecting, and yet is of the same power as the bulky ones. The powers of this valuable invention are so great as to restore defective hearing of long standing to its perfect state, and to enable deaf persons to join in general conversation, to hear most distinctly at a place of worship, at the bar, or at any public assembly; the expensive remedies of tingling polvolic machines are thus removed, and the concentrations afforded to individuals afflicted with this dreadful malady all the assistance that can possibly be desired.

I am happy in bearing my feeble testimony in favor of Mr. Solomon's Eye Glasses. I think them superior to any I have ever tried. The eyes seem to rest pleasantly under their use.
G. McCOOK, M. D.,
Late Professor of Surgery in Washington University, Baltimore, Md.

Pittsburgh, June 8, 1853.

I am using a pair of Dr. Solomon's Glasses, and find them very comfortable. I cheerfully add my name to the number of those who recommended me. JOS. P. GAZZAM, M. D.

Pittsburgh, June 9, 1853.

From what I have observed in the use of Mr. Solomon's Glasses, I take pleasure in adding my testimony to the foregoing recommendation of the Faculty.
JAMES KING, M. D.

Pittsburgh, June, 8, 1853.

Cleveland, Oct. 27, 1851.

It affords me pleasure to state that on the trial of several specimens of Spectacles placed in my hands by Mr. Solomon, I find myself much relieved from a defect of vision, and especially weakness in the eyes, from which I have suffered for the last two years, whenever I have exercised them even for a short period of time; I think they are of an excellent quality, and peculiarly adapted for such purposes.
J. P. KINNEY, M. D.,
Professor of Physical Diagnosis, and Theory and Practice of Medicine, Medical Department, W. R. College.

JAMES Weaver, M. D.,
Professor of Anatomy, University of Buffalo.

New York, June 1, 1850.

The best recommendation I can give the Glasses of Mr. Solomon is, that I use them myself and prefer them.
JAMES Webster, M. D.,
Professor of Anatomy, University of Buffalo.

Having made trial of Mr. Solomon's Patent Spectacles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any with which I am acquainted, and accordingly can most cheerfully recommend them to all who need artificial aid in improving their vision. Chas. A. Lee, M. D.,
Professor of Pathology and Materia Medica, Geneva,
Buffalo, and Rowdoin College.

Philadelphia, June 4, 1850.

I cordially concur, as far as my judgment goes, in the opinion of my friend and colleague, Dr. Lee, in reference to the perfection of Dr. Solomon's convex and oval Glasses, for far-sightedness. The grinding appears to be good and clear, and the general workmanship superior.
Jas. Bryan, M. D.,
jel0:2m:M&F Professor of Surgery, Geneva College.

BEANS—6 bbls., for sale by
HENRY H. COLLINS.
jy8

EUROPEAN AGENCY.

THE OLDEST ESTABLISHED OFFICE IN THIS CITY FOR REMITTING

MONEY TO THE OLD COUNTRY.

JAMES BLAKELY begs leave to say to those persons having friends in the Old Country, and desirous of either sending them money or prepaid passages, that his arrangements for doing either is now complete, and on so firm a basis that mistakes can not occur, nor losses accrue to any party. During the last ten years in which he has been in this business, he has remitted over a Half Million of Dollars without the loss of a dollar, and the house for which he is agent, in Liverpool, has shipped not less than 49,000 persons during the last year to this country, without a complaint of neglect of duty on their part.

He can name Passenger Tickets for London, Dublin, Liverpool, Glasgow, Cork, Belfast, Drogheda, Limerick, Port Rush, Newry, Galway, Londonderry, and Dundalk, to New York, Philadelphia, Boston, Baltimore and New Orleans, and from thence to Pittsburgh; and will attend strictly to forwarding passengers from thence to any part of the country.

He also has eight drafts for sale, payable at the following places, viz:

ON ENGLAND.

Edwards, Sandford & Co. ..... London.
Wm. Tapscott & Co. ..... Liverpool.
(Available in the principal cities and towns throughout England and Wales.)

ON IRELAND.

Provincial Bank Ireland ..... Dublin.
