IMPORTANT TO HOUSEKEEPERS!

Something Extra and new, Economical Into Such Cream Tartar, or any other Preparation in existence for Baking.

DURKEE'S CHEMICAL YEAST, OR BAKING POWDER—Not rising bread, Biscuit, Griddle and Johnny Cake, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c. This article is one that every FAMILY, HOTEL, BOARDING HOUSE,
Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the very thing needed every single day of their existence.

It is most important advantages over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the thousand and one expenses of procuring good yeast, every only being necessary.

2. No time is required for the dough to rise before baking or unpleasantly, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted to suit.

Be sure to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 123 Water street, New York. Sold by the the cent express and druggists generally.
