THE CITY POST.

TUESDAY MORNING: AUGUST 9.

THE NATIONAL ASSOCIATION FOR THE ADVANCEMENT OF EDUCATION.—This body will convene this morning, at 10 o'clock, at the Cumberland Presbyterian Church, on Sixth street.

Pennsylvania State Teachers' Association.

THIRD DAY.

The Association was opened with prayer, by Rev. Mr. Bryan.

The chairman of the Executive Committee, presented the order of business, as arranged by the committee.

Mr. and Mrs. Jones, of Philadelphia, and Rev. John B. Dowlez, of Allegheny city, were elected honorary members of the Association.

Mr. Gow, of Washington, moved that a Committee of three be appointed to report at the next meeting of the Association in Lancaster, on the subject of Primary Schools. Adopted.

Mr. Piott, of Philadelphia, moved that a Committee of three be appointed to report at the Lancaster meeting, on the subject of the formation of District School Libraries. Adopted.

Mr. Osgood, of Pittsburgh, moved that a Committee of three be appointed, to report at the next meeting, on the subject of the examination of Teachers. Adopted.

Mr. Piotts addressed the Association on the importance of the proper examination of teachers. The motion was adopted.

Mr. Schneider, of Schuylkill county, moved that a Committee be appointed to prepare a report for presentation, on the subject of County Superintendents of Common Schools. Mr. S. addressed the Association in support of his motion.

Mr. Andrews, of Ohio, was called up by one of the members. He did not favor the appointment of Superintendents, for each county in the State, but thought the selection of a few men, with more general duties than the motion contemplated, say one for each of the twenty-six Congressional Districts, would have a better effect.

Mr. Wickersham, of Lancaster, Mr. Piotts, of Philadelphia, and other gentlemen followed. The motion of Mr. Schneider, of Schuylkill, was finally adopted.

Mr. Pipes, of Philadelphia, moved that the whole matter of the superintendency of Common Schools, be referred to the same committee. Adopted.

Prof. Haldeman offered the following resolution.

Resolved, That it is expedient to have a complete collection of school, academical and collegiate works—one in the office of the Superintendent of Common Schools in Harrisburg, one at Philadelphia, and one at Pittsburgh, for the purpose of enabling those interested in education to make a judicious selection of text books.

The resolution was adopted.

Mr. Avery, of Pittsburgh, moved that a Committee be appointed, to prepare a report for consideration at Harrisburg, on the subject of school discipline. Adopted.

Prof. Thompson moved that the subject of primary education be taken up for discussion. Carried. Prof. T. proceeded to make remarks on the subject. He was followed by Rev. Mr. Bryan. Other gentlemen followed, when at the request of the Chairman,

Bishop Potter, who was present addressed the Association on the subject.

"In reply to the invitation, I take the stand, ladies and gentlemen, not because I have anything to offer worthy your consideration, but because I think I shall make my remarks appropriate. There can be but one opinion in respect to primary education: and that is, of all the stages it is the most important. The most important because it is the basis, the very beginning of all other instruction and education. It is the most comprehensive. It extends its influence over the learner through life. It forms the important traits of character that are to distinguish the man through his whole life. It is the most important, because it is the clue to a greater portion of the youth who can never have the privilege of a higher education. The impulse that is given to the child to impile it, to give it taste, to give it habits and character, is given in a great measure by the primary teacher. The stage of primary instruction, how important! Then it is that the heart, the human mind, is impressed indelibly with that which is for the weal or woe of the learner. If the teaching be bad, what a bad impression is made by those who are bad. He should be a moral teacher, an intellectual teacher, a model teacher. It seems to me that the teacher of the primary school should have a heart, he should have a soul; he should be one who can see in the dirtiest, most ragged, most debased, the shrine, the image of a God, and that can recognize the beginning, the root of a magnificent temple—a superstructure that has a living, immortal spirit.

"In the first religion, the rise one-rom, is that he should have a heart, large enough to take in the responsibilities of his important trusts; one that can love to learn and love learning, because it is not only good for himself but good for those little ones who look to him as the fountain of knowledge, as we look to a God for the source of wisdom.

"When a boy gets to be about 13 years of age he begins to exercise his own prerogative as an American, he begins to think for himself. Not so with the child in the primary school; he looks to the teacher as the embodiment of good and perfection.

"I say, gentlemen, in reference to primary instruction as Franklin said about money—"take care of the cents and the dollars will take care of themselves." Take care of the primary schools and the higher schools will take care of themselves. What should a boy or girl be when sent from the primary school? They should have active minds, contented consciences. Let me say to the teacher, in order to send out children that are noble, that are excellent, that are worthy, that are intelligent, you must be alive and not dead.

"A teacher will be like a torpedo or a magnet; he will repel everything that comes within his sphere, he will attract, vivify all around him. A teacher should be a MAN, a VIRGIN MAN! Let the teacher, teach, either from the block, from the bench, or from lecturer, he must be alive, he must be awake to his subject. He must be constantly engaged for the interest of those under his charge. It is better for him than he had time to attend to. He knew now more than he knew what to do with." (Laughter.) I will venture to say, gentlemen, that no man, Joseph Henry, himself, the first philosopher of America; Faraday, the greatest philosopher of England, and Arago, the first philosopher of France, and the noblest man of Science, can know as much, even in his own business, as to be afraid to give his attention to study.

"Friends, if you wish to be teachers, worthy of the education; elevate your school as learners, that you may act for the best interests and welfare of those little students entrusted to your care." (Much applause.)

After Bishop Potter had concluded, Mr. John Kelly, of Allegheny city, addressed the Association on the same subject. Dr. Lord, Superintendent of the Common Schools, in Columbus, Ohio, in an able manner next addressed the Association. He was followed by Prof. Greenleaf, of Brooklyn, New York. This gentleman, in a quaint and humorous manner, advocated the plan of paying greater attention to weak primary departments than is now done. Mr. Zachios, of Dayton, Ohio, Rev. A. D. Campbell, of Manchester, and Messrs. Smith, of Birmingham, Piotts, of Philadelphia, Barlow's, of Lancaster, and other gentlemen addressed the Association on the same subject.

The Chairman announced the following Committees on the topics proposed by the Executive Committee:

The Primary School, the Teacher and the mode of instruction.—Messrs. Gow, Wickersham and Ingram.

District School Libraries.—Messrs. Piotts, Cregan and Hazzard.

Examination of Teachers.—Messrs. Osgood, Gregory and Gamble.

On County and State Superintendents.—Messrs. Schneider, Piper and Dickson.

School Discipline.—Messrs. Avery, Eaton and Thickstein.

Mr. Cregar, of Philadelphia, offered a series of resolutions returning the thanks of the Association to the Railroad Companies for their liberal reduction in fare, to the press for the courtesy extended to the Association; to the School Directors of the Twin Ward, for the use of the Lecture room, and the citizens generally for the hospitality extended to the delegates. The resolutions were unanimously adopted.

A resolution was introduced, and passed, to the effect that the Executive Committee be authorized to have printed, in whatever manner they should deem proper, the proceedings of the present Session, together with the Minutes of the last Session of the Association.

The hour of adjournment having arrived, after Bishop Potter had addressed the Throne of Grace, the Association was declared by the President, adjourned, until its next meeting in Lancaster.

ENGINEERS ON THE CONNELLSVILLE RAILROAD.—The fifth Engineer Corps on this Road leaves town for Connellsville, to-day, under the charge of J. Harvey Davis, Esq., Senior Assistant Engineer, H. J. Bellisell, Assistant Engineer, Geo. C. Mayo, Assistant Engineer. The fourth Corps left town last week, for West Newton, under the charge of Sidney Morgan, Esq., Senior Assistant Engineer, James Morris, Assistant Engineer, and A. W. Pentland, Assistant Engineer.

We learn from the *Chronicle* the Corps between Pittsburgh and West Newton have nearly reached West Newton, with their experimental line, shortening the distance considerably. The Corps under Mr. Blackstone on the Eastern slope of the Allegheny Mountain have progressed from the Summit about ten mile stowards Cumberland, and are getting a line on a grade of fifty feet per mile. The party on the Western slope of the Mountain, are some distance down the Casselman River, with a favorable line descending with the same grade. The party at West Newton have made good progress up the Youghiogheny.

IMPORTANT ARRANGEMENT.—We are glad to learn from a paragraph in the *Gazette*, that definite arrangements have been concluded, between the Ohio and Pennsylvania, the Cleveland and Columbus, and the little Miami Railroad Companies, for the transportation of freight from Pittsburgh to Cincinnati. The freight cars are to run through between both cities, so that there will be no transhipment on the route. [The price of freight on heavy goods, such as iron, pork, whisky, cotton, etc., will be 40 cents per 100 pounds.—This a low figure, and must bring a large business on these roads during the continuance of low water.

RAILROAD CONNECTION WITH NEW CASTLE.—The idea is entertained by some of the officers of the Ohio and Pennsylvania Railroad Company, of building a branch of that road to New Castle, Pa. Such a branch will promote the interest of the Company and of Pittsburgh. As the Cleveland and Mahoning Company contemplate putting down the four feet eight and a half gauge, there will of necessity be a transhipment somewhere, and New Castle is thought, will be a good point for such transhipment. The length of the branch would be about twenty miles over easy grades.

COURT OF QUARTER SESSIONS.—Yesterday, in the case of Cummins vs. Smith, the Court granted a rule on Thomas Duff, Esq., to show cause why he should not answer for contempt, in disobeying a writ of special certiorari, served on the 9th of August.

POCKET PICKED.—A man named Murdoch had his pocket picked, on Sunday afternoon, while attending the ceremony of laying the corner stone of the Catholic Monastery, in Birmingham. The sum taken was $21.

CONDUCTOR.—Mr. John Waldensail has been appointed a Conductor on the passenger train of the Pennsylvania Railroad. Mr. W. is highly spoken of by those who enjoy the pleasure of his acquaintance.

RETURNED.—The Helgramite Club have returned from their annual fishing expedition.

THE CATHEDRAL.—Any one visiting this edifice, and examining with care the plans prepared by the architect, cannot but look with disrelish on any attempt made either through the press or more privately, to raise a doubt in the mind of the public as to the main spire on the Cathedral. The wooden pyramids which is now being placed upon the Cathedral is located upon brick work, resting upon four massive arched pillars. These pillars are arched together, and by this means the bulk of the wood work is rendered as solid as if it had been located upon a regular tower, built entire from the ground. Such care having been taken to secure a good foundation, the architect has not neglected to render the superstructure as fast, safe, and free from all danger of accident. The wood work is so joined together by iron bars, braces, and anchors, as to possess, if not the appearance, at least the safety of a solid body. It is joined to the brick work by massive beams and iron work, which seem to preclude the possibility of separation. Near the top of the brick work there are four iron anchors, running around the entire tower, and rendering it still firmer, from experiments made by the architect, in regard to the weight the arches were capable of bearing, it was clearly demonstrated that the brick work of the tower would bear four times as much as the pyramid will weigh, and bear it with safety. This pyramid, then, constitutes the entire finishing and safety of the plan selected by Mr. Baumgraten, the architect.

The pyramid of frame which is now building, will be one hundred feet high—surrounded by a knob five feet, and a cross eleven feet in height. The base appearance of the pyramid, will be relieved by four turrets, each fifty feet in height—rising from the summit of the brick work.

The view from the top of this spire, convey to a person in a vivid manner, an idea of the business and bustle pervading our city. At this elevation, one obtains a view of every part of the two cities, the adjacent towns, and the surrounding country. It is a picture of a grand and pleasing nature—grand on account of the noble scenery on every side of our city, and pleasing because it conveys an impressive idea of the prosperity and life pervading the country at the mouth of the Ohio.

AMUSEMENT.—Rockiter's magnificent paintings are attracting crowds of visitors. No one can spend their money to any better advantage than attending the exhibition. A refined and elevated taste has during all ages, been looked on as one of the most infallible proofs of the intelligence and cultivated mind of the individual possessing it. A desire, a longing after the beautiful, is the natural result of such a taste, and according to the peculiar bent of the individual mind, the fulfillment of this desire through the medium of the sense of seeing and hearing, is the continual desiderata.

Many find a perfect enjoyment in listening to the ravish ing sounds which issue from the throats of highly gifted vocalists; others, again whose desire for the beautiful cannot be fully satisfied by the transitory enjoyment of music, contemplate with the utmost rapture fine paintings. Go and see Rockiter's exhibition, we will warrant you perfect satisfaction.

THE RIVER is rising, and yesterday the revival of business on the wharf was quite cheering. A large amount of merchandise was lying there, waiting shipment. The rise has created considerable activity among steamboat men, who were beginning to grow weary of the long continued low water. There are between four and five feet in the channel, and the appearance of the weather leads us to believe that further rains are not improbable.

A rise in the Allegheny is also expected. At Clarion, on Friday morning, the Clarion river had risen four feet, and it was still raining. We may therefore look for the recent of a portion at least of the metal made on the Allegheny and its streams since spring. We also learn that the rain on Friday was much heavier on the mountains than here, and if so, this rise will be considerable.

SELLING LIQUOR ON SUNDAY.—On Sunday last, it was noticeable in the city that nearly all the restaurants were closed. Lamp posts and street corners were extensively patronized. The cause of this appeared yesterday;—Alderman Steel had before him, in the afternoon, five keepers of the most noted restaurants in the city, on the charge of selling liquor on Sunday. The following are their names: James Carey, Dallimbaugh street; Henry Vierling, of the Diamond; C. C. Rody, of Market street; Leopold Sahl, of Water street, and Matthias Meyers, of Market street. They were all fined, with the exception of Meyers. The fines amount to $50 each, exclusive of costs.

THE HARRIS COURT CASE.—Ann Campbell, the child arrested on a habeas corpus, at the instance of her father, was yesterday released from jail, where she had been placed on Saturday for safe keeping. Her father takes charge of her.

Officer Reed started for Hollidaysburg yesterday afternoon with the little girl. Her father resides in that place, and the officer will place the child in his care.

The mother of the child was before the Court yesterday for contempt of Court, in secreting her daughter from the officers. The charge was withdrawn, however, and Mrs. Campbell discharged.

CARS UNDER THE MARKET ORDINANCE.—Ald. Lewis, has issued a warrent for the arrest of a butcher, who in violation of an ordinance passed in regard to the new market house has rented a stall from a butcher and is now occupying it for the purpose aforesaid. We hope that no person rents a stall, shall have power to rent it again, unless by and with the permission of the market committee.

PAINFUL ACCIDENT.—Yesterday afternoon, a lad had his hand badly mangled, in one of the Minersville omnibuses, while the omnibus was at the corner of Smithfield and Fifth streets. The accident was caused by the hand of the lad being caught in one of the springs of the omnibus.

A THREE STORY BRICK DWELLING HOUSE, with garden, &c., will be sold on the premises, this morning, at 10 o'clock, near the Minersville turnpike, by James McKenna, Auctioneer.

WHIPPED HER WIFE.—A woman named Margaret Taylor made information before Ald. Steel, on Saturday, charging her husband with whipping her. The defendant was arrested and fully committed for trial the same day.

INFERNO TO HELL.—Mayor Park, of Allegheny City, yesterday committed a man named E. Bentley to jail, on a charge of assaulting a lady with intent to kill. The charge was laid by Mr. Hartman.

THE CORNER STONE of the new monastery, was laid in Birmingham, on Sunday in the presence of a large concourse of people. The Rev. Mr. Reynolds delivered the opening address, after which an address in German was delivered.

TEMPERANCE LECTURE.—Rev. A. M. Bryan, on Sunday, delivered a temperance lecture in the Second Ward Market House. He had a large and attentive auditory.

THE NEW WING to the Western Penitentiary is now nearly completed. The institution contains, at the present time, one hundred and eighty-seven prisoners.

THE NAME of the lad whose nose was cut off in a carpenter's shop, in the Fifth Ward, on Friday, is William Fox. His wound was dressed by Dr. Walters.

DISCHARGED.—A man named Hall, committed for costs was yesterday discharged, the claim having been settled.

FOR TRIAL.—Gardner, has been fully committed to jail, by Ald. Major, for trial, on a charge of larceny.

HEZEKIAH BOWMAN.—Having seen in the Pittsburgh Daily Morning Post a complaint against Mr. Wilson, of Allegheny, in opposition to the glasses sold by Mr. Solomons, in justice to Mr. S. I state that at various times I have procured three or four pairs of spectacles from Mr. Wilson, none of which have proved of the slightest benefit to me. I have also applied to other jewellers in Cincinnati, Louisville, and New Orleans, and have failed to procure such glasses as would enable me to read conveniently. Since I have obtained spectacles from Mr. Solomons, I now read with great facility and entire satisfaction.—JOHN D. DAVIS, Jr.

TO SUFFERERS

FROM THE EFFECTS OF SELF ABUSE.

IMPORTANT TO YOUNG MEN.—It is a fact, we would that others had done to me" when similarly circumstanced, I hereby *CAUTION* you against the specious promises of quack doctors, Venders of Patent Nostrums, and other expensive but worthless nostrums, catch-penny instruments, etc. Beware especially of those who by quaranting to cure in an unknowable short time, which at once stamps them as ignorant and unprincipled. Every sensible man must know that a sensitive organ of the body, which has been disordered by protracted abuse, CANNOT be restored in a week or two. The fact is, they never permanently cure anybody—therefore were no more time and money upon them, but, if so disposed, profit by my experience.

I will impart a knowledge of the means by which I was restored to health, after suffering for years from involuntary seminal emission and its concomitants, aggravated by various kinds of quackery, to any one who will write me a plain, but brief statement of his case, and remit Five Dollars to aid in paying for advertising, postage, etc., and time and trouble in writing out directions, which requires no interference with business, no injurious drugs or instruments, will certainly improve the general health and strengthen the system, as well as remove the complaint affected, and perfect a cure in the shortest time possible, and at very trifling expense. Address, in strict confidence,

W. H. STEDMAN, Camden, N. J.

P. S. and N. B. Parents, Guardians, Teachers, &c., are earnestly urged to guard the youth under their charge from the practice of the vice above referred to, which is so destructive to their mental, moral, social and physical powers. The only object of the advertiser is to warn his fellowmen from a error's path, and to do good to all men as he has opportunity.

Chickering's Pianos.

THE subscriber has just received from the celebrated manufactory of Jonas Chickering, Boston, the following Rosa Forte, which are now open for examination and sale, viz:

No. 12233—one elegant rosewood, round corners, finished back and front, 6½ octaves, price 275 00
No. 12234—one rosewood square, 6 octaves, price 275 00
" 12638 do do do do " 275 00
" 12685 do do do round front 6 " 275 00
" 12645 do walnut do 6 " 275 00
" 12592 do do round corners 6 " 250 00
" 12418 do do square 6 " 250 00

All the above are finished with the new iron frame and new scale, with Mr. Chickering's name cast on the frame, to prevent imitations and imposition. Purchasers are invited to examine the above elegant instruments, at the Music Store and Piano Warerooms of

JOHN H. MELLOR, Agent for Chickering's Pianos,
No. 81 Wood street, Pittsburgh.

COMMERCIAL POST.

DAILY REVIEW OF PITTSBURGH MARKET.

OFFICE OF THE DAILY MORNING POST,
Tuesday, August 9, 1853.

The market yesterday was very dull, and quiet, and but few sales worthy of notice transpired. The wharf presented a lively scene, and heavy shipments were being made of dry goods and the various articles of Pittsburgh manufacture. The river rose 1ft, 2in, good stage for the medium and smaller class boats, and a large number of them were busily engaged in receiving freights for different points in the west.

FLOUR—Owing to the small receipts, the market continues quite firm, with an improving tendency. The only sales reported to us were—35 bbls superfine at $4,56; 42 do. from store in lots, at $4,56@4,62½@4,75, including superfine and extra; 25 bbls extra, from first hands, at $4,62; and 100 bbls, from store, at $4,62 for superfine, and $4,75 for extra.

BACON—The market continues pretty firm at the fully quoted rates of last week. The sales were—238 pieces at 8@8¼ for shoulders, and 9@10 for hams, according to quality; 200 pieces sugar cured hams at 11c; 400 pieces at 6¼ for shoulder and 9¼ for hams; 500 lbs shoulders at 6½; 400 lbs hams at 9¾@10; 1800 lbs. at 6¼ for shoulders and 9¼ for hams; and 500 lbs. canvassed hams at 10½c ⅌ lb. Sides range from 7¼ to 7¾c. ⅌ lb.

WHISKY—Sales 28 bbls. rectified at 24@26c. ⅌ gall., 25c being the ruling figure.

BRICK—Sales 16,000 Bolivar fire brick (common) at $25 ⅌ 1000. Extra sell at $40.

SOAP—Sales of 25 boxes Rosin Soap at 4½c. ⅌ lb.

DRIED BEEF—Sales small lots by the piece at 9¼ for plain and 10¼ for canvassed—with pay for pieces.

BATTING—Sales 100 bales No. 1 at 12c. ⅌ lb.

GROCERIES—We notice a quiet market, with few sales of importance. Sales 75 bags Rio Coffee at 10¾; 40 do., in two lots, at 10¼; and 17 bags at 10½c. ⅌ lb. Sale of 16 bags Brazil Sugar at 6¼c; Orleans is selling in a regular way at 6@6¾c for fair qualities. Sale of 7 bags Pepper at 10¾c ⅌ lb.

SODA ASH—Sale of 9 casks imported at 2¾c, on time; and 25 do at 2¾c cash.

ROSIN—Sales 100 bbls at $4,67½ ⅌ bbl; cash.

WHEAT—Sales of nine wagon loads at the scales at $100@112 ⅌ ton.

PORT OF PITTSBURGH.
