IMPORTANT TO HOUSEKEEPERS!

DURKEE'S CHEMICAL YEAST, OR BAKING POWDER—For raising bread, biscuit, griddle and johnny cakes, puddings, pot-pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c. This article is one that every family will find a great convenience.

FAMILY HOTEL BOARDING HOUSE, Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, etc. will find it a great trial, to be the very thing needed every single day of their existence.

Its most important advantages over the old system, are:

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast; water only being necessary.

2. No time is required for the dough to rise before baking; consequently, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The leaven, which is formed in the system, that it does same manner of nourishment to the system, that the vegetable acid when made with this compound, destroys the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is never refused to sell.

Put up in tin boxes, containing one pound each, and retailed at 25 cents per box.

Be careful to ask for DURKEE'S BAKING POWDER, and take no other, which may be offered. Prepared and sold by the proprietor, WILLIAM NEWALL, 184 Water street, New York. Sold by the best grocers and druggists generally.
