MRS. PARTINGTON ON THE WAR.—"Is there any news from the Crimea?" said Mrs. Partington, dropping in upon us suddenly like a bombshell, on the arrival of the last steamer. She had like with her, who immediately seized upon a pair of scissors and began puncturing the top of the desk against which he was standing, at the same time kicking the table at which we were sitting. "Is there any news from the Crimea?" We told her that the news of the emperor's death was confirmed. "Ah!" said she, with a sigh, "war is indeed dreadful when it won't allow people to make their peace when they die. I declare it gives me a nashua at my stomach when I think that men should forget the kindnesses and meanesses of life (she meant amenities) to worry each other with minny rifles and dog's delight. It is them awful military engineers that does it—if they would have civil engineers there, now, in a little time the Black Sea of war would become a Pacific Ocean." She drummed nervously on a book before her—Lorring's One Hundred Boston Orators, herself more eloquent than them all—took a pinch of rappee out of Col. Rhonde's box, and became oblivious, while I'e was turning his attention towards a new inkstand in an attempt to understand its principle from actual experiment, as his hands bore upon each palm a map of the Black Sea.

TEST OF A GOOD PROTESTANT.—At a judicial investigation at Balaklava, a witness, a sailor, was asked what his religion was. His reply was,

"I'm blowed if I know."

"Are you a Catholic?" said the examiner.

"Oh, no," was the response, "I'm d—d sure I'm not that, for I hate the Pope like blazes, and I delights in steaks on a Friday." [Roars of laughter.] The judges declared he was a Protestant.

HOPPER'S PATENT PLANE
THE undersigned is prepared to supply CARPENTERS, CABINET-MAKERS, and Workers in Wood generally, with his Patented and valuable PLANES.
All who have tried it, pronounce it a most valuable invention, that may soon come into general use. The following letters from practical workmen are but two among many letters the Patentee has received recommending the Plane above all others in use:

PITTSBURGH STEAM CABINET FACTORY,
February 22, 1855.

We hereby certify, that during the last twelve months we have used Hopper's Patent Plane, and do not hesitate to recommend it to Cabinet-Makers and Carpenters generally as the very best Plane in use. We consider it peculiarly adapted to planing oak, cherry, walnut, and all sorts of hard wood, and for planing veneer, it is far superior to the old way of scraping, besides being a great saving of time. One man, by using this Plane, will plane more veneers than five men can do by any other plane or method in use.
H. H. RYAN & CO.

To MOSES F. EATON, Esq.:
Dear Sir—I have examined Hopper's Patent Bench Plane, and believe it to be a most excellent article for the use for which it is intended, as a combination of plane and scraper.
It is particularly adapted to planing veneers, and it does not require one-fourth the time or labor of the old method; and I have no doubt, when its properties become generally known, but that it will entirely supersede the former tedious and laborious cuss.
I most cheerfully recommend it to all persons engaged in the Cabinet business, as from my knowledge of it, there is nothing so well fitted to give a smooth and beautiful finish to veneers as the Hopper Patent Bench Plane.

ÆTNA INSURANCE COMPANY,
OF HARTFORD, CONN.
CHARTERED, 1819.
PAID UP:
Cash Capital.....$500,000
Cash Surplus, ON 1ST JANUARY, 1855.....$273,273
THIS Capital Stock and Surplus is securely invested for the benefit of all policy holders. As an evidence of the claims we have to public confidence, and of its ability to pay losses promptly, we need but to refer to the receipt of over $125,000 in $10,000 per month. Its business is large and well distributed, and in our opinion to Company in the United States offers more indemnity to policy holders than the Ætna. They continue to make insurance on property in town and country, at rates as low as consistent with safety to the policy holder.
