IMPORTANT TO HOUSEKEEPERS!

Something Better and more Economical than Soda, Cream Tartar and Baking Powder.

Preparation is assistance for Bakers.

DURKEE'S CHEMICAL YEAST, OR BAKING POWDER—For raising Bread, Biscuit, Griddle and Johnny Cake, Pot Pies, Pan Bread, Sweet Cakes, Apple Dumplings, Pastry, &c. This article is one that every FAMILY, HOTEL, BOARDING HOUSE,

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c. will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantages over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast, —rendering only baking necessary.

2. No time is required for the dough to *rise* before baking—consequently, bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce pepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted to suit.

Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 110 Water street, New York. Sold by the the best grocers and druggists generally.

THERE is no medicine so well adapted for all common diseases on plantations, as B. A. FAHNESTOCK'S VERMIFUGE. Read this testimony:—

From P. P. DUCONGE, Esq., New Orleans.

NEW ORLEANS, March 6, 1853.

Messrs. B. A. Fahnestock & Co.—Gentlemen: I am pleased to inform you that your Vermifuge continues to sell well in this city, and I find it gaining favor daily amongst our customers. Many of my customers, who were in the habit of using other medicines, are now *determined to use B. A. Fahnestock's Vermifuge only*, owing to its safety, as well as efficacy. In fact, I know of no Vermifuge sold in the city, which stands so high in the estimation of the public. Please send me fifty gross more of your VERMIFUGE, as I find my present stock getting very low.

Respectfully, E. P. DUCONGE.

PORTRAITS AND MEMOIRS OF EMINENT AMERICANS NOW LIVING—Portraits of Eminent Americans now living—with Biographical and Historical Memoirs of their Lives and Actions. By John Sanderson, of the Philadelphia Bar. In two volumes, 1853.

In a recent notice, the Commercial Advertiser says:

"The portraits are all engraved from daguerreotypes, in the finest style of the art, and are undoubtedly correct. We can speak with the utmost confidence of the fidelity of those persons with whose face we are familiar. This truly national work is creditable to the ability and enterprise of the Philadelphia publisher, and should be found in every private library in the country. His plan is to "correct or close confined," but embraces clergymen, lawyers, doctors, statesmen, financiers, merchants, manufacturers, and inventors in short, distinguished living representatives of every department of American society. To explain on the value of the work, it would be superfluous, as it must commend itself to universal favor. For sale by

BLACK STRAP! BLACK STRAP!

THE LAST MOMENT WITH SUCCESS—

WASHINGTON COUNTY, Pa., Nov., 1852.

A neighbor of mine had a child that was very sick, and the physician attending it exerted all his skill for its relief, but without avail. They sent to Canonsburg for Dr. L., who came over to our place, and upon an examination of the case, approved of all that the attending physician had done, but could do nothing more for it. The child was given up. Dr. L. then said that there could be no risk in trying Fahnestock's Vermifuge, and thought they had better get some. They sent to my store, and procured some. After administering the first bottle, according to the printed directions, the child passed a few worms. They then gave it about half of another bottle, when it passed between TWO AND THREE HUNDRED WORMS, and immediately commenced improving, and was completely restored to health.
