SATURDAY MORNING:.....DECEMBER 17.

RENTON IRON COMPANY.

We received a communication late last evening from Prof. Mapp, in regard to the Renton Iron Company, noticed in a communication in our paper of yesterday. It was handed us too late for publication to-day, but it will appear to-morrow.

AFFRAY AND PROBABLE MURDER.—An affray occurred on Thursday evening, on the Monongahela bridge, between two parties of young men, which resulted in a man named William H. Carson, being severely stabbed in the side. Immediately on the occurrence becoming known to the toll-keeper at this end of the bridge, word was sent to the Mayor's office, and officers Hague and Steinburg proceeded to South Pittsburgh and Birmingham, in search of the parties accused of the offence. The officers, after a diligent search, succeeded in arresting the following young men:—John Kleeg, arrested near Saw Mill Run, in his boarding house; Charles S. Hoxenbaugh, arrested in Birmingham; and Abram Cowen and a boy named Wright, arrested in South Pittsburgh. On all these lads were found weapons—on Kleeg was found a bloody knife; on Hoxenbaugh a large knife, and on the other two knucklers and slung shot. The four, all of whom are apparently under twenty-one years of age, were brought to the watch house, by Hague and Steinburg, and lodged in the tombs.

Carson, it appears, was stabbed in the left side; a deep wound was inflicted, injuring the intestines. The affray took place about the middle of the bridge, and as soon as he was cut, Carson fled and ran to his home beyond the bridge; he then ran to a Physician's, near his residence, woke him up and had his wound examined. From the Doctor's he was conveyed home.

On the examination of the case before the Mayor yesterday, the facts detailed were nearly as follows, viz: Carson stated that Kleeg, Hoxenbaugh, Cowen, and Wright, were in a house close by, on Prospect street, in the early part of the evening. They left the house, Kleeg drunk, and the others under the influence of liquor, about ten o'clock and proceeded homewards. On the bridge they overtook four men, Samuel and Joseph Robbins, Martin Myers, and Carson; Joseph Robbins and Carson were very drunk; Carson seemed disposed to pick a quarrel, and it is said, threw a piece of tobacco in Cowan's face; made use of insulting language towards him, and jumped over on the foot-path, evidently with the intention of striking him. Samuel Robbins seized Carson, and a parley ensued. Carson soon afterwards went up to Hoxenbaugh, and an altercation took place between them; Mr. Robbins again interfered, and placed himself between Hoxenbaugh and Carson; the former retreated and the latter pursued him, and was only prevented from striking by the efforts of Robbins.

Mr. Robbins states that he did not see Carson strike Hoxenbaugh—the latter cannot that he did strike him. At this time Mr. R. states he saw Hoxenbaugh strike an underhand blow at Carson, and the latter immediately cried, "enough—I'm cut;" he then saw the former close a knife, by pressing the blade against his hip. Carson, immediately on being stabbed, ran home, as narrated above. The others, after a few words, separated and went to bed, where they remained until arrested by Hague and Steinburg.

The evidence was conclusive thus far, and it appeared that neither Kleeg, Cowan, or Wright were concerned in the stabbing, and had it not been for Kleeg's prevaricating statements, he would have been merely considered a witness. A bloody knife was found on his person, and he stated that when in the house, on Pennsylvania Avenue, this knife was borrowed from him, and not returned; this was denied by several witnesses, who stated they saw Kleeg receive the knife. This circumstance, connected with other instilled Mayor Riddle in committing Kleeg with Hoxenbaugh, on a charge, assault and battery with intent to kill, Carson. It is thought by the physicians, cannot survive.

He was employed in the Stizo iron works, as an engineer. Kleeg, on and Wright were discharged, there being no evidence against them.

THE LECTURE THIS EVENING.—George W. Curtis, of New York city, author of the "Howadji in Syria," and other works of great literary merit, lectures this evening at Masonic Hall, on the subject of "*The Age of Steam.*" It is needless for us to say anything to those who have read the works of Mr. Curtis, to induce them to attend the lecture: they will certainly go; but to those who have not been so fortunate as to peruse the "Howadji," and the "Nutshell Papers," we would say that Mr. O. occupies a leading position among the literary men of the country—either by his reputation confined to America, but in Europe, England especially, his success has been great. The theme he has chosen for his lecture, affords abundant opportunity for the display of the wit and sarcasm which he possesses to so great an extent, and which characterizes his works.

Our citizens owe it to themselves to sustain the members of the Mercantile library in their efforts to procure the attendance of good lecturers in this city, during the season. The expense of procuring the services of Mr. Curtis is great, and the Library should not lose anything by their effort, but rather be the gainer, as the net receipts from this source are devoted to the enlargement of the sphere of usefulness of the institution.

SUPREME COURT.—The following opinions have been delivered in the Supreme Court, in cases from this district:

John Auld et al vs. Matilda Elliott committee. Judgment reversed; opinion by Mr. Justice Lewis. This is the celebrated "Temperanceville case;" in which the title of the present occupant of the ground in that village was contested. By the decision, the present occupants remain in possession.

James C. Maguire, Esq. vs. Thomas Rafferty; judgment affirmed; opinion by Mr. Justice Lewis.

J. R. Irwin administrator, trustee of J. D. and A. M. Mahon vs. Joseph Pennock's use; judgment affirmed; opinion by Mr. Justice Lewis.

H. S. Magraw, trustee of J. D. & A. Mahon vs. Joseph Pennock use; judgment affirmed; opinion by Mr. Justice Lewis.

Commonwealth of Pennsylvania vs. Allegheny Bridge Company. A motion was made to strike this case from the docket, at the last term—the Court have delivered an opinion refusing to do so.

CORONER'S INQUEST.—Coroner Lowry held an inquest yesterday evening, at the outer depot of the Pennsylvania railroad, on the body of a little girl named Margaret Connell, who died in the care of the emigrant train, a few miles west of Conemaugh, yesterday morning. The deceased was between ten and twelve years of age. She left Ireland for England, in company with her grandmother; during the voyage across the ocean, she suffered from sickness, and continued unwell until the time of her death. As her guardian was in indigent circumstances, Coroner Lowry had the body interred. The jury found that the child died from natural causes. The officers of the train done everything in their power to render the situation of the little sufferer comfortable.

DISTRICT COURT.—Before Hon. Moses Hampton, President Judge, and Hon. H. W. Williams, Assistant Judge.

Nancy J. Townsend, administrator of Reece C. Townsend vs. Allen; No. 16, January term, 1853. Craft for plaintiff, and Mannell for defendant.

Action on a bond. A verdict was returned for defendants.

David Irwin vs. Ezekiel Reese et al; execution docket, No. 219, November term, 1853. On motion of Wm. B. Negley, Esq., rule to show cause why the levy of real estate, and personal property should not be made under the above execution, and all subsequent proceedings should not be set aside at plaintiff's cost, on ground of inconsistency.

THE SMOKE NUISANCE.—The Common Council met last evening, to hear a communication read from Mr. Smith, in regard to the smoke nuisance. A letter, presented by this gentleman, to the Select Council, a few evenings since, was referred to the Water Committee. This action was concurred in by the Common Council, last evening.

Mr. Smith proposes to place one of his consumers on the Water Works, on terms we stated a few days since. He is made a few remarks to Councils last evening, by invitation. He stated that he had placed his consumers in the Cathedral, and they worked admirably—not a vestige of smoke could be seen.

RAILROAD ACCIDENT.—On Monday last, James Vanhorn, conductor on a wood train on the Pennsylvania railroad, was thrown from the car on which he was standing, and the train passing over him, cut off both his legs at the thigh. Mr. V. was badly injured that he died shortly afterwards. The accident occurred near Lockport, sixty-five miles east of this city. Mr. Vanhorn was a young man, and resided in Lockport. He leaves a wife and child.

ACCIDENT.—A lad named Balynn Sheesla, son of a gentleman of that name on Pennsylvania avenue, fell from a ladder on Thursday, and fractured his leg. Dr. Walters dressed the wound, and the patient is now doing well.

PRIMARY ELECTION.—The Whigs of Allegheny hold their primary meetings today. The contest for the Mayoralty, it is said, lies between Mayor Park, the present incumbent, and Harry Campbell, Esq.

UNITED STATES CIRCUIT COURT.—Before Honorable Thomas Irwin.

Another of the injunction cases against the city of Erie, was argued yesterday. No decision in any of the cases yet.

FULLY COMMITTED.—Alfred Hall, arrested on Wednesday evening, by Hague, charged with committing a robbery in the St. Clair Hotel, was fully committed by Mayor Biddle yesterday for trial.

NEW BRIDGE.—The books for subscription to the proposed bridge over the Allegheny river, at Sharpsburg, will be opened to-day, at the St. Charles Hotel.

A VALUABLE lot of Gold and Silver Watches and Jewelry, will be sold at McKenna's Auction House this evening, at 6 o'clock, by order of an Eastern Pawnbroker.

THEATRE.—Mr. and Mrs. Florence appear at the Theatre this evening.

MONASTICHEN BRIDGE left this city on Tuesday evening, in the cars for Cincinnati.

A CARD.—I beg leave to inform the citizens of Pittsburgh and Allegheny city and county, that I am the only authorized agent for the sale of Monk's Map of North America in this county, and will call upon the citizens as soon as practicable, and afford them an opportunity to examine the work and order the number of copies they may require.

I would also caution the public against purchasing the maps of any one who may be hawking them about, or offering them for sale out of hand, as the work is only legitimately sold by subscription, and there will be none ready for delivery for the next two or three months.

COMMERCIAL POST.

DAILY REVIEW OF PITTSBURGH MARKET.

OFFICE OF THE DAILY MORNING POST, Saturday, December 17, 1853.

The weather yesterday continued dull and cloudy, with some indication of rain, now much desired by our river men. In the market very little change has taken place, except in flour, which, under the influence of the Asia's advices, caused a depression, and buyers were shy.

PIG METAL—There is now enquiry in the market for metal, with sales reported of 500 tons, and 168 tons Mercer county, on terms withheld. We are also informed that Messrs. Jones, Kier & Co. will commence the manufacture of iron and nails about the first of January, at their new mill in Birmingham,—making another opening for the raw material.

GRAIN—Corn and Oats continue brisk demand, at steady prices. We note sales of 1100 bushels Oats at 40, 60 bushels Corn at 62. Rye in demand, with a sale of 75 bushels, first hands, at 75, and re-sold at 80.

BLOOMS—We notice a sale of 25 tons Juniata, to go out of market, at $82.50.

MOLASSES—There is very little doing in this article beyond the wants of the retail trade. We have a sale of 25 hhds reported at 24.

FLOUR—The market yesterday was depressed and unsettled, in consequence of the unfavorable tenor of the foreign news per steamer Asia. We have but few sales reported at $5.00@5.10; buyers were shy.

APPLES—Sales 25 bbls from store at $1.50.

BRICK—Further sales 3,500 Fairmount at $5.

HOGS—We have a sale of 500 head live reported at 4@4¼; 100 do dressed at 4@4½; 90 head do dressed, to a butcher, at 5.

WHISKY—Sales of 110 bbls, in lots, at 22@23.

STEAM—Sales 10 bbls at 5@5¼; 3 do new crop at 5½@5¾.

DRIED PEACHES—Sales of 300 bush from store at $1.55.

HAY—Sales of 39 tons at $19@21.

SALT—Sales 100 bbls extra at $2.12½.

BRAN—Sales 200 bushels at 75.

DRIED APPLES—We have a sale reported of 50 sacks at $1.25, from store.

OIL—Sales 10 bbls Linseed at 78, a decline.

CHEESE—Sales of 50 boxes at 9½@10.

Invalids of Pittsburgh and Vicinity,

THE attention is urgently invited to a careful and candid perusal of the advertisement that has for some time been introduced into your rocky, barren, yet time-honored State.

PULVERMACHER'S HYDRO-ELECTRIC VOLTAIC CHAINS!

A NEW and NOVEL mode of applying a powerful remedial agent, as recently discovered to be more under the elements, next to the skin, producing a constant, UNINTERRUPTED current of ELECTRO-MAGNETISM, effecting

Immediate Relief!

From the most acute pain, and also a permanent cure of all

NERVOUS DISEASES.

It seldom has failed to afford almost certain relief, and a FINAL, PERMANENT CURE, by being used according to directions, to the following diseases:

Rheumatism, Sciatica, Gout, Paralysis, Palpitation of the Heart, Painful and Swelled Joints, Pert-shed Headache, Neuralgia of the Face, St. Vitus' Dance, Diseases of the Spine, General Debility, Deafness and Blindness, Nervous Dyspepsia.

ALL DISEASES

That are caused by a deficient amount of NERVOUS FLUID, are greatly relieved, and in many instances cured by simply wearing the chains for a few hours each day.

He is fully satisfied that it cures all diseases, but only those for which it is recommended; and moreover, we publish on the plain and DIRECT evidence of facts, a KIND has performed SO MANY CURES during the last year, of these diseases, that it ended, as

PULVERMACHER'S ELECTRIC CHAINS.

And to prove this assertion, we defy any person to produce so many WELL AUTHENTICATED CERTIFICATES of Scientific Physicians and Intelligent patients as may be found in a pamphlet of thirty-six pages, to be had (gratis) of the agent in this town.

The electric Chains were first introduced in France in 1850, and after being subjected to the most

Thorough and Rigid Trial.

By the first medical men in Paris, they were found to possess strange and marvellous powers in relieving pain, wherever applied, and by their instrumentality, many were restored into the hospitals of that city, and also secured by letters patent by the French government.

They are now introduced in almost every Hospital in England, Germany, Austria, Belgium, and patented in these countries, and wherever introduced, they have proved the

MOST POPULAR CURATIVE AGENT IN THE WORLD.

They were first introduced into the United States about one year since, and wherever they have come, they came to stay. Europe, and were at once introduced into every Family, and are now in daily use, effecting even MORE WONDERFUL CURES than had ever before been awarded them.

They are highly recommended by Prof. Valentine Mott, Van Buren, Post and others, who have published their views of their power and value in several of the medical journals in this city, and are also in the daily practice of recommending their use to patients. A full summary of their opinion may also be found in every pamphlet, and sent to the address given, free of charge, by the agent (post paid) to C. C. SMITH & CO., who are agents for lower. The chains can be sent by mail, with full descriptions for use.

Price of Chains, $5 and $10.

Physicians are politely invited to call and examine their construction, and witnessed the effects of Pulvermacher's

One Word More to Invalids.

No person need fear that they will not accomplish just what it is claimed they can do, and all persons who have become disgusted with a constant pouring down of patent medicines (so called and still) are kindly and politely invited to give them a trial.

N. B.—One Chain will last for years and lose none of its electric power by use, and can be applied to either adult or child.

HOT CORN—A BOOK FOR ALL TIME—H. MINER & CO., No. 32 SMITHFIELD street, have the pleasure to announce to the public that they have received HOT CORN: Life Scenes in New York, Illustrated; with eight original designs, engraved by N. Orr, in a most splendid manner. The publishers of the "Hot Corn" think that they are now offering to the public a book that will sell to a greater extent than any other work ever published, except, perhaps, "Uncle Tom's Cabin," and the reason for such expectation is founded upon the expressions of almost all classes who have read the small portion, in comparison to what the book contains, of the "scenes" already published, under the title of "Hot Corn," "The Two Penny Marriage," "Madeline," "Wild Maggie," etc. No sale ever had such a run through the public papers as these Hot Corn stories.

Also—A large assortment of Gift Books, Juveniles, Bibles, and Prayer Books, bound in the most beautiful manner. H. MINER & CO.,
dec13 No. 32 Smithfield street.
