Insure for Life Insured,

IF NOT, read what someone has written. Among all the contrivances of man to protect the family circle from want, none can be found, more simple in its character, noble in its feature, or certain in its results, than LIFE INSURANCE. It is the prop which the dying husband leaves to support the wife of his bosom.

It is the unseen hand of the Provident father reaching forth from the grave, and still nourishing his offspring, and keeping together the family group.
