THE CITY POST.

FRIDAY MORNING..........................JANUARY 27.

ALLEGHENY WATER WORKS.—From the Report of the Water Committee for the year 1853, presented at the last meeting of the Councils of Allegheny City, we learn that the Water Works, under their present management, are in a flourishing and prosperous condition. We give below the statement of the receipts and expenditures for the year 1850, compared with those of last year:

	1850.	1853.
Revenue	$9,393 60	$22,193 45
Current Expenses	$4,451 06	$5,446 24

In 1850, there were only 13½ miles of pipe laid, while from the Report of the Superintendent we find there are over *eighteen miles* of pipe at present laid. During the past year, about one and a half miles were laid.

There are also 143 fire plugs and 212 stop cocks distributed throughout the city; of which amount, six fire plugs and eight stop cocks were added last year.

The total cost of the works, up to the first of January, 1854, is $345,569 50.

HORSE STEALING has become very much in vogue in and about this city of late. A man named William Mansfield, residing in Elizabeth township, borrowed a horse a few days since, from John A. Linden, of the same township. Mansfield came to this city, where he came across a vender of patent rights, and purchased the right of an agricultural machine, for this county, for three hundred dollars, and gave, in part payment, the horse. The facts were laid before the Mayor, and officer Reed succeeded on Wednesday evening, in arresting Mansfield, and securing the horse. Mansfield was committed to jail yesterday morning, in default of bail.

THE WESTERN THEOLOGICAL SEMINARY.—Since the burning of the building of this Institution, on last Monday night, the Board of Managers have held a meeting, and accepted the offer of the Trustees of the First Presbyterian Church, Allegheny city, granting them the privilege of the use of the Session and Sunday School Rooms of their church, for the purposes of the Institution until the new structure can be erected. The Students and Professors convened in their new rooms yesterday, and attended to the usual exercises; but little delay or inconvenience will be experienced by the students in the prosecution of their studies.

SENTENCED.—Judge M'Clure, yesterday, sentenced Dr. M'Dowall, charged with attempting to cut his wife's throat, to twelve months' imprisonment in the county jail.

Cyrus Jones, found guilty of assault and battery, yesterday, was sentenced to undergo an imprisonment of one month in the county jail.

William M'Adams, convicted at the present term of the Court, of bigamy, was sentenced to one year and three months imprisonment in the Penitentiary.

Noah Jackson, convicted of grand larceny, was sentenced to two years and six months imprisonment in the Penitentiary.

Peter Perchment, convicted of adultery has been sentenced to pay a fine of twenty-five *pounds*—to pay the costs of prosecution and undergo an imprisonment in the county jail, for three calendar months.

WHERE is the man who will pay five dollars for an article he can buy for one dollar, or even fifty cents less. We think there are very few who would do so knowingly. Therefore, as we desire our readers to be well *Post-ed* up as to their interests, we can cheerfully recommend all who would economise to patronise the BANNER HAT STORE, 147 Wood street, and they will be satisfied of our veracity.

LARCENY.—William Dean, who has occupied a prominent part in the history of Allegheny county police matters, for a year past, was committed to jail yesterday by Alderman Major, for the larceny of a suit of clothes from Ward, the Westmoreland county murderer. Dean was in jail with Ward.

ASSAULT AND BATTERY.—Mayor Adams, of Allegheny City, yesterday held Sarah Drennon to bail, for an assault and battery committed on Sarah Ball.

The prosecutrix in this case, and a man named Edward Henry, afterwards brought cross suits against each other, before Mayor Adams, for assault and battery.

COLLECTOR HASTINGS is now in his new quarters, in the Custom-house, on the corner of Fifth and Smithfield streets. The Collector, we are informed, appointed Mr. Joseph Cupples, of the Third Ward, and Mr. Hugh McAleer, of Ross township, watchmen for the Custom-house, at a salary to each of $350 00 per annum.

PRIZE BALL.—The members of the Washington Fire Company, of Allegheny City, are getting up a prize ball, to be given in Lafayette Hall on the 22d of February next; the Company offer a silver tipped "devil," to the Fire Company selling the most tickets.

A SELECT COTILLION PARTY comes off on Monday evening next, at the house of our friend David C. Jones, five miles from the city, on the Washington and Noblestown Road.

SILVER.—The Collector has received from the Mint $30,000 in new coin, which he will pay out in exchange for gold, at the rate of $6,000 per week.

IN THE DISTRICT COURT, the same case of Shadrich vs. Baird is still on trial.

SEVERAL very superior gold watches will be sold this evening, at Davis auction rooms.

—ALSO—

A NEW PATENT PEN,

Called the Treble Spring. These pens have been adopted by the Senate in Washington, in preference to all others.

The above pens, together with his superior unrivaled accommodation holders, can be seen at Mr. J. B. Steel's and Mr. B. M. Norman's, Camp street; Thomas L. White's Canal street; and E. & F. Ezekiel's, Exchange Place. ja9

"Costly thy habit as thy purse can buy,
But not expressed in fancy; rich, not gaudy—
For the apparel oft proclaims the man."

☞ Every well dressed man knows how difficult it is to find a Tailor who thoroughly understands the peculiarities of each figure, and can suit its requirements with a well cut, gentlemanly fitting garment. Hence it is that so few feel "at home" during the first day's wear of any new article of dress, and however costly, never become adapted to their forms. To remedy so manifest a deformity, E. GRIBBLE has practically studied both form and fashion, always adapting the garment, weather, coat, vest, or pantaloons, to the exigencies of its wearer—thoroughly attaining that elegance of fit which the spirit of the age dictates.

☞ **Liver Diseases.**—Carter's Spanish Mixture, as a remedy for liver disease, and the number of formidable evils connected with a disorganized state of that organ, is unrivalled.

Hundreds of certificates, from the highest sources, of persons now living in the city of Richmond, Va., might be given of cures effected by Carter's Spanish Mixture. We have only room to refer to the extraordinary cure of Samuel M. Drinker, Esq., of the firm of Drinker & Morris, Booksellers, Richmond, Va., who was cured by two bottles of Carter's Spanish Mixture, after three years suffering from diseased liver. He says its action on the blood is wonderful, better than all the medicine he had ever taken, and cheerfully recommends it to all.

NEWS FOR RIVER MEN.

PITTSBURGH, January 26, 12 M.
Seven feet eight inches water in the river, and falling slowly.

THE regular packet for to-day is the fine steamer *Pittsburgh*, Capt. Campbell, master. It leaves at 10 A. M. This is a favorite boat with Pittsburghers, and deservedly so.

This is the steamer that was entrusted with the 33 tons of silver, from Cincinnati to this city. It came all safe. We were mistaken in saying that the silver was all in coin. Two-thirds of it was in ingots. We wish we could have seen it and *got* one. One car load left last night by the express train; the balance leaves to-day and to-morrow.

The steamer *Herald*, having been detained, will leave at 10 this morning, for St. Louis.

The *U. S. Mail* will leave to-day for St. Louis.

We do not publish a list of coal boats reported lost. The reports need confirmation, and may injure owners.

The steamer *Herald*, John S. Dales, master, leaves this evening for St. Louis.

The new steamer *Ellinburg*, built at Brownsville for Capt. George W. Bowman, came down to this city yesterday. She came under the bridge this morning, and will soon be ready for operations. It is a 600 ton boat; and a strong and excellent steamer.

THE NUMBER OF COAL BOATS LOST, so far as heard from, is nearly eighty. Further and more reliable accounts may reduce the number somewhat, but it is apprehended they will increase the list of the loss in lives, as well as boats.

SEVERAL coal boatmen arrived by the *Pittsburgh*, from boats lost, not before heard from.

THE *Pittsburgh* arrived this morning, with the thirty-three tons of silver on board. The money will be shipped immediately, by Adams & Co.'s Express, to the Philadelphia Mint.

THE RIVER last night was at a stage of nineteen feet, and falling. The wharf is thronged with steamers, and still so crowded with freight that it is difficult for a pedestrian to find a walking place.—*Wheeling Intel., Jan. 25.*

THE THOMAS SWANN.—We regret that this noble steamer now lies at our wharf beached, if such a term can be applied to our Western waters. The water on Monday night receded so rapidly, that she was grounded; and is now entirely out of the water. She can only be removed by the launching process, which, we understand, will be forthwith adopted. With the precaution that will be exercised, we do not anticipate any material damage to this splendid and successful steamer.—*Wheeling Intel., Jan. 25.*

COMMERCIAL POST.

WEEKLY REVIEW OF PITTSBURGH MARKET.

OFFICE OF THE DAILY MORNING POST,
Friday, January 27, 1854.

Since the date of our last weekly review the weather has been somewhat changeable; on Friday last it moderated, and the same evening we had a rain and thunder storm causing considerable damage along its course. The weather changed on Saturday to intense cold, and continued so up to Wednesday morning. Our rivers on Saturday and Sunday were flood high, with 21 feet water in Monongahela on Sunday morning. Since then the water has receded, and in consequence of the river being full of running ice, navigation on the Allegheny has been entirely suspended since Friday. On the Ohio, however, no interruption to steamboat navigation has taken place, and our boats are departing and arriving daily. The late rise enabled all our coal boats to get off but it is to be regretted, for it would have been far better for them if there had been no coal boat rise, as we learn that the gale on Sunday night done great damage, both in loss of boats and life. It is ascertained that over 40 boats and barges are lost, containing upwards of 1,000,000 bushels of coal.

By the arrival of the steamers Arabia and Niagara on Tuesday, we have exciting news from Europe, with regard to breadstuffs. The following is taken from a circular by the Arabia:

LIVERPOOL, January 7.—*Breadstuffs*—A large business is doing in all descriptions of breadstuffs at advancing prices, with much speculative demand. The advance for the week on flour is equal to 2s@3s 6d; all qualities of wheat have improved from 10d@1s 2d, and in corn the advance has been about 2s.

Flour—Messrs. Brown & Shipley's Circular gives the following quotations: Western Canal 41@42s; Ohio, Baltimore and Philadelphia brands 42@43s; sour flour 36@37s.

Corn—Corn is in demand at an advance of 1s 6d upon the prices of last week. The quotations are, white 49s; yellow 48s; mixed 47s. The market closed firm.

The Breadstuffs market has advanced daily. The week's improvement being equal to 14d for wheat; 3s 6d for flour, 2s for corn. The advance has been caused less by speculative feeling than by an impression that the spring imports will be light.

LONDON MARKETS, January 6.—Breadstuffs—A large business has been doing at advancing rates; flour 41@44s; wheat 61@87s for white, and 74@80s for red.

Rice is in active demand, but prices are unchanged.

Sugar has advanced 1s. Tea—A small business is doing at firm prices. Coffee—The market is poorly supplied, and prices are firm, with an upward tendency.

This news caused an unusual degree of excitement in our Flour and Grain market, and prices advanced fully 75c ℔ bbl, with a very active demand; and we learn that many farmers and millers are sending their wheat to market in preference to having it made into flour, as paying them much better. Grain—In wheat there has been a marked improvement since our last. The demand is very brisk, and prices are higher than for many years. Our Mills are now paying $1,35@1,45, and for real choice lots something more could be obtained. Oats, too, is in better demand, and prices have an upward feeling. Corn firm. Rye wanted. The New York Economist writing upon the subject of the grain prospects states as follows:—At the West the quantity to come forward in the spring is not large, and from Ohio, Michigan and this State, it will be much less than last year. From the far West there is doubtless a fair supply of wheat and corn, and liberal arrivals may soon be expected at New Orleans. Our advices from France allude to free arrival of home grown wheat, which had produced the reaction as noticed by the past two steamers; but this would only be of short duration, as the supplies of all kinds of breadstuffs were inadequate to the demand, and a fearful rise in prices was anticipated.

ASHES.—We have no change to notice in soda ash, but continue our quotations of last week, with sales of 50 casks domestic and imported soda at 3¼@3¾. Pearls are without change, we quote at 6¼c. Pots nominal at 4@4½. Saleratus 4¼@4½c.

APPLES.—The market continues bare, and the demand is quite active; we quote at $1,75@2,25 ℔ bbl.

ALE.—We have no change reported in this article, but quote at $6, 7@8, as to brand.

BULK MEAT.—Sales of several lots country at 4¼, 5¼@6¼c for shoulders, sides and hams.

BEESWAX.—There is but little offered, and the demand limited; we quote at 23@24 first hands.

BEANS.—There is but little demand for Beans, and sales are confined principally to the retail trade. We quote small white at $1@1,25, from first hands and stores.

BROOMS.—Sales during the week were made at $1,62, 2,12 @2,75, first hands; stock light.

BRICK.—The demand continues fair for Bolivar, at $25 for common, and $40 for extra.

BUCKETS AND TUBS.—The manufacturers' prices are $1,25 for Buckets, cash; No. 1 Tubs $3,25, No. 2 $2,50; Keelers $2,75. Sales of Buckets from stores at $2@2,25.

BUTTER.—The demand from the trade for roll, continued fair during the week, and sold at from 14@16 for fair to prime. In packed, we have no transactions reported, but quote at 11@12c, dull.

BUCKWHEAT FLOUR.—Is in steady demand at $1,25@1,37 per sack.

Real Estate Farm for Sale.

THE subscriber is authorized to sell 284 ACRES OF LAND, situated in Versailles Township, Allegheny County, Pennsylvania, lying back of McKeesport, known as the White-oak Flats, and in sight of the proposed Station on the Connellsville Railroad. Improvements as follows: A Square Log House, 30 by 20 feet, two stories high; and Square Log Barn, 60 by 30 feet—both new and in good order; two fine young Orchards, best grafted fruit, just commencing to bear. There is 90 to 100 Acres cleared and in a high state of cultivation, and the balance is well set with white-oak timber of the first order. This Land is well calculated for a Stock Farm, being very level, and the soil of an excellent quality for grass growing, and being well watered, having some twelve or fourteen never-failing springs of excellent water thereon. This Land has facilities rarely met with, being within half a mile of the Youghiogheny river, and one mile of Monongahela, and almost on the line of the Connellsville Railroad; and is supposed to contain an inexhaustible bed of IRON ORE. This Land would not be in the market, only that the owner is about to remove to the Far West. Terms easy, and price moderate. For further particulars, enquire of W. J. REYNOLDS, at Lorenz' Glass Works, or of JAMES C. RICHEY,

B. A. Fahnestock's Vermifuge.

HERE is evidence that must satisfy every mind that can be administered with the certainty of expelling worms:

HALIFAX, N. S., Jan. 23, 1852.

I hereby certify, that a child of mine, aged three years, had been very ill for a month with a pain in the chest, general weakness, and loss of appetite. I was advised to try B. A. Fahnestock's Vermifuge, and accordingly bought a bottle from M. Naylor, Druggist, Granville street. Having administered a portion of it, he passed, within twenty-four hours, Two Hundred and Forty-two Worms, from six to twelve inches in length. The child, immediately after this, had its appetite restored, and soon enjoyed perfect health. Another child, seven years old, who had been more or less sick from his birth, took the remainder of the bottle, which caused him to pass One Hundred and Sixty-two Worms. From that time to the present, his health has been perfectly good, and he has thrived as well as any child could. ELIZABETH BISHOP.

Sold, wholesale and retail, by all the principal druggists and country merchants throughout the United States.

MEDICAL.

Invalids of Pittsburgh and Vicinity,

YOUR attention is urgently invited to a careful and candid perusal of something that has just been introduced into the time-honored Keystone State.

PULVERMACHER'S
HYDRO-ELECTRIC
VOLTAIC CHAINS!

A NEW and NOVEL mode of applying a powerful remedial agent, so constructed as to be worn under the garments, next to the skin, producing a constant, UNINTERRUPTED current of ELECTRO-MAGNETISM, effecting

Immediate Relief

From the most acute pain, and also a permanent cure of all NERVOUS DISEASES.

It seldom has failed to furnish almost certain relief, and a FINAL, PERMANENT CURE, by being used according to directions, to the following diseases:

Rheumatism, Uterine Pains,
Gout, Sciatica, Palpitation of the Heart,
Paralysis, Periodical Headache,
Painful and Swelled Joints, St. Vitus' Dance,
Neuralgia of the Face, General Debility,
Diseases of the Spine, Pains of the Chest,
Deafness and Blindness, Hysterics, Dyspepsia,

ALL DISEASES

That are caused by a deficient amount of NERVOUS FLUID, are greatly relieved, if not permanently cured by simply wearing the chains for a few hours each day.

Be it Understood

That it is not claimed that it cures all diseases, but only those for which it is recommended; and moreover, we boldly claim and DEFY, that no medicinal agent of ANY KIND has performed SO MANY CURES during the last year, of those diseases just named, as

PULVERMACHER'S ELECTRIC CHAINS.

And to prove this assertion, we defy any person to produce so many WELL AUTHENTICATED CERTIFICATES of Scientific Physicians and intelligent patients as may be found in a pamphlet of thirty-six pages, to be had (gratis) of the agent in this town.

The electric Chains were first introduced in France in 1850, and after being subjected to the most

Thorough and Rigid Trial,

By the first medical men in Paris, they were found to possess strange and marvellous power in relieving pain, wherever applied, and by their influence were introduced into the hospitals of that city, and also secured by letters patent by the French Government.

They are now introduced in almost every Hospital in England, Germany, Austria, Belgium, and patented in those countries, where they have become the MOST POPULAR CURATIVE AGENT IN THE WORLD.

They were first introduced into the United States about one year since, and went through the same trials in Europe, and were at once introduced into every Hospital in New York, where they are now in daily use, effecting even MORE WONDERFUL CURES than had ever before been awarded them.

They are highly recommended by Profs. Valentine Mott, Van Buren, Post and others, who have published their views of their power and value in several of the medical journals in that city, and are also in the daily practice of recommending their use to patients. A full account of their opinion may also be found in every pamphlet, and sent to the address of any person in the State by applying (post paid) to Dr. GEO. H. KEYSER, who is agent for Pittsburgh, Pa. The chains can be sent by mail, with full descriptions for use.

Price of Chains, $3 and $5.

Physicians are politely invited to call and examine their construction, and pronounce upon their merits.

One Word More to Invalids.

No person need fear that they will not accomplish just what it is claimed they can do, and all persons who have become disgusted with a constant pouring down of patent nostrums (bottled swill) are kindly and politely invited to give them a trial.

N. B.—One Chain will last for years and lose none of its electric power by use, and can be applied to either adult or child.
