THE CUSTOM HOUSE ROBBERY still remains a mystery, and if possible, the manner in which the robbery was committed grows more mysterious than ever. Why have not the authorities taken the matter in hand? The strange rumors circulating in the streets demand that the robbery should be investigated. It is due to the government and to its officers, that there should be a full investigation. Why has it not been commenced?

We learn that Mr. Hastings is much better.

The money in the safe was intended for the use of Major Butler, the military stores keeper at the arsenal.

The following is the testimony of Dr. M'Coss, taken last Saturday, before Mayor Volz:

Dr. Wesego M'Cock being sworn, deposeth and saith: I was called upon to see Mr. Hastings last night, between 8 and 8½ o'clock, P. M. I went along with the messenger to his residence in Allegheny City, and found him in a very critical condition. I found him literally paralyzed, with a very cold skin, scarcely able to articulate distinctly, with marks of violence upon the front part of his throat, indicating clearly that the main arteries and veins of the throat had been compressed by that violence, and thereby retarded the return of blood from the brain to the heart, producing congestion of face and head. I also found marks of violence upon the most prominent part of the parietal bones, on both sides of the head, produced, as I inferred, by the application of the force of a foreign body, which in my opinion indubitably induced the dangerous condition of the system previously described. There was also an extreme difficulty in swallowing as well as of utterance. My opinion is, beyond a question, from the facts of the case, that the injuries were the result of an attempt to assassinate. He was not fully conscious when I first saw him. I think it was about an hour and three quarters from the time, when I supposed the accident to have occurred, until I saw him.

COLLISION.—A collision occurred on Saturday night on the Pennsylvania Central Road, near Irwin's station, between the Express passenger train and a stock train loaded with hogs. The passenger train was on time, and struck with sufficient force to break up the entire stock car, scattering the carcasses in every direction. None of the passengers were injured.

LECTURES.—Bishop Spaulding lectured last night, at the Cathedral, on the subject of the "Middle ages."

On the 17th of the month (St. Patrick's Day,) Thomas D'Arcy McGee will lecture in the Odeon, on the subject of "The Historical Character of St. Patrick." Tickets may be procured at the Catholic Book Store.

FOUND DROWNED.—A man named M'Laughlin, a shoemaker, residing in Allegheny city, was found drowned yesterday in the weigh lock, near the aqueduct. M'Laughlin fell into the weigh lock about three weeks ago, but was not discovered until yesterday. Coroner Lowry held an inquest.

LARCENY.—Thomas Moyer, a passenger on the steamer North America, made an information yesterday, before Ald. Barkley, in which he charged the master of the steamer with the larceny of an umbrella. A warrant was issued for the arrest of the person committing so flagrant an offence.

FATAL PARTURIENT.—William Johnston, a store keeper in the Fifth Ward, made an information before Ald. Parkinson, yesterday, accusing a man named Andrew Clark, an employee on the railroad, with obtaining goods under false pretences. Clark was arrested and held to bail.

THE ASSIGNEE'S LIST.—The present and ensuing week, in the District Court, will be occupied by the assignees' list. The service of the jury summoned for the 24th Monday, will not be required until the fourth Monday of this month.

ASSAULT AND BATTERY.—Hugh Stewart, for an assault and battery, committed on Robert Cooley, was held to bail yesterday, by Alderman Parkinson. The assault was committed in the house of William Simpson, in the Fifth Ward.

SLAUGHTER.—A cyclas was issued yesterday morning, for the arrest of Thomas Hughes, for using his battery upon, with an oath of Patrick and Elizabeth Welsh. Bail required in $1000.

THEATRE.—Mr. Neafie makes his second appearance this evening, in the character of Virginius, in Sheridan Knowles' celebrated play.

FIGHT.—Henry M'Collough & Co., and Reynolds & Shee, were fined by the Mayor, yesterday morning, for leaving barrels on the street, on Sunday.

Land for Sale.

1800 ACRES OF LAND IN FOREST COUNTY, near the Clarion river, This land is heavily timbered, has an excellent soil, and is said to contain an abundance of iron ore, and a thick vein of Bituminous coal. The iron ore go railroad, which will undoubtedly be built, will run very near to it, if not directly across it. The Millstone creek runs through it.

ALSO, 500 acres in Elk county, well timbered and watered, and lying near the route of the Sunbury and Erie Railroad.

No better investment could be made than in these lands. The completion of the Sunbury and Erie, the Allegheny Valley, and the Venango railroads through that region will render the coal, lumber, iron ore and oil of great value. Enquire of C. D. R. SMITH,

THIRTY-FIRST CONGRESS.

WASHINGTON CITY, March 13.—*Senate*—Mr. Stuart introduced a bill granting land to Michigan for a Railroad.

Mr. Jones, Speaker, stated that a communication from the Secretary of the Navy in answer to a resolution of inquiry stating that the status in the navigation of the coast small service was not built for such a manner as would render them reliable for war steamers, in case they should be required for such service, though they might be made very useful as transports or as privateers bearing small armaments.

The guns of Morro were pointed at the Cowles as she went out, and the battlements bristled with armed men.

NEWS FOR RIVER MEN.

The River.—12 feet water in the channel and falling slowly. Weather clear and pleasant.

The steamer Gray Cloud takes the place of the *Allegheny* to-morrow, for this trip, from the latter boat having been detained by high water. *The Cloud* will take the passengers through in good style and time to Cincinnati.

Passengers travelling to St. Louis and Galena, should not fail to call on board the steamer *Gray Cloud*, for it is not clear that they have an opportunity to go through without changing. She leaves to-day.

The steamer Hartford is the regular boat for Louisville to-day. She leaves at 12 o'clock, M.

The steamer America, Capt. Batchelor, is loading for Nashville. She is a good boat, well officered, and does business right.

A Freshet.—Times Dayt Extra.—The river was rising with great rapidity yesterday; and fears are entertained of an overflow, as the river is at a higher stage than it has yet at this time this season. From 10 o'clock yesterday morning to 6 last evening, it rose 9 inches, and the river had then 8 feet, equal to 3.2 inches per hour, and rising faster last night than even the rain has been pouring down incessantly for 24 hours, and still raining at a rate of one hour last night. During the last 3 days and nights, with the exception of a portion of the latter part of Friday, it has had full rain, and at times it poured down in torrents, deluging the country. Should it continue to rain, it is ready to put out a flood of water.

Business in the city was suspended among the coal and other flatboats that had been harbored at the mouth.

The Kentucky river was rising fast yesterday, at all points, and we feel certain of having a very high freshet in the Ohio, as the freshets along Water street to prepare to move out.

The Empire, that arrived from New Orleans yesterday, reports the *Mary Agnes*, the unfortunate Memphis packet, burnt, sunk out of sight, with only the top of her hollow out of water.

Capt. Anderson Sold.—The *Fleet Anderson* has just been sold to Captain Carroll, for the St. Louis and Memphis trade, for the sum of $18,000. The boat will be delivered to the new owners on her arrival at Pittsburgh.—*Louisville Courier, March 10.*

Turk for Pittsburgh.—The Madonna arrived from Green river yesterday with 500 boxes of pork' sides for New York via Pittsburgh. It is coming on here, to be reshipped, and in addition there are some 750 Cases more of the same description of freight for Pittsburgh, that has been awaiting transhipment for some time.

Collision on the Hills.—Yesterday morning, after daylight, the steamers *Monsoon* and *Tishomingo*, while ascending the falls, came in collision, the starboard guard of the *Monsoon* was shivered to pieces, and one of the boilers considerably injured. The *Tishomingo* received no injury. Shortly after the accident the steamer *Lexington*, ascending the falls, ran into the *Madonna*, doing considerably damage. The *Lexington* had her bows stove in.

Tale Could.—This steamer sunk at Sucker's point, 130 miles below Cairo, by striking a snag. She went down in seven feet water—not up to her cabin floor. No lives were lost. She can be raised, it is thought. If assistance is sent immediately. Her hold freight, which is pretty heavy, will prove an entire loss.—*Louisville Democrat, March 10.*

Steamboatmen, and even the oldest inhabitants, tell us that they never saw the Ohio so low as it is at this time, over during the floods in '32 and '47; and as all the tributaries between here and Pittsburgh have been and are getting out, there is no knowing to what height the Ohio may possibly reach. Some of the boats that arrived here yesterday were landing the cargo of the Indian Queen, in order to be safe, they deposited it a good distance up Broadway.

The occupants of the stores in "Cassily's Row" have removed their goods to some of the second stories of their buildings, and others to more distant quarters.—*Cincinnati Enquirer, March 11.*

An account of the alarming rise in the Muskingum will be found in our Zanesville paper, this morning.

At dawn o'clock last night, the river was rising about six inches per hour, and the sidewalk in front of Cassilly's row was five feet under water. The flood was certainly great, and the only sound was the mighty washing of the river, the cracking of the buildings, the river was higher than the house almost as high as the roofs of the front street houses.—*Cincinnati Commercial, March 11.*
