DAILY MORNING POST.
SATURDAY MORNING.....MARCH 18.

EDITORS AS EDITORS.—Somebody telling over his editorial difficulties, thus serves up Sam Pike, rather takes us down:

"Mr. Pike and I published a paper in 1817, among the Miami Indians, in the State of Indiana. It was a great partnership that. We had two advance paying subscribers, one skip liquidated his subscription with beads, and the other, with hogs. Godfrey, the chief, took five papers, and could not read a word. Our paper was called the 'Perti Forrester,' and being printed in the woods, the title was appropriate. The town of Peru had a number of magnificent names for its streets, such as Pearl, Broadway, &c., which streets exhibited the animating and bustling appearance of stumps and trees, as a man's head. The stirring events which transpired in that city, imperiously demanded a couple of chronicles, and Pike wrote poetry, and I dipped considerably into State politics, and discussed in a very learned manner every question of interest. Besides being an editor and printer, he kept the Broadway hotel, was postmaster, justice of the peace, land agent, pettifogger, merchant, overseer of the poor, painter, and had been a schoolmaster and a day laborer, was twice a widower, was raised a quaker, and the last time I saw him he was a preacher, and married his third wife."

DE QUINON'S
Improved Non-Explosive Camphene Lamps.

HAVING PURCHASED THE right for the above LAMP in the counties of ALLEGHENY, BEAVER, WASHINGTON, FAYETTE, and GREENE, we are prepared to furnish Lamps, or sell Rights for a reasonable price. These Lamps are so constructed as to render explosion impossible and the public may rest satisfied that they may be used with entire safety. They also give more brilliant light, and the materials used being cheaper than the "Lard Oil," or oils of any kind, they must come into general use. We also have LANTERNS and CANSON the non-explosive principle.

RECOMMENDATIONS.

This certifies that we have seen, examined and tried, De Quinon's improved Non-Explosive Camphene Lamps, patented January 6th, 1852, and are fully satisfied that it is a very valuable improvement, and will be found far preferable to any other Camphene Lamp in use. We believe for safety it is perfectly reliable, and therefore deem it richly deserving the attention of all such as have occasion to use Lamps of any kind.

Is your Life Insured.

NOT, read what some one has written: "Among all the contrivances made to protect the family circle from want, none can be found more simple in its character, more in its feature, or certain in its results, than LIFE INSURANCE. It is the prop which the dying husband leaves to support the wife of his bosom."

It is the unseen hand of the Provident father reaching forth from the grave, and still nourishing his offspring, and keeping together the family group.
