THE CITY POST.

MONDAY MORNING ..... JUNE 19.

THROUGH.—We are informed by the contractors that the boring of the great tunnel, on section No. 2, of the Pittsburgh and Steubenville railroad, was put through on Friday evening at 5 o'clock, the workmen from the western end meeting those of the eastern at about 225 feet from the shaft, exactly in the centre, the extreme distance being 1,574 feet. It was begun on the 6th of May, 1853, and after laboring under numerous disadvantages from bad roof, large crevices in timbering to support the roof, including a shaft at the eastern end 142 feet, which was worked by an engine of forty-horse power, it has at last rewarded the anticipations of those concerned. We are happy to learn that not a single accident occurred in sinking this shaft, or during the tunneling, and that, too, since quite a score lives in this district. Great credit is due to R. Brady, Esq., the efficient engineer in charge; to Messrs. Brown, Wood & Co., the sub-contractors, for the handling so good cutting machinery and perseverance in its speedy completion in far-past series. The whole work has been well managed, under the able superintendence of Mr. G. F. Ball, now on a visit to Philadelphia, and of Mr. G. M. Leech, the present engineer. The bottom has been closely dug, and everything proves favorable the section will be finished in three months.

DUFF'S MERCANTILE COLLEGE, PITTSBURGH, Pa.—We find in Ohio friends are taking a high degree of interest in a new description of blank books for teaching commercial book-keeping, now introduced in this institution. Mr. Duff, the Principal, is the inventor of the new system, and it reflects great credit upon his perseverance and skill. It is said that it will introduce a new era in teaching this important science—reducing the usual time of study nearly one-half; and in all matters of detail, it is the nearest approximation to the actual practice of business book-keeping yet introduced; consequently, a higher degree of perfection in study must be attained by such a course than by any means yet in use. It will be seen that Mr. Duff has taken steps to secure his right to his invention by patent.

STEALING A GOLD WATCH.—A young man named William Prescott, was arrested and brought before Alderman Parkinson, on the charge of stealing a gold watch from Martin Hunter, at the Depot Hotel in the Fifth Ward. The prosecutor deposed that he had been sitting in the bar-room of the hotel in company with the prisoner, and after his departure, he found that his guard chain was broken in two, and that the watch abstracted from his vest pocket. Afterwards the defendant was discovered in the Excelsior Omnibus stables, with the watch in his possession. The defendant, Prescott, was committed to jail for trial.

PASSING COUNTERFEIT MONEY.—The proprietor of a shoe store in the Fifth Ward appeared before Alderman Parkinson, on Saturday, and deposed that a man of the name of G. Martin, had come to his establishment and purchased a pair of shoes, for which he gave in payment a gill counterfeit note on the Rochester Bank, receiving good money in exchange for the balance. A warrant was issued for the arrest of Martin; who was brought before the magistrate, but on its appearing that there had been no intent to defraud, the matter was settled by a genuine note being tendered.

FELLY COMMITTED.—Robert Cale, who was arrested on Friday evening, for shooting Michael Murphy, had an examination before Mayor Volz on Saturday morning, and in default of $2,000 bail, was committed to jail for trial on a charge of assault and battery with intent to kill.

The case was immediately sent to the grand jury, who promptly acted on it, and in a brief bill returned, "It the court of Quarter Sessions and as quickly in the matter, there is every probability of justice being done disposed.

EXTENSIVE FIRE.—From a private letter received in this city on Saturday, we learn that the extensive Saw Mills of Goode & Co., situated in Crawford county, were entirely consumed by fire on last Thursday, together with from 500,000 to 800,000 feet of lumber—the whole loss probably amounting to $10,000 or $12,000. During the time the fire was raging, Mr. Jacob Goode, in attempting to save some of the property, was struck by a falling timber and badly injured.

ACCIDENT.—A little girl, a daughter of James S. Craft, Esq., living on the Fourth street road, jumped on the steps of an omnibus as it was passing on Saturday afternoon and after riding a short distance, attempted to get off, when her foot caught between the steps of the bus, and she was dragged some thirty or forty yards before she was released, which was effected by her shoe being torn from her foot. She was badly bruised, if not seriously injured.

REVENGE TO GRANT.—An attempt was made on Saturday to have some trial granted to Henry Nesbitt, who was convicted of larceny a few days since; but the motion was overruled, and the prisoner sentenced to one year's imprisonment in the penitentiary—the lowest term possible to give. He was immediately taken over.

GRAND JURY.—The grand jury concluded their labors on Saturday, after holding a remarkable short session; the amount of business executed, however, was considerable, no less than 271 true bills being acted on by them.

ASSAULT AND BATTERY.—John Johnson was brought before Alderman Parkinson on Saturday, to answer to a charge of assault, prepared against him by Frank Ackerman, and gave bail in $200 for his appearance at Court.

DEPUTY GRAND MASTER.—We learn from the Times that Mr. Henry Sanders, of Allegheny City, has received a commission as Deputy Grand Master of the Order of Odd Fellows, for the third district of Pennsylvania, composed of all the Lodges of Allegheny county.

A MOTION FOR A NEW TRIAL in the case of John Hess, who was convicted of rape last week, was argued before Judge M'Clure on Saturday, but his decision was given.

PATENT.—A patent has been granted to Mr. James Wightman, of this city, for an improvement in steam boilers.

IN TOWN.—Henry S. Magraw, Esq., our former fellow-citizen, but now of California, is in town, at present on a visit.

DISTRICT COURT.—Chancery cases will be taken up in this Court this morning; and after they are all disposed of, Court will adjourn for the summer months.

For the Morning Post.

SPECIAL NOTICE TO THE MAYOR AND POLICE OF PITTSBURGH.—Having lately seen a proclamation, stating your intention of enforcing the ordinance against Hogs and Pigs, and desiring to assist you in this laudable object, I therefore feel it incumbent on myself to notify you that from twenty-five to fifty of the above-mentioned animals, of all ages and conditions, lame, halt, and blind some minus a leg, can be found in Exchange Alley, between Hand and Wayne streets, from any morn till day; evidently the action to the word, gentlemen, call and be convinced, and abate the nuisance.

Very affectionately,

PITTSBURGH, June 16, 1854. AUNTY CHOLERA.

PILLS!

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which should combine all the qualities of a perfectly safe in its operation. This has been prepared in the pills of Dr. Jayne's Family Physic, an extensive trial of virtues has conclusively shown with what success it accomplishes the purposes designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have quite other objections, but all the adventurers of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patent nostrums that almost every purgative medicine is nauseous and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm will arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which they have been specially cured by are, worm, yellow fever, Liver Complaint, in its various forms of Jaundice, Indigestion, Languor, and Loss of Appetite, Costiveness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of disorder in the liver. As an aperient, they effect the most prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Hunters' Scrofula and Scurvy, Coldness of the Body, Dropsy, Ulcers and Impurity of the blood. In short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach and Side. They also will be found invaluable in the case of females, for purify the blood and prepare the system for the change of constitution. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, remove the germs of disease in the body, and restore that wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous even to those who are in perfect health. But not unnecessary doubtings should never be started too far, as every impurity we remove, relieves the system of a load of disease. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reader of reflection. We feel assured that a fair trial of this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the Family Pill are sought for as readily as the well-tried and tried remedies of a cathartic medicine.

Prepared by JAMES C. AYER, Lowell, Mass., and Chemist, Lowell, Mass. Price 25 cents per box. Five boxes for $1.

Sold by H. H. FAHNESTOCK & CO., Pittsburgh, and by all Druggists. jy6cmdaw.

jel9 55 Fifth street, near the Post Office.

BARRY'S PHILOPHEROUS—1 gross received this day
my26 JOS. FLEMING.

NEWS FOR RIVER MEN.

The River.—There were by pier marks, at dusk, on Saturday evening, four feet, and falling slowly. Weather cloudy and warm.

The Monday packet for Cincinnati is the light draught steam propeller *Oakland*, Captain Milligan. The time of leaving will be about 3 o'clock.

We wish to keep before the public our friend Captain A. Devinney, with the *Castle Garden*—now ready to leave for St. Louis direct—and our word for it, those traveling with Capt. D. will not leave him with a hasty shake of the hand.

Saturday was quite animated. There were three boats loading for St. Louis—the steamers *Castle Garden*, *Ben Bolt* and *Fire Canoe*; and three for Cincinnati—steamers *Oakland*, *America*, and *Bridge City*. Several of the above boats refused to take any more freight, early in the day. Although there are quite a number of boats building for the coming low water, there is no doubt but that they will find plenty of business, from the facilities that our city affords. There will be plenty to do for them all.

Memoranda of Steamer Quaker City—Left Cincinnati on the evening of 12th. In port and for Pittsburgh: steamer Challenge, 14th. Met steamers N. W. Graham at Wrightsville; Hartford at Burlington; Express at Hanksville, 16th. Passed tow boat George Albree at foot of Burlington. Met Forester at Muskingum Island; Cuba at Marietta; Jane Jackson at Pettiboat; Gazelle Bog's Island; Yorktown at Cox's Ripple; stern wheeler (unknown,) at Cross Creek; Orbit at Steubenville. Lost twenty-six hours by fog. It will be seen by her card below that she leaves again to-day, for the Queen City.

Captain Richard Phillips is having a new boat built, called the Flying Cloud. She is two hundred and forty feet long, thirty two feet beam, and eight feet hold. She will have forty-two inch boilers, thirty feet long. Her cylinders will be twenty-five inches, and have eight feet stroke.—*Louisville Democrat*, 14th.

On Tuesday evening, the James Parks, from St. Louis, with a heavy cargo, chiefly grain for this city, in order to get through the canal at Louisville, was compelled to lighten. She procured a flat-boat, which was filled with sacks of wheat, and started through the canal, but when about half way between the stone bridge and the head of the canal, it sunk, and completely obstructed the passage of the canal, and prevented boats from either ascending or descending. The wheat was of course badly damaged.

Up to yesterday morning, the sunken boat had not been raised, though vigorous exertions had been made to raise it. We presume it will be removed, and the canal free by this morning.—*Cincinnati Commercial*, 16th.

STEAMBOAT RIGS in want of Pure Medicines and Medicine Chests, can have them supplied at the prices than they can be had any where in the city, by calling at DR. KEYSER'S Drug Store,
No. 140, corner Wood st. and Virgin alley.
Sign of the Golden Mortar.

EUROPEAN AGENCY.
1854. 1854.
THE OLDEST ESTABLISHED OFFICE IN THIS CITY

MONEY TO THE OLD COUNTRY.

JAMES BLAKELY begs leave to say to those persons here, or in the Old Country, and desirous of either sending them money or paying their passage, that his arrangements for doing either is now complete, and on so firm a basis that mistakes can not occur, nor losses accrue to any party. During the last ten years in which he has been in this business, he has remitted over a Half Million of Dollars without the loss of a dollar, and the house for which he is agent, in Liverpool, has shipped not less than 45,000 persons during the last year to this country, without a complaint or neglect of duty on their part.

He can issue Passenger Tickets for London, Dublin, Liverpool, Glasgow, Cork, Belfast, Drogheda, Limerick, Fort Rush, Newry, Galway, Londonderry, and Dundalk, to New York, Philadelphia, Boston, Baltimore and New Orleans, and from thence to Pittsburgh; and will attend strictly to forwarding passengers from thence to any part of the country. He also has eight drafts for sale, payable at the following places, viz:

ON ENGLAND.

Edwards, Sandford & Co. ..... London.
Wm. Tapscott & Co. ..... Liverpool.
(Available in the principal cities and towns throughout England and Wales.)

ON IRELAND.
