THE CITY POST.

THURSDAY MORNING.....JUNE 22.

OUR PUBLIC SCHOOLS.—The liberal and generous spirit manifested by the citizens of this place in the contribution of funds for the erection of magnificent buildings for our Public Schools, has often been remarked and admired by strangers, as forming an agreeable contrast to the parsimony and lack of public spirit displayed in other matters. So far has this spirit of liberality been carried, that there is not a Ward in the city that is not provided with a school building equal, if not superior, to many of our famed colleges; and we are well satisfied that no other place in the Union can boast of the same number of large and splendid houses for the accommodation of Public Schools. It should not be thought however, that this munificence has been confined merely to the erection of immense buildings, to challenge admiration by their extent and costliness—the same generous motives have actuated in securing the services of the very best and most competent teachers to be had, and many persons are engaged in our Public Schools who would reflect credit on any institution of learning.

Although always aware of these facts, we had them brought more directly to our minds by a visit we made the other day to the First Ward school house—a building which will compare, in point of architectural beauty, with any similar structure in the city—where we had an excellent opportunity of witnessing its good results.

The schools of this Ward are under the charge of Mr. R. N. Avery, a gentleman who has no superior as a preceptor or a principal. For many years he was connected with the Normal Schools of Boston; and more latterly was Principal of the Public Schools of Birmingham, at which place he was the first to introduce the use of instrumental music. The system adopted by Mr. A. for the instruction of his pupils is entirely different from any other made use of in this city; but from the complete success attending it, and the satisfactory manner in which it has operated thus far, has afforded ample testimony of the superior advantages of this method over any other. The pupil is governed more by moral suasion than by physical force; and thus, by showing the reason for obedience, endeavor to "lead his mind to approve of and pursue the good." Uniform kindness always prevails, but never runs into indulgence; and unqualified obedience is always required to be given. Every effort is made to prevent evil, but when not successful, a cure is attempted by means of a series of four grades, regulated as follows:

The first grade is considered the highest standard of moral character; and all admitted to it are supposed to be portively, regularly, and continually inclined to do well. The smallest faults, even those of carelessness, will remove the pupil from this grade; and two months of the most strenuous efforts to do well in the second degree, are required to elevate him to this. Greater privileges are allowed to school belonging to this grade than to others, and his word will always be taken without reserve on all occasions. The members of this grade alone are selected to fill positions of trust and confidence in the school.

The second grade includes those who have a positive inclination to do well, but who have not attained to a sufficient degree of self-control to overcome careless habits. Faults of carelessness, if not often repeated, are allowable in this grade, but a too frequent recurrence will lead to removal. One month of continued exertion to do well in the grade below, will promote him to this.

The pupils in the third grade are supposed to possess the inclination to do well, but have not yet sufficiently overcome the force of evil habits. A great many faults are permitted, and only continued irregularity and intentional faults will cause the offender to be degraded.

There are no privileges or immunities attached to the fourth grade, and the members comprise those pupils who have manifested an inclination to do evil. The scholars belonging to this class are considered as having no character or standing in school, and no trust is reposed in them. One week of positive effort to do good will promote him into the grade above.

This is a brief synopsis of the system made use of by Mr. Avery, and it has been found to be the most effectual method of developing the innate good feelings of a child that could possibly be devised. Each scholar is anxious to be elevated to the grade above, to enable him to share in the privileges of that grade; and there is, consequently, a constant and unwavering progression for the better going on, caused by this stimulation.

The schools are divided into five different departments, which are presided over by the following teachers: High School, Miss A. C. Sargeant; Grammar, Miss Bella S. West; Medium, Miss Emma Hopewell; Secondary, Misses M. A. M'Millan and S. S. Bailey; Primary, Miss Mary A. Leslie and Mrs. M. C. Whiting. These names include some of the very best female teachers in the city.

The building has accommodations for about six hundred scholars, but at this season of the year not more than three or four hundred attend.

PAINFUL ACCIDENT.—A horrible accident occurred on Monday, in West Pittsburgh, near Zug, Lindsay & Co's. Rolling Mill. A stone mason named Jonas Wenner was engaged in blasting rocks, in the rear of the above iron works, and while in the act of applying the match to the fuse, the charge exploded, scattering fragments of the rock in every direction. The unfortunate man was struck on the left temple by a stone, and rendered senseless. His skull was frightfully cut and driven upon the brain; his jaw was also broken, and his face considerably bruised. Dr. Walker was sent for, and assisted by Dr. Smith, he removed the depressed bone by the trepan; he says however entertains but very little hope of his recovery. Wenner resides in Manchester, and has a large family dependent on him for support.

JAMES SKILES AND ROBERT GEORGE, the incendiaries at the late fire in Allegheny, were brought into the Court of Quarter Sessions for trial yesterday, but Col. M'Candless, the counsel for the defence, stating that he was not ready to proceed—only two days having elapsed since a true bill was found by the Grand Jury—the case was postponed.

An effort was then made to get them released on bail, but Judge M'Clure said he would place the amount so large that it would be impossible for them to procure it. He said he would require them to find security in the sum of $75,000 each. Of course this heavy amount could not be raised, and the prisoners will therefore be compelled to remain in prison until their trial.

FIGHT.—A great noise and confusion was created on the corner of Wylie and Rim streets, on Tuesday night about eleven o'clock, by four men, who were having a free fight. Afterdisturbing the whole neighborhood with their clamor, they separated before the watch interfered; who, as usual, did not arrive on the ground until all was over. One of the combatants was knocked down, and stunned for a time; but soon recovered his senses, and his wounds dressed.

THE MAMMOTH SHOW.—P. T. Barnum's colossal Museum and Menagerie, which arrives in this city on Monday next is destined to create something of an excitement, judging from the effect produced by the mammoth posters one meets at every corner, and public curiosity appears to be pretty thoroughly stimulated in regard to it. From the advertisements it would appear that variety enough is comprised in the exhibition to satisfy the most exacting. A prize of elephants; the performance of the real Tom Thumb; curiosities, lions, tigers, leopards, and other attractions of equal power will be found set forth in the bills and silver lettered, while those who have a taste for wax Presidents, and wax Heroes, and wax Queen Victorias will find them here in all their glory.

ABUSING HIS WIFE.—John Bradneck was yesterday arrested, and brought before Ald. Parkinson, on a charge of abuse and desertion preferred against him by his wife. She testified that he was in the habit of abusing her, and would not maintain his family, which she was obliged to support by her own labor. On Tuesday evening, he became more than usually abusive, and finally turned her into the street, where she was compelled to remain all night. The Alderman, in default of bail, sent him to jail to await trial.

A COMMISSION OF LUNACY was yesterday granted by Judge M'Clure, in the case of Thomas McWilliams, the poor fellow who was committed by Mayor Adams, of Allegheny, a short time ago, as being insane. A number of witnesses were examined, who testified that he had been insane since last November, and at one time attempted to commit suicide by cutting his throat. The Judge ordered that he should be taken back to New Brighton, the place of his residence, and put in charge of the borough authorities. He will probably be sent to the Lunatic Asylum, at Harrisburg.

A DISTINGUISHED ARRIVAL.—Gen. Jas. Watson Webb, editor of the New York *Courier and Enquirer*, arrived in town on Tuesday evening, but whether he was called on by "numerous distinguished citizens" yesterday, is more than we can say. The General, we believe, is en route for the works of the Gauley, in which he is one of the principal stockholders, and has just returned from England, where he was endeavoring to raise money to work these mines.

PAYING OFF.—The Hollidaysburg *Standard* says that Gen. John Ross, assisted by the Clerks of the Portage Railroad, Messrs. Walker and Gilmore, last week paid out $35,000 to the employees on the Road, squaring the accounts between Johnstown and Plane 4, up to the 1st inst. Another payment will be made again about the 1st July.

SURETY OF THE PEACE.—Patrick Lanegan, the individual who made oath before Alderman Parkinson, on Tuesday, against Alex. Irwin, for beating his wife, was yesterday brought before Mayor Volz, on a charge of surety of the peace, preferred by Irwin, and not finding the proper security was sent to jail.

BADLY INJURED.—A man residing on High street, while in a state of intoxication on Tuesday evening, fell from the porch of his residence to the yard below, a considerable distance, injuring himself so much as not to be expected to recover.

FIRE.—The alarm of fire last night was caused by the burning of a carpenter shop, situated on Locock street, near Anderson, and is supposed to have been set on fire. It was extinguished without doing any damage to the surrounding property.

COURT OF QUARTER SESSIONS.—Before Hon. Wm. B. M'Clure, President Judge; and Gabriel Adams and Wm. Boggs, Associates.

Commonwealth vs. David Cross; indictment, assault and battery. The jury in this case could not agree and were discharged.

Commonwealth vs. Samuel Bates; indictment, surety of the peace, on oath of John Hammet. The recognizance of prosecutor was forfeited, and the Court ordered that the defendant pay the costs.

Commonwealth vs. John Bastick; indictment, larceny. The defendant was found not guilty, and was discharged by proclamation.

Commonwealth vs. Bryan Mayhugh; indictment, passing counterfeit money, on oath of John Siddon. Verdict not guilty.

TYPO. UNION.—The regular monthly meeting of the Pittsburgh Typographical Union, No. 7, will be held this evening, at seven o'clock.

ONE WEEK LATER FROM EUROPE.

ARRIVAL OF THE STEAMER CANADA.

Breadstuffs and Provisions Unchanged.

ASSAULT ON SILISTRIA.

Repulse of Russians and great Slaughter.

NEW YORK, June 21.—The steamer Canada arrived at Halifax early this morning. The Atlantic arrived out on the evening of the 10th.

There has been no decisive news.

The Sardinian Army dispatched 10,000 Anglo-French troops to the relief of Silistria, and won't probably return there on the 14th June. The chief interest now centres in the question whether Silistria would hold out till then.

Deep political movements are going on between Austria and Russia.

Lord John Russell has been appointed President of the Council; the Duke of Newcastle, Minister of War, and Sir Bruce Grey, Secretary of the Colonies.

LIVERPOOL MARKETS.—The market exhibited a considerable advance early in the week, and afterwards was cold, closing on Friday at an advance on the week of ½d. The sales for the week were 70,000 bales.

Breadstuffs.—The circulars very, but the most reliable of them say that the prices during the week, and the transactions were moderate. Western Canal Flour 28s 6d.

Provisions generally unchanged. Lard advanced 3s.

Consols closed at 91¼@91½. Bullion in the Bank of England is increasing.

Mid'ling uplands Cotton, all qualities, as having advanced considerably at the commencement of the week; but on the 6th the market receded from previous advance, but still remains at an advance of ¼ upon last week; lower qualities and middling have improved most. The sales of the week were 72,500 bales, of which the speculators took 19,000 bales, and the exporters 7500.

Brown & Shipley quote Orleans fair, 6¾; middling, 5¾; Mobile fair, 6¼; Uplands middling, 5 5-16. Other circulars quote Orleans middling, 5¾; Uplands middling, 5¼. The stock, exclusive of shipboard, is 821,000 bales. The stock of American, exclusive of shipboard, is 618,000 bales.

Breadstuffs.—The circulars totally differ—some reporting prices a shade higher, and others a shade lower. The truth is, that prices are weak, and transactions moderate.

Brown & Shipley quote Western canal at 33@39s; good Ohio 38s 6d@40s. White Wheat 10s 2d@12s 4½d, and red 10s 6d@11s 9d. White Corn 39s@40s; yellow 41s; mixed 39s.

Provisions.—Richardson & Brothers quote Beef firm, with an upward tendency. Pork dull. Bacon firm; large import and sales at 39s@40s. Lard higher, advanced 2d; 40s @50s; stock 3500 bbls.

The Broker's Board report Pearl and Pot Ashes as unchanged. Rosines very dull. Rice unchanged; limited business. Sugar: foreign unchanged, moderate business. Coffee firm. Tea: medium green advanced 1@2. Rice dull; sales of the week 400 tierces.

Bell reports American stocks a shade higher; U. S. fives, of 1865, 106@106¼; U. S. sixes, 1862, 108; U. S. sixes, bonds, 1868, 110¾; U. S. sixes, stock, 1867 and 1868, 110¼; Illinois, Penna. fives, bonds, 83@85; Maryland fives, bonds, 94@95.

London markets firm. Western Ohio, 38s. Bread-stuffs firm and unchanged. Provisions firm; sales of the week more sellers than buyers.

The bullion in the Bank has increased £9,000. Consols have undergone great fluctuations. Consols for money 91¼ @91¾.

Intense anxiety prevails in regard to Silistria. The Russians have 70,000 men on the spot, and the assault may commence any day and hour. They had made a practicable breach, but the sudden rise of the Danube prevented the storming. Advices to the 25th reported that the fortress is threatening to blow up the fortress, rather than surrender.

On the night of the 27th, the Russians made the last attempts to storm, but were repulsed with fearful loss; 1500 fell beneath the ramparts. The Turks also made dreadful havoc among the Russians, killing and wounding 4,500.

The allied head quarters were established at Varna.

The Turks were defeated on the 8th, killing 500 and capturing the guns. Other encounters, more or less sanguinary, are reported.

All the Russian troops at Bucharest are ordered to advance. The Russian force in Lesser Wallachia was still falling back.

All was quiet on the Danube.

The allied fleet was cruising about, but no enemy was in sight.

Nothing further has been done in the Baltic by the fleet.

Admiral Napier fleet was at Helsingfors, and Admiral Corry's, including the French squadron, was off the eastern Coast, and was arriving near Cronstadt, when both fleets would unite and anchor across Fore Gulf.

The French squadron of 22 ships passed Rogen on the 4th, steering for Reval.

Some of steam gun boats was being hastily fitted out in England.

Five English ships of war are on the way to blockade the White Sea.

ASIA.—The Circassians under Scharnya, are preparing to attack Tiflis.

CONSTANTINOPLE, 20th.—The occupation of redoubt Kalah by the Turks is confirmed. Anapa and Kulalih have been evacuated.

A despatch from Athens confirms the report that the insurgents obtained a victory on SATURDAY, 24th inst., at 12 o'clock, and killed many prisoners.

The new Greek Ministry installed in office, are dismissing all the functionaries implicated in the insurrection.

The American squadron was at Syra on the 1st of June.

Further reinforcements have been ordered in Russian Poland.

MOROCCO.—The Emperor of Morocco forbids the entrance of the Russian flag into Mogadore during the war.

GERMANY.—A meeting between the Emperor of Austria and the King of Prussia, attended by the respective ministers, was to take place on the 9th of June, on the frontier of Saxony. The movement creates some suspicion, especially as it has transpired that Count Moltke is the bearer of a letter from the emperor of Austria to Nicholas.

It is also rumored that Prussia is inclined to authorize Austria to propose an armistice.

PARIS.—A better feeling prevails on the Paris Bourse. The advance of the Russians towards the allied armies is announced, creating considerable uneasiness among a second world.

It is reported that every class of citizens are fleeing from St. Petersburg, under the impression that the troops now invading are Cossacks.

The Times Paris correspondent alludes to the existence of an injurious intrigue in the Turkish Councils, and misunderstanding in the war department at Constantinople. Russian bribery is hinted at.

Important movements are also discernable among the German States.

An important change has taken place in the Turkish ministry.

GREAT BRITAIN.—Lord John Russell has laid before Parliament a treaty with Spain respecting the Cuban slave trade.

Kossuth made an eloquent speech at Poland, on the nationality of Poland.

The overland mail has been received with Calcutta dates to the 1st of May, and Canton to the 20th of April. It is reported that the insurgents, assisted by Europeans, had driven the Imperialists from Shanghai.

Several defalcations are reported on the Paris Bourse.

SPAIN.—Six war steamers, instead of four, are to be sent to Cuba, with 6,000 additional troops.

TRAFFIC.—Rumors prevail at Havana that Russian ships are cruising in the Mediteranean, under American flags.

Another miracle is reported to have taken place. A picture of the Madonna, at the church of San Antonio, in Civita Vecchia, has been winking at the worshippers.

THIRTY-THIRD CONGRESS.

WASHINGTON CITY, June 21.—*House*—Messrs. Churchwell and Cullum made apologies for their conduct in a fight. Other proceedings in the matter took place, and the affair ended in smoke.

Mr. Wilson offered a resolution calling for a committee to investigate the disorderly proceedings of yesterday.

Messrs. Cullum and Churchwell apologized, and after some debate Mr. Wilson withdrew his resolutions, and the matter was dropped.

Mr. Wilson gave notice of his intention to introduce a rule providing for their expulsion by a two-third vote of all members, for bringing dangerous weapons into the hall, and making it the duty of all members carrying weapons to report the fact to the door of the house, before entering the hall.

The President sent a message notifying Congress that a treaty with Mexico had been returned accepted, with the proviso that ten millions be paid in two installments, seven days after the exchange of ratifications, and three when the transfer of the ceded territory shall be settled. He calls upon Congress to appropriate the money at once.

The House then adjourned.

EXTENSIVE FIRE AND LOSS OF LIFE.

PHILADELPHIA, June 21.—Yesterday afternoon, about four o'clock, the extensive six story Cotton Factory, corner of Jefferson and Mifflin streets, Eighteenth Ward, in which 130 operatives were occupied, took fire and burned to the ground. The fire commenced in the engine room, and spread rapidly through the building, rushing up the stairway and cutting off all communication with the upper stories. A terrible and frightful scene ensued. The operatives above were mostly females, who, finding themselves cut off by the flames, screamed frantically for help, and commenced jumping from the windows, and but for the active exertions of the firemen with their hooks and ladders all must have perished. Several are missing—supposed to have perished in the flames.

Mr. William Gray, of the firm of Gray & Phillips, and Mr. Holt. Each firm had large stocks of goods and materials, which were entirely destroyed. The adjoining unoccupied building, were destroyed. The loss is probably $60,000.

Thomas Hill, brother to the former owner of the factory, is missing. He went to sleep in the building at 3 o'clock, and has not been since seen.

A man named Mackle jumped from the third story and had both legs broken. A female jumped from the fourth story and broke both legs. Another escaped slightly injured. A large number were severely burned on the hands and faces.

NEWS FOR RIVER MEN.

The River—There were three feet four inches water in the channel, last evening, by the metal marks. Weather cloudy, with a prospect of rain.

The Cincinnati Commercial, of the 20th, says that the river had raised eighteen inches since Saturday, and was still slowly coming up. The worst bar between that port and Louisville, (just at Rising Sun,) is getting better. At first, there was no channel through that place at all; but now the water has, by the help of keels of boats, carried out a track, and there is now between six and seven feet water on the shallowest places in the channel at Louisville.

The steamer Diurnal, the regular Wheeling packet, has laid up for the season of low water; and the steamer Exchange, of lighter draught, has taken place in the morning line to Wheeling.

The regular packet for Wheeling, today is the steamer *Pilot*. She leaves this morning at ten o'clock, after making her maiden trip, connecting with the Cleveland and Pittsburgh Railroad at Wellsville.

The steamer Latrobe, Captain J. N. Cook, will leave on Friday for Cincinnati. She is a light draught, with equal accommodations to any of the larger packets in the trade.

The propeller *Alliance* is the regular packet for Cincinnati this morning, in charge of Capt. Jas. Dean.

The river at this point continues to recede, with about four feet water in the canal. There was from eight to nine river is now very low, and still falling, with from 8¾ to 4 feet water on the channel bents to Cairo. The Cumberland is rapidly falling, with from 3¾ to 4 feet on Harpeth Shoals.

The St. Louis *Republican*, of Thursday last, has the following in relation to the upper rivers:

"The river opposite the city was falling slowly yesterday, but still, in all probability, rise again today. For several days past it has been coming out of the Missouri.—*Louisville Democrat*, 19th.

To Make Your Hair Curl.
WONDER OF THE WORLD.—The great wonder of the world has at length been discovered. You cannot make one hair white or black, but Mr. BYRON H. ROBB has at length procured the truth of the great secret; after much study, toil and expense, how to make the hair curl and wave in the most beautiful and graceful manner for life. The proprietor has traveled through various parts of Europe for upwards of nine years, in search of the celebrated chemist and physiologist, M. Jaques, and has at length found him in Italy, and purchased of him the receipt for the sum of $8,000. All persons having the most uncouth and coarse looking hair, can have it transformed into the most beautiful and curling appearance that could be desired. The composition of which the article is composed will not cost more than 50 cents, and but one application is needed to the hair to cause it to curl and wave in the most uniform and perfect order for life, and thus improve the looks and appearance 100 per cent. We now offer this wonderful discovery to the world for the sum of $1,00.

Direct all letters to BYRON H. ROBB, Farmington, Trumbull county, Ohio, and the receipt will be immediately forwarded to the person. All letters must be post-paid to secure attention. jel03mw
