THE LAW OF NEWSPAPERS.

If subscribers order the discontinuance of their newspapers, the publisher may continue to send them until all arrearages are paid.

If subscribers neglect or refuse to take their newspapers from the office to which they are directed, they are held responsible until they have settled the bills and ordered them discontinued.

If subscribers move to other places without informing the publisher, and the newspapers are sent to the former direction, they are held responsible.

The courts have decided that refusing to take newspapers from the office, or removing, and leaving them uncalled for, is *prima facie* evidence of intentional fraud.

TO COAL OPERATORS.
Great Improvement in Coal Screens.

THE UNDERSIGNED are now prepared to manufacture at their shop, in Minersville, all kinds of SCREENS for screening Coal, of the improved manufacture patented to Jonas Laubenstein, 4th February, 1860.

Screens manufactured by this process, are more durable, maintain their form better, and are furnished as cheap as any to be had in the County.

They are made of square iron, in such shape as to prevent the Coal sliding from one size to the other before it is thoroughly assorted, thus preparing it better than can be done by cast iron or wire screens.

The manufacturers directly interest all Operators wanting Screens, to examine these new patent Screens at their shop, or at work at the Mammoth Vein Colliery of George S. Reppler, near St. Clair, where they have been in use for some time.

By purchasing Screens made under this Patent, litigation or any trouble as to patent rights, will be avoided. All work done with prompt care and despatch.

Office of the Celebrated
BROAD TOP
AND
White Ash Semi-Bituminous
AND
East Lehigh Coals,
No. 104 Walnut Street, Philadelphia.

The undersigned would respectfully call your attention to the Celebrated Broad Top Coal, mined out of his own property, prepared directly under his own supervision, and confining his operations exclusively to this region, (*having no other soft Coals for sale,*) the purchaser can rely upon obtaining a pure article of Broad Top Coal without the risk of finding a mixture of *Coals from various veins or from other regions substituted,* which in appearance might be similar, but in quality vastly inferior. From the advantageous arrangements he has been effected with the principal Railroad and Canal Companies, purchasers can be supplied at the lowest price, upon the most reasonable terms, and at the shortest notice.

For Steam Generating, Marine and Locomotive Engines, Rolling Mills and Puddling Furnaces, Glass Manufactories, Blacksmithing, Coking, Brick and Lime Burning, this Coal cannot be excelled.

Its exemptness from Sulphur and impurities highly injurious in the manufacturing of iron, and destructive to Machinery, Boilers and Grate Bars, gives it pre-eminence. Its easy combustion, combined with its beautiful white flame, renders it a desirable fuel for Parlor Grates.

East Lehigh Coal.

Will be pleased to communicate any further information, and will be most happy to receive your patronage.

I am, Respectfully,
ROBERT HARE POWEL.

☞ Caution.—Purchasers are respectfully requested to require all persons representing themselves as my agents to produce a written certificate to that effect. May 25, '61 21-tf
