Daily Morning Post.

OFFICIAL PAPER OF THE CITY.

PITTSBURGH:

SATURDAY MORNING.....MAY 5.

☞ **Reading Matter will be found on each Page of this Paper.**

☞ S. M. PETTINGILL & CO., *Newspaper Advertising Agents*, are the Agents for the Pittsburgh Daily and Weekly *Post*, and are authorised to receive ADVERTISEMENTS and SUBSCRIPTIONS for us at the same rates as required at this office. Their receipts are regarded as payments. Their offices are at

NEW YORK, 122 NASSAU STREET,
BOSTON, 10 STATE STREET.

MORNING POST JOB OFFICE.

We would call the attention of MERCHANTS AND BUSINESS MEN to the fact that we have just received from Philadelphia a number of fonts of new Job Type, and are now prepared to fill orders for Cards, Circulars, Bill Heads, Paper Books, Posters, and Programmes for exhibitions. All orders will be promptly filled.

☞ Mr. JOHN W. M'CARTHY is our authorized carrier on the route formerly served by JOHN FORGUS, and is alone entitled to collect from weekly subscribers.

☞ A boy is wanted at this office, to learn the printing business.

SATURDAY MORNING POST

This week contains a tale entitled Sherwood Forest, the story of Robin Hood; Poetry—Return of Spring. The news of the week, both local and general. Editorial—A Bankrupt Law; Kansas and the Missourians; The West End; Beating for Recruits; The Philadelphia Election; &c. Price one dollar per year to clubs of ten, or two dollars to single subscribers. Single numbers five cents; for sale at the counter.

HON. DAVID RITCHIE is entitled to our thanks for a couple of valuable volumes, being a portion of the Report of the Exploration of the Valley of the Amazon, with maps.

THE NEWS.

Washington Irving has entirely recovered from the effects of his late accident.

It is generally believed that Governor Gorman, Minnesota, has been removed from office. Cause, supposed to be incompetency.

Winter's Iron Works and Mills, at Montgomery, Ala., were destroyed by fire on Monday night, 30th ult. Loss, $100,000; Insurance, $60,000.

S. Yorke Atlee has been removed from the clerkship in the Sixth Auditor's Office, Treasury Department. The cause assigned for his removal is Know Nothingism.

The town of Blackville, Monongalia county, Va., was visited by a most destructive fire recently. Thirty-five houses were consumed, involving a loss of $30,000.

The Know-Nothings a year ago elected their School Borad in the city of Lancaster by over 600 majority. At the election for School Directors on Tuesday last, the Democratic and Anti-Know-Nothing ticket prevailed by an average majority of 130.

The Washington *Union* announces the sale of the law and miscellaneous library of the late Judge Purviance, to take place in Washington, between the middle and the 20th of June. The whole collection consists of about 7,000 volumes, of which about 3,000 are law books.

Secretary McClelland has issued a circular to the Clerks of the Interior Department, prohibiting their dealing in Bounty Land Warrants. One of the Clerks indignantly says he don't know what right the Secretary has to prohibit their dealing in legitimate articles out of office hours.

The Massachusetts Know Nothing State Council, held in Boston, on Tuesday evening, was largely attended, and the action decidedly Anti-Slavery. Governor Gardner and Henry Wilson are among the delegates chosen to the National Council, in June next, at Philadelphia. A. B. Ely, Esq., made an Anti-Slavery and Know Nothing speech, and strong Anti-slavery resolutions were passed, without a dissenting vote. Some who have been Hunkerish hitherto admitted it was of no use longer to continue so, as the order must take Anti-slavery ground.

The Rev. Mr. Halsey, Rector of Christ Church, while visiting the new building now in progress, adjoining the Everett House, New York, for the purpose of inspecting parts of the workmanship, and when in the act of looking through the opening of the large central window, lost his balance, and fell to the ground, a distance of some sixty feet. He never spoke after the fall, and survived the injury but half an hour. Mr. Halsey was in his 40th year He was a son-in-law of President King, of Columbia College.

CONNELLSVILLE RAILROAD.

An advertisement in another column of this paper will inform the public that the trains will commence running on a portion of the Pittsburgh and Connellsville railroad on the 17th inst. The portion that will then be brought into use is from West Newton, in Westmoreland county, to Layton station, in Fayette county, a distance of thirteen miles. Boats from Pittsburgh will convey passengers and freight to and from West Newton, and thus a steam communication is opened between our city and parts of Fayette and Westmoreland counties not hitherto favored with such cheap and speedy modes of transit. The companies have fixed the fare at a low rate, and we doubt not large numbers of our citizens will, during the summer months, avail themselves of this route to visit a pleasant portion of the country. If they have any good accommodations for boarders in the neighborhood of Layton station, plenty of customers can be found during the warm weather.

It will not be many weeks now until the track of this road is completed eastward to Connellsville. The work between Turtle Creek and West Newton is to be pushed forward with all reasonable speed, and when completed, a valuable new railroad will open to our city a rich farming region. It is supposed that this will be ready for use by the close of navigation by river next winter. The present officers and Board of Directors are entitled to much credit for their efficient management of the affairs of the company, and for the diligence with which they push forward the work. We wish them abundant success, and to the stock holders good dividends. When the road is opened to Cumberland the Baltimore trade with the northwest and the Lake regions, will make it pay well.

PROFESSORS ELECTED.—At a stated meeting of the Trustees of the University of Pennsylvania, Philadelphia, held on Tuesday evening, Dr. Henry H. Smith, of that city, was elected to the Chair of Surgery, rendered vacant by the resignation of Dr. Gibson, and Captain Henry Coppee, U. S. Army, now Professor at West Point, was elected to the Chair of English Literature, recently held by the late lamented Prof. Henry Reed. Mr. Francis E. Jackson, Philadelphia, was also elected Adjunct Professor of Language.

POTATOES.—Potatoes are selling in Boston for 75 cents per bushel, and in Detroit for the same. There is no good reason why they should not come down to about the same price in Pittsburgh.

In the Massachusetts House of Representatives, on Monday last, one of the distinctive measures of Know Nothingism failed. The Constitutional amendment relative to eligibility to office, after undergoing sundry changes, until it was in the shape of excluding from office all persons not born within the jurisdiction of the United States, was lost by a vote of 158 Yeas to 81 Nays; requiring nine more votes to make he requisite two-thirds to carry it.

THE SENATOR QUESTION—Mr. WILLIAMS' LETTER.

Some time ago a letter from Mr. Veech of Uniontown was published in which he undertook to show that the members of the legislature could meet in convention on the first Tuesday of October next and elect a Senator. He urges that the convention is a distinct body from the legislature, though composed of the same members, and can act as a convention after the legislature has adjourned without day. Neither Mr. Veech's letter nor the opinions of many others have satisfied us of the correctness of this view of the matter.

Thomas Williams, Esq., of our city, has written a letter on the subject which we find published in the Harrisburgh *Union*, and we deem it of sufficient importance at the present time to republish it. (See first page.) It will be found in another column, and is worth reading for the ability with which the question is handled. It is doubtless the intention of Gen. Cameron's friends to meet at Harrisburg for the purpose of electing a Senator. It will then be a question for the United States Senate to decide whether that election is valid or void. If decided to be valid the person elected takes his seat in the Senate for six years. But we believe the objections to such an election which Mr. Williams presents in his letter are unanswerable. The Journals of the two Houses will be closed, made up and published before October. How could the proceedings of the convention be spread upon the Records then as the law requires. The legislature adjourns *sine die* next week. How can it ever meet again as a legislature, except upon the call of the Governor for an extra session? Yet it is the *Legislature* that elects the Senator, and not a convention as a distinct and independent body. Who will provide for the payment of the per diem and mileage for such a meeting in October? Not the present Legislature, at this session, as the number of days of attendance is not yet known and cannot be. The Legislature at this session has provided that each member of either House shall receive $500 as his salary for a session, whether it be long or short. Shall the meeting in October be called a *session*, and each member who goes receive the $500? An interesting question that to some of our law makers. We think the bill reads that for each session *after the present* the pay of members shall be $500. If that meeting takes place in October, and all attend, and it is considered a session, it will cost the State some $70,000; and yet they might fail to elect a Senator after all. If each member is to receive the $500, and mileage, and free tickets for the meeting in October, they will be well paid for their trip. In a week after they meet a new Legislature will be elected, so they cannot hold a session of more than a week. They would thus get about a hundred dollars a day for their valuable services

If the Legislature can meet again for any purpose, without a call of the Governor, after adjourning without day, then we would suggest in advance to the next Legislature the propriety of adjourning sine die every other month or so, and call every re-assembling a *session*. The members could make $2,000 a year by the operation, besides mileage.

Philadelphia Election.

The *North American* says that the result of the election in Philadelphia, on the 2d inst, is a triumph for no political party; but that it is a victory of the people over the politicians, and of public spirit over party spirit. That is the right kind of a victory; and we hope it will be followed up by many others of the same sort, if it was in reality what the *North American* calls it. The result in Philadelphia certainly indicated one thing pretty clearly; and that is that none of the old or new parties in that city are satisfactory to the mass of the voters. The vote shows very little increase of the new party for the last twelve months. The new party had control of the city affairs last year, and the expenditures have certainly been ruinously extravagant. The advocates of Americanism admit the great increase of the public expense; but say it was the unavoidable result of the consolidation of all the districts into one city. Last year was the first year under the consolidated city government, and some extra expense might be expected; but there was much extravagance besides. The Councils are now more nearly balanced between the political parties, and extravagance will be checked. The *North American*, though decidedly in favor of the American party generally, considers it a fortunate circumstance that the new party has not an overwhelming majority in the Councils of their city.

By the official returns it appears F. Knox Morton, the candidate of the Americans for City Treasurer, has a majority of 422; and George M. Hill, candidate of the same party for City Commissioner, a majority of 197. Both branches of the city councils have a majority of the same party, although a very small one. Last year the Americans had two to one.

THE SEARCH FOR DR. KANE.—The Kane Searching Expedition will doubtless get off before another winter fairly sets in—by the first of June, they say. Much later than that, it will not be likely to be of any great service in discovering the missing navigator. The propeller intended for the search was launched at Philadelphia, Monday. She is very strongly built, is only 250 tons burden, about half the size of the City of Boston, (which the Board of Navy Officers were overhauling at the Brooklyn Navy Yard a week or two since, and reported unfit,) and was originally designed for a Government light ship. It is intended to provide her with a screw and engines for propelling, and to give her a heavy press of canvas. The vessel will be provisioned by Henry Grinnell, Esq.

The command of this expedition is to be given to Lieut. H. I. Harstene, who for some time past has been the commander of the mail steamer Illinois, running between New York and Aspinwall, on the California route. Lieut. Harstene was born in the State of South Carolina, and entered the United States Navy in 1828, having now given nearly 30 years of his life to the naval service.—*N. Y. Times.*

COAL VS. WOOD.—The Lowell (Mass.) News gives the result of a trial of the relative cheapness of wood and coal for fuel, as follows: The whole distance run was 2,366 miles, of which 1,868 miles were with freight, using one cord of wood in twenty-six miles, or sixty-eight cords at $7, amounting to $476; and 598 miles with passengers, using one cord of wood in thirty miles, amounting to $199,51. Total expense of working by wood, $615,51. The expense of running the same distance with coal, at the rate of $6.50 per ton, the cost in Boston, amounted to $265,46, being a saving, in favor of coal, of $350,05, or above one-half. This is quite an item.

CITIES OF RUSSIA.—In all the vast empire of Russia, not more than three cities contain a population exceeding 60,000 inhabitants—namely, Petersburgh, 470,202; Moscow, 349,068, and Warsaw, 164,700; the population of Odessa is 60,155; Sebastopol, 41,255. Four cities only have populations exceeding 50,000 inhabitants. Archangel counts only 9,589. There are only twenty-five cities in the whole empire whose populations vary from 25,000 to 40,000. The respective populations of the other cities (1,047 in number) is small, varying from 10,000 to a few hundreds. The rest of the population is dispersed over the country in the valleys; but of rural population, strictly speaking, there is little or nothing.

A MODEST DEMAND.—A lawyer, named Eugene Casserly, claims from the city of San Francisco, California, $15,000 as a fee for professional services.

The Committee on Federal Relations in the Massachusetts House, on Thursday, reported a series of resolves declaring that Massachusetts reiterates her former sentiments in relation to the justice of the French Spoliation claims, and of the act which was vetoed by the President at the last session of Congress, and declares that the refusal of the United States Government to indemnify the parties rightfully interested in them, is a disgraceful repudiation of just obligations, and should receive the earnest protest of the people of each State anxious to preserve untarnished the national honor, and to maintain unsullied the national credit.

ITEMS.

In the memoirs of Sir Robert Strange, just published, it is mentioned that, in the pursuit after Culloden, that knight had some narrow escapes. One of them is amusing:—"When hotly pressed, he dashed into a room, where the lady whose zeal had enlisted him in the fatal cause sat singing at her needlework, and, failing other means of concealment, was indebted for safety to her prompt intervention. As she quickly raised her hooped gown, the affianced lover disappeared beneath its ample contour, where, thanks to her cool demeanor and unfaltering notes, he lay undetected, while the rude and baffled soldiery vainly ransacked the house." To this lady, Miss Isabella Lumisden, he was soon afterwards united, and her letters, containing much shrewd sense, conveyed in the homely style of her day, make up great part of the memoirs.

Mr. Buchanan, the American Minister, speaking at a meeting of the members of the Star Club on Wednesday, said that in India England continued making conquests until she had at length succeeded in subjugating a population of 150,000,000 to her sway; and yet when Brother Jonathan attempted to make a small acquisition in an honest manner, all England denounced his conduct in the most indignant terms—[laughter.] That was their uniform experience. There was an old proverb which says that "As the old cock crows the young cock learns;" but England would not suffer the "young cock" to learn at all, or to make any progress in imitation of his ancestors.

The Jack Tars at Balaklava much dislike carrying up provisions to the camp on their back, which all are obliged to do; and there is a very good story told of one who was overtaken by a general officer on the road. Jack was dressed in an old soldier's red coat, and had a bag of biscuit on his back, when the general made up at a point of the road, where it was very narrow. The general called out, "Soldier, allow me to pass you." Jack—"I am not a soldier." General—"Well, sailor." Jack—"I am not a sailor." General—"Well, then, what are you?" Jack—"Why, a —— commissariat mule." The general laughed heartily, and gave Jack half a crown.

The wife of John W. Beaver, of Port Deposit, Maryland, absconded last week with a married man of the same place, leaving two children, only fourteen months old. The runaways went to New York, but further the afflicted husband was unable to track them, and things have a bad look for his ever getting the "wife of his bosom" again. The fellow borrowed some $600 before his exodus. Beaver says he won't take the man's wife which he left behind; for his own, bad as she is, he contends, is much better, and it would be a bad swap, as the children of both would fall to his lot.

The Buffalo Democracy learns from a gentleman who has been spending a few weeks travelling through Ohio, that he came across four mills that had on hand, and would manufacture before harvest, from wheat they had in store, over 10,000 barrels of flour each.

The Fayetteville (N. C.) Observer of the 30th ult., says:—We learn from several sources in the country, that the wheat crop in North Carolina is not promising. The winter and spring have been too dry.

The Milwaukie Sentinel says there is now at that place, ready to go forward, 70,000 barrels of flour and 550 000 bushels of wheat. This includes the quantity shipped during the past week.

The California legislature is about fixing the fee for tying the nuptial knot at $2. This will bring the luxury of a legal marriage down within every one's means.

Another Asteroid, the thirty-fourth of the system of small planets, between Mars and Jupiter was discovered at Paris, on the 6th ult.

The Young Men's St. Patrick's Association of Montreal, is taking measures to assist Father Mathew, who, at last accounts, was in Madeira "suffering from actual want."

A severe drought prevails at New Orleans; only one rain since the 19th of March.

The bounty land applications now number 113,000, and still coming in.

From the American Medical Gazette.

Petrifaction Human Bodies.

In the old Cathedral Church of Bremen is a vault, the atmosphere of which possesses the peculiar property of preserving from decay all bodies that may be placed therein.

Visitors are shown eight human bodies beside a number of cats, dogs, monkeys, birds, &c., all of which, by mere exposure to this atmosphere, have become dried and free from all offensive effluvia; resembling in appearance, coarse parchment.

The body nearest the door is that of an English Major, said to have lain here one hundred and eighteen years.

The second, that of a German student, who lost his life in a duel. The hard, dry flesh still shows the sabre wounds on his throat and arm. His body has been here one hundred and seventy years.

The third, that of a Swedish Countess, whose body has remained free from the lot of common mortals for 140 years.

The fourth, that of a Swedish General, who was killed in the "Thirty Years' War," and whose throat still exhibits the mark of the wound of which he died.

The fifth is that of his aid de-camp, who lost his life at the same time, by a cannon ball striking him in the side. The destruction of the parts is plainly visible.

The sixth body is that of a workman, who fell from the steeple of the church when near its completion—four hundred years ago—and broke his neck. Owing to this accident, the peculiar properties of this vault became known; for the body of the deceased workman was laid in this vault for a few days, and, having evinced no signs of decomposition, the singularity of the fact induced the authorities to permit it to remain, and here it has remained during all that time.

The seventh is the body of an English lady, who died one hundred and thirty years since of a cancer on the lower jaw; the ravages of the disease are still perceptible in the ulcerated flesh.

The eighth is the body of a working man who has lain here for sixty years.

In a marble sarcophagus, standing in the middle of the vault, are said to repose the remains of the Swedish Chancellor, Van Englebrechten; but they are not permitted to be exposed to public view, on account of some still surviving relative of the family.

Each of these bodies retains to a great degree the appearance peculiar to itself in life. Thus the Swedish General was a short round-faced man, inclined to corpulency; his aid-de-camp was a slender, well proportioned man, in the prime of life. As in general appearance so also in facial expression do these bodies differ: the parchment-like skin, though drawn tightly over the bones, still shows something of the manner in which the muscles beneath once worked.

The only reasonable solution of the peculiarity of this result, (for no other part of the Church possesses it,) that I have heard, is, that here all the plumber's work of the building was executed, in melting and otherwise preparing the materials for the roof. We can only suppose, then, that the entire chamber became so surcharged with lead, that it has continued ever since to give forth vapors, which, forming an antiseptic chemical compound of lead, have operated upon the cadavera exposed to its influence.

N. L. CAMPBELL, M. D.,
Surgeon of the steamship Washington.
New York, April 20, 1855.

THE prevalence of incorrect notions upon the subject of medicine, is a great cause of misery. Medical practice should not be governed by principles cautiously deduced from the contributions of long experience and close observations. How important, then, that no medicine should be taken by invalids unless it emanates from the hands of men of talent, judgment, and the strictest probity. Hoofland's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia, is a preparation emanating from one of the most celebrated practitioners of modern times, and one of the greatest medical writers Germany ever produced. This article is now in able hands, as evidence that the article is prepared carefully and skillfully; it is producing the effect the original inventor intended. It is used by many of the leading practitioners of Philadelphia in cases of debility of the digestive organs, and biliary apparatus, and the diseases arising therefrom. We therefore recommend this medicine to suffering invalids. See advertisement.

☞ **The Pleasure and Comfort** of being WELL FITTED in a SUIT OF CLOTHES, is greatly enhanced by having them GOOD, and SUITABLE TO THE SEASON. GRIBBLE has got all that is necessary to effect that great consummation, both as regards fit and quality of goods. Persons wishing to experience all this, and be only moderately charged, can do so by calling at 240 LIBERTY STREET, head of Wood.

P. S.—Pantaloons, in particular, is one of his *greatest forte*s. ☞ cannot be beat in the style and fit of this garment. *Numerous references* could be given, if necessary, to corroborate this statement. (dec9) R. GRIBBLE

NEWS BY TELEGRAPH.

Reported Expressly for the Daily Morning Post

FROM EUROPE.

ARRIVAL OF THE STEAMER ATLANTIC.

NEW YORK, May 4.—The steamer Atlantic arrived to-day. Her news is highly important. The Vienna Conference is broken off. Russia rejects the demands of the Allies. Sebastopol has been bombarded since the 9th inst; the result is doubtful.

The new British loan has been taken.

The Emperor Napoleon accompanied by the Empress have been for a week in England and have been immensely glorified.

The British Loan of £16,000,000 has been taken by the Rothschilds.

The taxes are to be increased on incomes, tea, coffee, sugar.

England assents to Louis Napoleon's taking the command of the army in the Crimea. It is however, regarded as a doubtful rumor.

The Vienna Conference has been broken off, after the 12th session.

There are strong indications that Austria will refuse to act against Russia. Lord Russell, M. Drouin de L' Huys have left Vienna.

The bombardment of Sebastopol, of 600 guns, commenced on the 9th and continued incessantly to the 15th. An assault is not practicable. It is the intention to storm if possible.

The Asia arrived at Liverpool on the 22d.

All hopes of Austria taking the field against Russia are at an end for the present.

From the seat of War we learn that during the first two days of the bombardment of besiegers it was superior to that of the city and much damage had been done to the Russian works. During the night of the 13th the left attack of the allies obtained considerable advantage over the Russians. The Russians were twice dislodged from a strongly fortified position, which remained in the hands of the French. The possession of this position enabled them to fortify the summit of the ravine, which is of great importance. Since the siege began five of the seven admirals of the Russian fleet have died or been killed.

Gortschakoff has published an address to the garrison which states that matters look more encouraging to the besieged. Serious trouble had been created at Krojova by the brutal conduct of the Austrian officers. The people attacked the Austrians and drove them from the city. The official statements return 249 killed on both sides. The excitement continues and a deputation has been sent to the Sultan to demand justice.

Operations for strengthening the Russian forts in the Baltic are going forward with great activity, and 120,000 troops will concentrate in the Baltic provinces.

Most of the British advanced squadron has been detained in Great Belt by ice.

Parliament assembled on the 16th.

The estimate of the expenses of goverment for the year is £86 339,000 The revenue is estimated at £83 339,000.

It is thought that much party discord will arise from the manner of securing the new loan, as it involves the great principle of finance.

The visit of the Emperor and Empress of France has created a perfect furore of excitement. The Emperor made a speech on the occasion of his reception by the Lord Mayor of London, which gave great satisfaction.

Mr. Layard was entertained on board the clipper ship Donald McKay on the 21st.

Captain Beaton, of the ship Enoch Train, has been fined £10 for taking an excess of passengers.

The Russian prize, Sitka, has been handed over to the French.

Two thousand coliliers at Wigan are on a strike.

The Roebuck Committee is progressing in its investigations.

LATEST.—*London 23d, 1½ o'clock.*—Canrobert telegraphs to the 17th that the fire continues unabated; chiefly by the artillery but, the engineers are operating and have established us much nearer to the place. Another report says that the loss of life on both sides will be very great. A council of war was held and it is decided that the fire will be continued one week longer, then the assault.

Commercial.

Cotton steady and unchanged. Wheat and Flour lower and quiet. Corn slightly advanced. Iron unchanged. Money easy. Consols declined to 89½.

The Atlantic's dates are to Monday the 23d, Milligan, Evans, & Co. quote Cotton as steady and prices unchanged; buyers demand a reduction. The sales for nine days were 70,000 bales, including 10,000 bales to speculators and 6000 for export; N. O. fair 6¼, middling 6¾, uplands fair 5½, middling 6¼@6⅝ The market on Monday steady; prices unchanged.

Breadstuffs.—Brown, Shipley & Co. quote Wheat and Flour as having slightly declined. Corn advanced. Western Canal Flour 35@41. Ohio 42@43s. Wheat, white 11s 6d.

Provisions.—Richardson, Spence & Co. quote provisions as slightly advanced. The market closed with an active demand.

Baum & Brothers quote the Iron market as steady and unchanged.

Brown & Shipley report the demand for Cotton more steady for the last two days. The sales for the week ending on the 19th were 49,000 bales. The sales on Friday and Saturday were 20,000, of which 13,000 were to the trade. On Saturday the market closed steady.

Breadstuffs...On the 21st Brown and Shipley report Flour as declined 1s. Wheat declined 3d. Corn in more demand; holders realized 6d advance; Philadelphia and Baltimore 42s@42s 6d; new 39@41s; Ohio 42s.

Trade in Manchester was quiet, and during the week tolerably firm.

Provisions...Gardiner reports Beef more active and firmer. Pork in better demand, and prices maintained; stock heavy. Bacon improving—advanced 1s@1s 6d on the week. Lard—a fair business at 6s dearer, closing firm. Tallow active at 2s dearer.

Money abundant; notwithstanding the loan, bullion has decreased £56,000. Consols leave off at 89⅞@89½ for money. American stocks well supported without any advance.

NEW YORK, May 4.—Consul Faben's bail has been fixed at $20,000. Edward Boyle was refused as surety.

Benj. W. Rimball, implicated in the Martha Washington conspiracy, has been arrested and held to bail in $2600.

ST. LOUIS, May 4.—The Intelligencer expresses full belief in the rumored discovery of abundant gold deposits at the source of the Arkansas.

WASHINGTON CITY, May 4.—Arthur S. Nevitt is appointed Postmaster of New Orleans, vice R. W. Adams declined.

Dissolution.

THE firm of PENNOCK, MITCHELL & CO. has this day been DISSOLVED by mutual consent, and the Books of said concern having been transferred to JOSEPH PENNOCK and NATHAN F. HART, they only are authorized to settle and collect the debts due said firm. Persons knowing themselves indebted will please call at PENNOCK & HART'S, No. 141 Wood street, and pay the same. Those having claims against said firm will present them for payment.

JOSEPH PENNOCK,
THOS. MITCHELL,
JOHN B HERRON,
Pittsburgh, May 1st, 1855. NATHAN F. HART.

JOSEPH PENNOCK.....NATHAN F. HART.

PENNOCK & HART,

(Of THE LATE FIRM of PENNOCK, MITCHELL & Co.,)

FULTON FOUNDRY:

Warehouse, No. 141 Wood street, Pittsburgh, Pa.

my2 JAMES WARDROP.

Removed.

TO THE PUBLIC.—JOHN C. PARRY, successor to Parry, Scott & Co., has removed his Warehouse next the Foundry on SECOND street, adjoining Gas Works, where I am now prepared to sell everything in the Casting line at greatly reduced prices. [ap21m] JOHN C. PARRY.

SPECIAL NOTICES.

☞ **Stocking Factory.**—C. DALY'S Stocking Factory, where everything is made in the HOSIERY LINE, is at the corner of St. Clair and Penn streets. He is continually turning out every variety of Hosiery, well made and suitable to the season, which may be always obtained Wholesale and Retail at his Store, corner of Market alley and Fifth street. Don't forget the name—C. DALY and No. 20. ap25

☞ **The Great Restorative**—FEVER AND AGUE CURED BY DR. M'LANE'S LIVER PILLS.—Mr Jonathan Hougham, of West Union, Park County, Illinois writes to the proprietors that he had suffered greatly from a severe and protracted attack of Fever and Ague, and was completely restored to health by the use of the Liver Pills alone. These Pills unquestionably possess great tonic properties, and can be taken with decided advantage for many diseases requiring invigorating remedies; but the Liver Pills stand pre-eminent as a means of restoring a disorganized Liver to healthy action; hence the great celebrity they have attained. The numerous formidable diseases arising from a diseased Liver, which so long baffled the skill of the most eminent physicians of the United States, are now rendered easy of cure, thanks to the study and perseverance of the distinguished physician whose name this great medicine bears—a name which will descend to posterity as one deserving of gratitude. This invaluable medicine should always be kept within reach; and on the appearance of the earliest symptoms of diseased Liver, it can be safely and usefully administered.

Purchasers will please be careful to ask for, and take none but Dr. M'Lane's Liver Pills. There are other Pills, purporting to be Liver Pills, now before the public.

Dr. M'Lane's Liver Pills, also his celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States and Canada.

Also, for sale by the sole proprietors,

Pittsburgh, March 10th, 1855. (mh10)

☞ **Piles** neglected often prove fatal, leads to consumption; assist the parts three times a day with DALEY'S PAIN EXTRACTOR. If secretion form in the rectum then insert DALEY'S "Pile Syringe," filled with Extractor; and gradually discharge it as the syringe is withdrawn. It never fails to cure cases of any age or virulence, nor to give entire ease instantly to all, frequently curing by one application.

☞ Pile cases are known by the heat, itching, and pain of the anus. Bleeding piles are caused, sometimes, by the falling of he whole bowels, which then press the intestinal canal tight against the back bone, and keeps the blood from returning up the vessels, similar to the blood being kept at the top of your finger when a string is tied tight around it; such is frequent, and for scrofulous humors and ulcers to form therein; then procure a perfect abdominal supporter, and wear a compress to the rectum, and continue to use the salve as above, also, rub it well over the loins and abdomen for some time, and the natural belts that support the bowels will be contracted and made strong, and your life will be saved. If properly applied, every case will be cured. It never fails.

None genuine without a steel-plate engraved label, with signatures of

HENRY DALEY, Manufacturer,
C. V. CLICKENEE & CO., Proprietors.
