DAILY MORNING POST.

FRIDAY MORNING:.....JUNE 22

ADVANTAGES OF AN AWNING—A little boy, about five years of age, was sent to the grocery store at the corner, on some trifling errand, and while there his bright eyes lighted upon a barrel of pippins exposed temptingly to view, just outside the door. In going out, it appears, he took one, and returned to his mother munching it.

"Where did you get that nice apple, Willie?" inquired his mother.

"Got it at the docery?" replied Willie.

"Did the man give it to you?"

"No, I took it."

"Why, Willie, that was naughty; you should not take apples or anything else without permission."

"But nobody saw me."

"Oh, yes, Willie, there was One who saw you"

"Who saw me?"

"Why, God saw you."

Willie stopped a moment to consider, and then with a good deal of satisfaction expressed in his face, replied:

"No, he didn't, ma; *there was an awning over the door!*"

W. W. WILSON, Pittsburgh, Pa., has received the appointment for the exclusive sale within the State of Pennsylvania of CHARLES FRODSHAM'S COMPENSATED CHRONOMETER WATCHES, "new series." For the excellence of the principle of these time keepers, the British Government recently awarded Frodsham $15,000. In the Watches of the new series, Mr F. has succeeded by a more correct adjustment to temperature and a entirely new and peculiar construction of the train, by which more power is obtained without increase of size, in producing time keepers of wonderful and unrivalled accuracy. The great importance of the improved Watches is a perfect regularity of time under every variety of climate, motion and position. To perfect secure the adjustments, that the most violent exercise, on horse back, jumping, &c., produces on them no sensible effect. They are therefore peculiarly adapted for military purposes. Their general performance is within a minute of twelve months. For sale by

HOPPER'S PATENT PLANE

THE undersigned is prepared to supply CARPENTERS, CABINET MAKERS, and Manufacturing Wood generally, with his Patented and valuable PLANES.

All who have tried it, pronounce it a most valuable invention, that must soon come into general use. The following letters from practical workmen are but two among many letters the Patentee has received, and recommend the Plane above all others in use:

PITTSBURGH STEAM CABINET FACTORY.

We hereby certify, that during the last twelve months we have used Hopper's Patent Plane, and do not hesitate to recommend it to Cabinet Makers and Carpenters as superior to any other Plane in use. We consider it peculiarly adapted to planing oak, cherry, walnut, and all sorts of hard wood, and for planing very rough lumber, such as the old method of scraping, besides being a great saving of time, time may be saved by using this Plane, which gives a smoother surface than can be by any other plane or method in use. H. H. RYAN & CO.

To Mr. Jesse F. Eaton, Esq.:

Dear Sir—I have examined Hopper's Patent Bench Plane, and believe it to be a most excellent article for the use for which it is intended, as a combination of plane and scraper.

It is particularly adapted to planing veneers, and it does not require one-fourth the time or labor of the old methods, and I have no doubt, when its properties become generally known, but that it will entirely supersede the former tedious and laborious method.

I most cheerfully recommend it to all persons engaged in the Cabinet business, as from my knowledge of it, there is nothing so well fitted to give a smooth and beautiful finish to veneers as the Hopper Patent Bench Plane.
