MECHANICAL BAKERY, S. W. Corner BROAD and VINE Streets, PHILADELPHIA. This establishment is now in successful operation, day and night, and all are respectfully invited to call and see the whole process of bread-making for themselves.

The undersigned takes the liberty of saying that for thirty-five years he has been a practical Baker—five as apprentice, and five as journeyman in one of the first houses in Scotland, and twenty-five as master—during which time he has had the opportunity of making many experiments, and observing all the improvements which have been made during that period.

In this establishment, of which he has now the management, in addition to the complete labor-saving machinery, he has how facilities of many kinds not heretofore possessed.

Being unrestrained in the purchase of flour, none but the soundest and best shall ever be used; and he has no hesitation in saying that Bread of all kinds can be delivered, unsurpassed in quality and weight by that made by the ordinary process.

Families in which the Bread made by the Mechanical Bakery has not been tried, or in which it has been tried only at the commencement, before the machinery was in perfect working order, are respectfully asked to give it a trial now, the undersigned believing it would lead to mutual advantage. WARMING AND VENTILATING WAREHOUSE, 1132 MARKET St., Philadelphia.

BUILDINGS OF ALL DESCRIPTIONS WARMED AND VENTILATED BY CULVER'S NEW PATENT HOT-AIR FURNACE.

The above Furnace has now been in use during the last two winters in this city, and has given universal satisfaction. The large heating surface being directly over the flame of fire, fire, and the central tubes, through which all the drafts pass, are so arranged as to consume the larger part of the gases from the coal, being entirely of Cast Iron, with deep, sand joints, is now offered to the public as the most complete heating apparatus now in this market. C. W. Culver, a practical mechanic, will personally attend to all heating and ventilating.

ALSO,

Six sizes of Cooking Ranges, adapted for hotel and private use. Collins' Patent Chimney Caps for ventilating and cure of smokey chimneys, with a full assortment of Registers and Ventilators of every size and pattern. Fire-place Stoves, Bath Boilers, &c.

Jobbing promptly attended to.
