The Coal Trade for 1846.

The quantity sent this week, amounts to 21,474 18 tons, alittle less than last week.

Our region has been filled with dealers during the week, endeavoring to make contracts for their supply of coal.

The colliery viewers or agents, have not yet received any instructions from the Rail Road Company, with regard to an equitable distribution of Cars. The cause of the delay is not known.

The demand for coal continues brisk, and cars are as scarce as usual.

The Delaware Division of the Pennsylvania Canal, will not be ready before the 20th or 25th inst., for shipments.

The quantity of coal sent from the Lehigh Region this season is 3,516 tons.

Vessels are plenty, and the prices have declined.—We quote to Boston $1 62½ to 1 75; Providence and Fall River $1 35 to 1 31½; New York $1 00 to 1 06½ per ton.

Sent to market for the week ending on Thursday evening last.

THE TARIFF OF 1842 IN DANGER,

A bill reported for its destruction!

On Tuesday last, Mr. McKay, chairman of the Committee of Ways and Means, reported a new Tariff Bill reducing the rate of duties to the revenue standard. It is something similar in its details to the one proposed by Mr. Walker, for the use of the British House of Lords, which met with such decided approbation at their hands.—The duties range from 75 to 5 per cent. The duty on Coal and Iron, is to be reduced to 30 per cent. The bill provides that if sufficient revenue is not collected at these rates of duty, the Secretary of the Treasury is authorized to levy a tax of 10 per cent on Tea and Coffee. So it seems that the Loco Focos are not contented with endeavoring to crush the manufacturing interest, and thus throw the poor man out of employment, but they will also put a duty upon the Tea and Coffee he may use, which to him are actually the necessaries of life. So much for the Loco Foco love for the poor man.

It is now time that the friends of the Tariff of 1842 should speak out upon the proposed reduction of that bill. During the few years that it has been in operation, its influence has been felt in every department of industry, and the effects provided by it, have been manifest every where. The business of the Country was prostrate, manufactures were lying idle, working men were out of employment, and the whole aspect of affairs were dark and gloomy. Four years have now passed since the adoption of the Tariff Bill of 1842, and everything is changed. Business is in a healthy state, manufactories are in operation and good workmen can always get employment at fair wages. A destruction of the Protective Tariff must be followed by the most disastrous results, and those who wish to see the country continue prosperous ought to spare no efforts to defeat the new Tariff Bill. Meetings ought to be held, and remonstrances sent from all parts of the country. Something ought to be done immediately. There is no time to be lost.

Meeting of the Industrial classes

Opposed to a reduction of the present Tariff, and a Tax upon Coal or Iron, held at Fox & Mortimer's Hotel, Pottsville, on Saturday evening April 11, 1846.

Mr. GEORGE MARTZ, was chosen President, Wm. Irish and Bernard Reily, Vice Presidents, and

Robert Binford, Secretary.

On motion, a Committee was appointed to prepare resolutions for the consideration of the meeting. The committee after retiring for a short time, reported the following, which were considered and unan
