The Coal Trade for 1846.

The quantity sent this week is only 29,760 05 which is about 1,300 tons less than last week, and about 7000 tons less than the quantity sent three weeks ago.

The demand for Red Ash and some kinds of White Ash coal continues good—but some White Ash collieries continue idle for want of orders. Two of the most extensive White Ash collieries ceased mining entirely on Saturday last, throwing no less than 540 miners and laborers directly connected with the collieries, out of employment. As a large portion of the expenses of the collieries at this season of the year must necessarily continue during a stoppage, their losses must be heavy, yet there are many who *profess* to believe that all the stoppages have taken place merely for effect to create a panic. A few weeks more will suffice to convince all that it is not merely a "Whig panic," but a great depression of all kinds of business is *reality*.

COAL FREIGHTS.—Vessels continue plenty and prices steady viz:—To Boston $1 50 to $1 54; Providence and Fall River, $1 25; New York and Brooklyn $1 and to Baltimore 75 cts. per ton.

MYSTERIOUS DISAPPEARANCE!

INQUIRE for the manner in which the goods disappear from GEORGE W. SLATER'S shelves. When he thinks he has laid much stock for the Season, he generally has to renew it half a dozen times before the season is over. This proves that the people know where to purchase, and it proves moreover that he knows how to sell, for the good people of Pottsville who are wide awake and know as well as any people on earth, how many pins there are in a Dollar, would not purchase his goods almost as fast as he can get them up from the city, if he did not sell a little cheaper than any body else. The fact is, they are drawn to his store by an

IRRESISTABLE ATTRACTION,

Philosophers talk about the attraction of gravitation—magnetic attraction—chemical attraction—electrical attraction, and we know not how many other attractions, but they leave out the strongest of all—viz:

The Attraction of Self Interest!

We make it to the interest of every one to deal with us. We do business on the self evident principle, that it is better to sell a thousand dollars worth of goods in a week, at a profit of 5 per cent, than be six weeks selling the same amount at a profit of 20 per cent. Every one will acknowledge the justness of this principle; the prudential and economical will also see that by dealing with a man who carries out this principle in his business, they will save 15 per cent on every dollar's worth of

GOODS THEY PURCHASE.

We will then see the whole matter in the form of a syllogism, which is a sort of logical SLEDGE HAMMER, which knocks every think into a *Cocked Hat*.

People will buy where they can buy cheapest—this is our major proposition—Every body buys at Geo. W. Slater's—this is our minor—Ergo, Slater sells cheapest—this is our conclusion.

There, if you want stronger arguments come to our store, and we will give you arguments irresistable, and not to be gainsaid.

Orwigsburg Academy.

THIS Institution will open on the first day of September, proximo, for the reception of pupils, under an entirely new arrangement. Originally designed for the benefit of the whole county, it has in reality been confined almost exclusively to the citizens of Orwigsburg.

The Trustees now feel happy to announce that they have made such arrangements as will, in their opinion, carry out the original design of the institution, and secure to the citizens of the County, a School well deserving their patronage, where their children can receive a good English and Classical education, within their own borders and at a comparatively trifling expense.

They having secured the services of Mr. S. Frank-lin Penfield, as Principal, who is known to them, to be well qualified, both by natural talents and education, as well as by a correct and unblemished moral character, to take charge of such an Institution, and carry it on successfully.

The Female Department will be separate from the Male, and will be taught by Miss Eleanor B. Penfield, the sister of the Principal, but under his direction.

The branches taught, will be the common English branches; Algebra, Geometry, Surveying, the Natural Sciences and all the higher English branches usually taught in Academies, as well as Drawing, Vocal Music and the Latin and Greek Classics.

The terms of Tuition, will vary from 3 to 6 dollars per quarter, according to the studies pursued.

Board can be had in private families at moderate rates. It is hoped that arrangements can be made so that parents wishing to place their children under the special care of the Principal, can have them boarded in the same family with him.

The vacations will be as follows; three weeks from the 2d Wednesday in August; two weeks from the Wednesday preceding Christmas, and one week from the 1st day of March.

Orwigsburg is noted for the beauty of its location, and the purity and healthfulness of its atmosphere, as well as for the sobriety and good order of its inhabitants. Here a young person will be free from temptations, and surrounded by good moral influences, as well as by the beauties of nature, which are all calculated to stimulate and promote activity and vigor of body and mind.

Upon these considerations, we invite the patronage of the citizens of the County, and all who may be disposed to favour us, and we feel assured that their confidence will not be misplaced.
