The Coal Trade for 1847.

The quantity sent this week by Rail road, is 30,002 12, by Canal, 8,612 06; total for the week, 38,615 11 tons; total by Rail Road 1,201,566 16; do. by Canal, 211,895 06 tons.

Cars and Boats are both very scarce, and there is quite a brisk demand for coal—there is very little at Richmond, and the Stocks are light both in Boston and New-York.

The rates of freights to Eastern ports vary so much at the present season that we find it difficult to make any quotations. Vessels are scarce, and if has been as high as $1 40 to New-York, and $3 to Boston. The prices change every day, according to the supply of vessels.

Freight by canal to Philadelphia 90 cents—to New York $2 15. The New York Boats now loading are in all probability making their last trip.

Mr. Thomas Firth has resigned as one of the Managers of the Schuylkill Navigation. The *live* Managers are in the ascendency now, and we will soon have a new Tariff of tolls, and a much more liberal and popular policy will be pursued.

The extension of the West Branch Rail Road to Tremont has been completed, and a considerable trade from that region has been carried over this road for the last two or three weeks.
