LOCOFOCO EDITORS.

A Locofoco Journal of our borough copies an article which was written for the Journal in April last by the junior editor, in the absence of the senior editor. We frankly admit that we, in common with others, had some misgivings about Gen. Taylor's principles on the subject of the Protective Policy, Slavery and other democratic Whig measures at that time, all of which were however removed by the appearance of his Allison letter, in which he pledges himself not to veto any measure of domestic policy, that does not conflict with the constitution. Now it is well known that Protection to American Industry, Slavery in our Territories, Distribution of the Land fund among the States, &c. are all questions which *do not* conflict with the Constitution, nor are they questions against which hasty legislation can be urged, as they have been discussed for years by the people. Gen. Taylor expressly states in that letter, that if the people's representatives pass these laws he will not veto them—and if the representatives *do not pass them* they cannot become laws even with Gen. Taylor in their favor. Now this is all we ask—and it is sufficient to satisfy any honest thinking man in the community. Had not that letter appeared, the probability is that we should have hauled down his name from the head of our columns—or the name of any other man—yes, even the name of Henry Clay, if he had declared against the principles we believe to be for the best interests of the great mass of the people. We never will advocate a measure to-day, and oppose it to-morrow, at the whim of some politician—we never will permit ourselves to be bound hand and foot, by mere party men, and kicked and cuffed about like the veriest slave of the south, at the command of dishonest politicians, sacrificing every feeling of self respect, and all that ennobles human nature. The locofoco editors in Pottsville *may* submit to such degradation, but all the politicians in creation cannot compel us to do so.

"One of "Hoe's Last Fast" four cylinder revolving presses, similar to the pair upon which the *Ledger* is printed, was shipped from New York last week for Paris, to be used on "La Patrie," the same having been built to order.

Eight, if not ten, of these presses are demanded in Paris for use in the several papers now in circulation. As the French laws prohibit the introduction into France of machinery of foreign manufacture, all but this one will necessarily have to be manufactured in that country. For liberty to build in this country, and introduce into France this one, as a "working model," Col. Hoe obtained special permission of the French Government, under the monarchy, last winter, whilst in Paris; and he has now gone out again, having started in the Cambria on the 18th, to put this press in operation, and arrange for the building of the others in Paris, under the superintendence of one of the young men brought up in his establishment, by whom he is accompanied. The price of these presses is twelve thousand dollars each. Success to the American invention and the inventor."

The above article is from the British Free-trade tory paper, the *Ledger*. It cries out "success to American invention and inventors," and in the same breath cries out for Free Trade,—that is, throw open our ports to French Goods manufactured with cheap labor; rob our laborers of their wages, (which is their capital,) and all the comforts of life, and cause their children to cry for bread in a land of plenty; flood our country with English Coal and Iron, while our own Collieries and Establishments are doing but half work, and many standing idle,—while these Governments will not permit even Printing presses to be manufactured in our country except as models.—Could any British or French Tory paper in the pay of these Governments, do more? The fact is, our Miners and Laborers have effectually kicked British Free Trade Locofocoism out of our County, and the sooner they kick the Tory Free Trade *Ledger* out also, the better it will be for the Coal Region. If they *will* advocate British interests, let them go to England for support.

FREE TRADE.

The Russian Government required several hundreds of Locomotives and Cars built—they had no factories to build them at home—they refused to import them from this country, manufactured by American labor—but the Emperor sent to the United States—employed a number of American Mechanics as foremen, to instruct Russian workmen, (some from Schuylkill county—) erected Machine shops at St. Petersburg, and built all at home—thus employing their own workmen, consuming their own produce, and enriching their own country.

But our Tory Locofoco Journals shout free trade—throw open the American ports and let *our* country be flooded with Russian Sheet Iron, and Russian Hemp,—while our Sheet Iron factories, and Hemp factories are standing idle, and the people out of employment. Could any tory Russian paper do more for *their* country than the tory free trade papers of the United States are doing for them?

LOCOFOCOISM VS. THOMAS JEFFERSON.

In a letter written by Thomas Jefferson to Lafayette, in 1823, the great apostle of Democracy uses the following language in reference to the Veto Power, now so much lauded by the Locofoco party:

"The Tories are for strengthening the Executive and General Government: the Whigs cherish the representative branch, and the rights reserved by the States, as the bulwark against consolidation, which must end immediately in monarchy. And although this division excites, as yet, no warmth, yet that it exists, is well understood, and will be a principle of voting, at the ensuing election, with the reflecting men of both parties."

These principles do now divide the parties.—The Tory Locofoco leaders laud the veto "as the most democratic feature of the Government."

PRESENTATION OF THE BANNER
TO SCHUYLKILL COUNTY.

The ceremony of presenting the Splendid Banner on behalf of the friends of Taylor, Fillmore, and Johnston, of the city of Philadelphia, to the Banner County of Schuylkill, will take place this afternoon at 4 o'clock, in the Market Square.—The Committee from Philadelphia, will arrive in the cars to-day, at about 12 o'clock,—they will be received by a committee appointed by the Central Taylor Club of this Boro,' and escorted to their quarters. The Banner will be presented, we understand, by Charles Gibbons, Esq. of Philadelphia, one of their most popular speakers—the duty of receiving it has been assigned by the Central Taylor Club, to J. G. Neville, Esq. of this Borough, who is abundantly competent. (Mr. N. is truly eloquent, and highly talented; and if he could only correct one fault, which he must pardon us for mentioning, (that is making too long speeches,) and confine himself to moderate limits, he will become one of the most popular speakers in the State.

The spirit that is abroad in our County will, of course, draw a large assemblage together. The boys "that committed the great fraud in Schuylkill County," will be there—the *people* will be there—*honesty* and *confidence* will be there—and a shout of joy will ascend from the altar of patriotism, which will re-echo through our mountains and valleys, until the "ides of November;" when it will re-unite in one harmonious voice, and proclaim—"The stain of fraud and corruption is wiped out—Schuylkill County is redeemed, and has redeemed the State—our Country and our Country's Industry is triumphant—the 'swindlers' are rebuked, and hurled from power—woe unto those who attempt to deceive us again."

At a stated meeting of the Central Taylor Club, held on Tuesday evening last, the following Gentlemen were appointed a Committee on the part of the Club to receive the Philadelphia Delegation with the Prize Banner:

Bard Patterson,	Robert Morris,
James Sillyman,	Israel Reinhard,
John Shippen,	George Heisler,
John C. Lessig,	William Wolff,
Frank Pott,	Daniel Shartle,
Benj. Bannan,	N. M. Wilson, Esq.
Capt. N. Shillaber,	John J. Jones,
Thos. C. Williams,	Hon. Chas. W. Pitman,

Jacob Kimmel,	Samuel Kauffman,
Philip Osman,	Geo. Seitzinger, Esq.,
Frank Spencer, Esq.,	John Karnall,
John Reed,	

On motion, John C. Neville was unanimously elected to receive the Banner, on the part of the citizens of Schuylkill County. Attested,

J. P. SMITH, Sec'y.

A CHANCE FOR ALL THE DISTRICTS
A CHANGE MADE IN THE OFFER OF THE PREMIUM!

At the suggestion of a number of persons from the different sections of the County, the Central Taylor Club of Pottsville, has made a change in the offer of the full length portrait of Gen. Taylor and old Whitey, and propose giving it to the district out of Pottsville, that gives the greatest increased vote for General Taylor, on the vote for Governor Johnston, in proportion to the vote polled. All the districts in the County can now go to work, in order to obtain the premium.

The following is the resolution of the Club, adopted on Thursday evening:

Resolved, That the full length portrait of General Taylor, be presented to the district out of the Borough of Pottsville, that gives the greatest increased vote for Gen. Taylor, over the vote for Governor Johnston, in proportion to the number polled, on the 7th November ensuing. Attested,

J. P. SMITH, Sec'y.

PUBLIC MEETINGS.

A Mass Meeting will be held at Minersville, on Wednesday at 4 o'clock, P. M., which will be addressed by Joseph R. Chandler, and James Campbell, Esqrs. of Philadelphia. It will be held at Jeffrey's Hotel.

A meeting will be held at Port Carbon, in the evening of Wednesday next, which will be addressed by Joseph R. Chandler, Esq.

A Pole Raising will take place at Luke's Bull's Head, in Norwegian township, to day, at 2 o'clock. After the Pole is raised, the whole meeting will march into Pottsville, to be present at the presentation of the Banner. The meeting at the Bull's Head, will be addressed by Mr. Benjamin Haywood, and others.

A Mass Meeting will be held in West Penn, this afternoon, at 3 o'clock.

THE WORKINGMEN AGAINST THE VETO,
AND FOR TAYLOR AND FILLMORE!

We have seen no resolutions adopted during the whole campaign that please us so much as those adopted at the great meeting of the Carmen and Draymen of the city of New York.—We append them below and commend them to the attention of the people of this county. This monarchical feature (which appears to be so great a favorite with the Locofocos,) must be confined to the limits the framers of our Constitution intended it.

We, the cartmen of New York, in mass meeting assembled, regarding the present Presidential election as involving the great question of—whose will shall be the law of the land?—that of the Executive, or that of the people, as expressed through their representatives in Congress assembled:—Therefore—

Resolved, That we regard the will of the people, while acting within constitutional limits, as the fundamental principle which forms the enduring basis of all our free institutions; and that the wanton and capricious exercise of the one man power, to thwart the people's will, and to subserve the party purposes of party, calls for the severe and indignant condemnation of every patriotic heart.

Resolved, That our model of a patriot, and the one we would choose for our children, is now, and ever will be, found in the character and life of him who was "first in war, first in peace, and first in the hearts of his countrymen."

Resolved, That Zachary Taylor is a WASHINGTON patriot. The man of our choice—the man of the people—an honest, determined and just man—a noble General, and with sound judgment and prompt action—wise in council—ready for battle, and an earnest advocate of honorable peace. We are proud of his gallant deeds and brilliant victories, and willingly and heartily confide in his undoubted patriotism. For him we meet—for him we speak—for him we will act, till we add our victory to his victories, and the cheers of happy millions shall resound and be echoed over all the hills and in all the valleys of our favored land.

Resolved, That Millard Fillmore is another example for the American Boy—he has elevated himself by a faithful service and a honest patriotism without the influence of birth or the aid of wealth, alone.—We will do our best to send him along to victory.

OUR CONGRESSIONAL DISTRICT.

The following are the official returns of our Congressional District. Mr. Pitman has rolled up quite a respectable majority in a district which the locos *professed to believe* was doubful:

	Pitman.	*Dock.*
Lebanon,	2628	1797
Schuylkill,	4241	3395
Dauphin,	3224	2172
	10203	7364
	7364	
Pitman's majority,	2839	

EXAMINE THE ELECTORAL TICKET.

Friends of Taylor, examine your Electoral Tickets before you vote. Be sure that they contain 26 names, and that they conform with those at the head of this paper, which are correct. All kinds of spurious tickets will be circulated by our opponents, who have become desperate since their late defeat. Our friends from the country can be supplied with Tickets at this office.

STATE OF OUR DOMESTIC MANUFACTURES.

We clip the following from the money article of the Philadelphia *Ledger*, of Tuesday last:

"The Dry Goods *Reporter*, of New York, gives a very discouraging report of the state of the domestic dry goods trade. Our manufacturers, it so reports, are obliged to practice the most rigid economy.—"Even on heavy goods they are realizing but little profit, while on light goods, such as printing cloths, there is a positive loss. There is and can be but one escape (says the *Reporter*,) from the present state of the manufacturing interest, and that is, a reduction in the rate of wages and the adoption of the English system of short time." Low priced woollens, it is added, is the only article in the whole range of woollens on which the manufacturer has not bled to a considerable *extent*."

This is the natural effect of the Free trade doctrines which the *Ledger* advocates. We verily believe that the course the *Ledger* has pursued, has been the means of robbing the working classes of this country out of millions of dollars while professing to be their friend—and in order to put money in their *own* pockets.

COAL MINERS.

The Coal diggers in Pottsville and we believe in Pittsburg are about to apply for a law to give them wages' lien on the coal mines. This would seem to show that the coal diggers in Pennsylvania are under some disadvantages. If so, we advise some of them to turn their steps in the direction of the mines in this neighborhood. Here the diggers make a pretty fair proportion for all the money paid for coal here. On this side of the river they usually get nearly one-half; while the proprietors get only about one twentieth.—[*St. Louis People's Organ.*

The Coal diggers of Pottsville had no idea of asking for such a law, because they have sufficient good sense to know that no such law can be passed. It was a few Locofoco politicians, whose funds were low, and who desired to "diddle" the Miners out of funds to carry them to Harrisburg, as borers; but they could not 'come it,' and have dropped the law like a hot-potatoe, since the election. The only *lien* our Miners and Laborers want on the Coal Mines, is the Tariff of 1842—that never failed to secure them good wages, and they were promptly paid too.

GEN. WASHINGTON AND THE VETO.

The following is an extract from a letter written by the Father of his Country, in 1792, while President of the United States, to Edmund Pendleton:

"You do me no more than justice when you suppose that from motives of respect to the legislature, (and I may add from my interpretation of the Constitution) I give my signature to many bills with which my judgement is at variance. In saying this, however, I allude to no particular act. From the nature of the constitution, I must approve all the parts of a bill, or reject it *in toto*. To do the latter can only be justified upon the clear and obvious ground of propriety; and I never had such confidence in my own faculty of judging as to be over tenacious of the opinions I may have imbibed in doubtful cases."

How completely they correspond with the views of Gen. Taylor on the same subject.

SETTLING UP IN FULL.

The first instalment of the fraudulent and heavy draft made upon the industry of Schuylkill County, in 1844, was paid on the 7th of October. The second and largest instalment will become due on the 7th of November, next. We are happy to announce that it will be promptly met, and paid off in full by the people. The *endorsers* have been "held very uneasy" for some time past. Our impression is, that a similar fraudulent draft cannot be palmed off upon our citizens again.

WAIT A LITTLE LONGER.

The Locofoco State Central Committee has published an address in which they propose to investigate the "unparalleled frauds," which they alledge have taken place in Schuylkill County. We advise them to wait until after the 7th of November, and they will have a much greater *fraud* to investigate.

☞ *Concert.*—The concert given by those accomplished artists, Messrs. Knoop and Schmidt, at the Town Hall, on Wednesday evening last, was not as fully attended as it ought to have been, considering the attraction. This we regret, because it is seldom our citizens have an opportunity of listening to such soul-inspiring sounds, emanating from the touch of master-hands. The evening selected too was unfavorable—the political clubs also met,—and politics is the all absorbing question here at present.

Mr. Schmidt desires us to state that he was not aware that arrangements had been made for a concert in this place, about two weeks ago, when it was announced. He had written up to a friend to make arrangements, but having received no reply from him, he presumed no arrangements *had been* made, until to late too comply with them.—This will account for a supposed neglect.

☞ *Trinity Church Cemetery at Mount Laurel.*—This Cemetery is now enclosed, laid out, and the burial lots are ready for sale. The first interment was made in the enclosure on Wednesday last. The whole plot is covered with shade trees, interspersed with pine and laurel,—and a large portion of the ground will be laid out in terraces. A rude chapel will also be erected on the ground as soon as the receipts will permit—and if we mistake not, it is destined, in the course of a few years, to become one of the most beautiful Cemeteries in this country. See advertisement under the head of notices.

☞ *Serious Accident.*—A female emigrant named Davis, aged about fifty, fell off the platform near the Reading Railroad Depot, on Tuesday evening last, and broke her arm and collar bone, and was otherwise injured. Medical aid was called in immediately, and her wounds dressed. Her friends reside at Port Carbon. A portion of the railing had been broken down where she fell off. If any of the Companies have been negligent in keeping up the Railing on their Roads, let them be prosecuted for damages at once.

☞ *Passenger Car on the West Branch Rail Road.*—We are pleased to learn that Mr. Wm. F. Clark, will commence running a train of Passenger cars on the Mine Hill and Schuylkill Haven Rail Road, between Schuylkill Haven and Minersville, on the first of November. Such a line has been much wanted, and we feel confident that Mr. Clark will receive the patronage he desires for commencing the enterprise.

☞ *A Wish Gratified.*—A basket containing a nice female infant but a few days old, was found on Wednesday night on the steps of a house located in Allen above Marlborough street, Kensington. The lady of the house has none of her own and was highly pleased to adopt the little stranger.—[*Exchange.*

Poor unfortunate souls! Why don't they emigrate to Schuylkill County?—they can get *lots* of 'em here, in the natural way.

☞ *Philadelphia and Reading Railroad.*—On and after the first of November, the morning Passenger train on this road, will leave Philadelphia and Pottsville at 8½ o'clock, instead of 7 o'clock, the present time of departure at these points.

☞ *Langfeldt*, condemned for the murder of Mrs. Rademacher, has suffered the penalty of the law. He made no confession; but declared his innocence to the last.

☞ *More Territory.*—The New York *Herald* states that our Government is negotiating with Spain for the immediate purchase of Cuba. If we *must* have more territory, it is much better to purchase it than to fight for it.

☞ *Not less than Twenty-five Dollars* worth of produce is consumed in the production of a single ton of bar iron in this country. Think of this, farmers, and then decide whether it is beneficial to your interests, to have our iron imported from Europe already manufactured.

The whole vote polled for Governor, is 336,744, which is an increase over the Governor's vote in 1844, of 19,223 votes.

GEORGIA.

The Milledgville *Recorder* publishes officially the votes for members of Congress in Georgia, from every County but Appling, in the First District, which gave 24 Locofoco majority. The following is the result:

Dist.	Whig.	Dist.	Locos.
I.	889 maj.	II	87 maj.
III.	494	IV.	191
VII.	1417	V.	2869
VIII.	1681	VI.	1577
Total.	4481		4723

Locofoco majority, 243!

The election was only for members of Congress. Last year the Locofoco majority was upwards of 1200.

SOUTH CAROLINA.

The most extraordinary result in the recent elections, is the success of a Whig member of Congress in Calhoun's district in South Carolina. Even this State appears to be wheeling into the democratic Whig ranks. It is believed that no less than three Taylor members of Congress have been elected in the State. There are equal chances that the Electoral vote will be thrown for General Taylor, by the Legislature.

OHIO.

The Columbus State *Journal*, of the evening of the 20th, gives the returns from all the counties in the State, official and unofficial, thus:

Ford,	21,815	Weller, 21,388
	21 388	
Ford's maj.	427	

The Representatives elected in Cincinnati, according to the provisions of the late apportionment law districting Hamilton county, have received the certificates of election, which ensures a whig majority in the lower House, and thus secures the United States Senator, in place of Mr. Allen.

FLORIDA.

All Whig—and will stay, Whig. She was young when she embraced Locofocoism—now that she has arrived at years of discretion, she has cast it off forever as an incubus upon her industry, and a fraud upon her people.

☞ *A Capital Illustration.*—The following capital illustration of Mr. Van Buren's sudden love of freedom is from a speech of Mr. Brady:—"Mr. Brady, as an illustration of Mr. Van Buren's late-in-the-day enthusiasm for Free Soil, told a capital story of an Indian squaw, who enlisted the sympathies of a traveller by bitter wailings for a child, which, as it subsequently appeared had died twenty years before. On being reproached with deceit, the old squaw said that she knew that her papoose had been laying in the grave twenty years, but (with a fresh burst of grief) she couldn't stand it any longer."

☞ *Gen. Caleb Cushing* does not seem to have been fortunate in securing the good will of his fellow soldiers during his harmless excursion into Mexico. The Boston *Bee* says "he attempted to address a public meeting in Springfield, on Thursday evening, when he was hissed, and rightfully too, by several volunteers and their friends." It does appear that those officers who were most thoroughly despised by the volunteers in Mexico, are the principal recipients of Locofoco favors.

☞ *Gen. Taylor and the Ladies.*—At the recent festival in honor of Gen. Taylor, at Pass Christian, the following sentiment was offered by the ladies:

"Gen. Taylor—Husband, father, friend, gentleman, warrior, christian. The free women of our land will bear him on their hearts to the highest seats of honor, giving to the world their appreciation of a man."

☞ *The Casting Vote.*—Pennsylvania had it in 1844, and she gave it to one George M. Dallas to use in her behalf. He used it, like a scurvy politician, for his own advancement and against her great interests. She has taken it back this year and proceeded to use it herself. It strikes us that her cast is a great improvement on Dallas's.—[*N. Y. Tribune.*

☞ *The Guillotine in Motion.*—On Friday last, two clerks of the Treasury Department, at Washington, were removed from office, on the ground that they were barnburners and prototers of that faction; one was from New York, the other from Pennsylvania. This is dog eating dog.

☞ *Some of the Democrats* undertake to say that Gen. Taylor is pledged, if elected to the Presidency, never to veto any bill at all. We guess if he had been President a few years ago, he would have vetoed a few of Gen. Cass' bills own and was highly pleased to adopt the little stranger.—[*Exchange.*

Poor unfortunate souls! Why don't they emigrate to Schuylkill County?—they can get *lots* of 'em here, in the natural way.

☞ *Philadelphia and Reading Railroad.*—On and after the first of November, the morning Passenger train on this road, will leave Philadelphia and Pottsville at 8½ o'clock, instead of 7 o'clock, the present time of departure at these points.

☞ *Langfeldt*, condemned for the murder of Mrs. Rademacher, has suffered the penalty of the law. He made no confession; but declared his innocence to the last.

☞ *More Territory.*—The New York *Herald* states that our Government is negotiating with Spain for the immediate purchase of Cuba. If we *must* have more territory, it is much better to purchase it than to fight for it.

☞ *Not less than Twenty-five Dollars* worth of produce is consumed in the production of a single ton of bar iron in this country. Think of this, farmers, and then decide whether it is beneficial to your interests, to have our iron imported from Europe already manufactured.

A SUBJECT FOR THE MEDICAL WORLD.

We publish the following letter from a Medical gentleman, giving a history of the births in a family, residing in West Branch valley, in this county. We believe it has not a parallel on record, and will unquestionably attract the attention of the Medical world. The parents names are Michael and Kate Dress, honest and industrious people, but poor in this world's goods. When the friends of *Home Industry* are placed in power at Washington, with Gen. Taylor at their head, one of the first acts will be to vote a tract of land in the West to Mr. and Mrs. Dress, as a reward for their exertions in the cause of *domestic industry*, and also for so admirably fulfilling the scriptural injunction, "Go ye forth and people the earth."

Orwigsburg, October 19, 1848.

Dear Sir—Enclosed you will find a short schedule of a family which numbers eighteen children—the oldest not having arrived at his 19th year. The mother is now in her 36th year—the father 37. They were married January, 1829.

January 1829.	*William*, (dead)	born June 1829.	
14 months interval.	*Edward*,	" Aug. 1830.	
	Charles,	" "	"

24 "	" *Amelia*,	" do. 10 1848.	

And the other three not named yet—giving birth to *four* on the 10th of September last.

This is one of the most interesting cases on record, in many of its features, and the only one, of a person of the age of this female giving birth to the same number of children in such a space of time. It would be impossible to give a full account of the many interesting features of the different Births in so condensed an article, so that they must be reserved for publication in a proper place. Suffice it to say, Schuylkill County bids defiance to the world to produce a similar case.

The attention of Mr. Forney, of the *Pennsylvanian*, is also invited to the investigation of this subject. In it may be found one of the causes for the "great increase of voters" in this County, at the last election.—Schuylkill County *is* a peculiar county—she is *great* in many respects—she not only *confounds* politicians, but produces natural phenomena, calculated to puzzle the curious and scientific.

THE TAYLOR BALL IN MOTION.

A respectable number of the friends of Taylor and Fillmore of West Brunswig township, assembled at the public house of Samuel Yost, on Saturday last, at 1 o'clock in the afternoon. The meeting was organized by appointing the following persons as officers. *President*, Dr. Jacob F. Treichler; *Vice Presidents*, Joseph Albrecht, John Hettinger, John Becker, Samuel Yost, Daniel Miller, Simon Shellhammer, Peter Bock, John Heisler and William Smith; *Secretaries*, Jared Shellhammer and Seth Price. An excellent speech was delivered by Dr. G. N. Eckert, in the German language.

A tremendous outpouring of the people took place on the same afternoon, at 4 o'clock, at the public house of Benjamin Bensinger, in the town of McKeansburg. The delegation from Tamaqua alone numbered 215 men. The gallant Rough and Ready boys from Middleport and Schuylkill Valley, as well as those residing in the neighborhood of McKeansburg, turned out in great numbers, and was doubtless the largest and most enthusiastic political meeting ever held in the eastern end of the County.

INDEPENDENT TAYLOR MEN.

An address has been published to the people of Pennsylvania, by the Independent Taylor men, which concludes with the following paragraph:

"We call upon all true friends of their country to sacrifice their party trammels and vote for the man of the people. We need not write his history; it is already written on his battle fields, and in the hearts of his countrymen. He has not changed since the first gun of Palo Alto made his name a part of our history. Politicians may have changed; numerous Democratic leaders, high in the scale of party influence, who first hailed Gen Taylor as the second Washington, may have since foreworn themselves, and abandoned the great man for the mere creation of a Convention; but Zachary Taylor is still the same unchangeable, honest man, and a frank and independent exertion of his true friends will elect him President—not of a party—but of the whole people.
